STOCKS CONTINUE IRREGULAR TREND

Junior Rails Feature the Early Trade; Steels Get Stronger

NEW YORK, March 24.—For the third consecutive session prices of stocks continued their irregular course today. Pressure directed against certain of the more speculative issues indicate an extension of the bear position.

Junior rails were strong features of the early trading, advancing 1 to 2 points on reports that both systems were to figure in a merger of roads between this center and the middle west.

Steels almost as a group strengthened appreciably under the lead of Bethlehem. Affiliated of the equipment division and motors and their subsidiaries also reflected substantial support.

The reverse side of the market was chiefly represented by leading oils of the domestic and foreign types; also sugars and affiliated specialties and International Paper common and preferred, Union Bag and Paper and several of the utilities, notably American Telephone. Sales, 875,000 shares.

Call money opened and renewed at 4 3-4 per cent, the highest initial quotation of the week, and held at that price until shortly before the close, when the rate dropped to 4 1-2 per cent.

Time funds, even for the shorter dates, were comparatively advanced and practically 1 to 3-month loans were made at 4 3-4 per cent.

Confusion marked the day in foreign exchanges, sterling easing, with firmness in French and Italian bills and a slight easing of the Belgian rate. German marks rallied a trifle from yesterday's collapse.

Liberty issues again indicated selling for profits in today's moderate dealings, all but one of that series closing at trifling recessions. Foreign issues tended upward but Mexicans were adversely affected by denials of early payment of that country's external debt.

Total sales 17,481,000.

Cotton Seed Oil.

NEW YORK, March 24.—Cotton seed oil was quiet but feverish today. Following an easy start the market advanced 14 to 21 points above the previous close, May reaching 11.80c or 100 points over lard. Towards the close the market reacted about 10 points under renewed liquidation, but net gains of 9 to 20 points obtained at the close. Sales, 10,800 barrels. Prime crude, 10.60c sales; prime summer yellow spot, 11.60c; May, 11.69c; July, 11.45c; September 11.49c; all bid.

Cotton

NEW ORLEANS, March 24.—Following a short period of easiness around the opening the cotton market became very steady today and stood at small net gains during almost the entire session. Late in the day a flurry of buying carried the market to its highest, where it stood 9 to 19 points higher than the close of yesterday, with May at 16.60c. The close was steady at net gains of 3 to 9 points, May closing at 16.52c.

The early decline carried prices 4 to 8 points under the last quotations of yesterday, May sagging to 16.35c. This selling was due to reports to brokers here that March tenders in New York amounted to 20,000 bales. The weather map soon became a steadying influence.

Further steadiness was gained from statistical statements, showing mill takings for the week of 166,000 bales. Around mid-session the market barely held its own, standing at net gains of not more than 5 or 6 points.

OKLAHOMA NEWS BENEFITS WHEAT

Unfavorable Crop Conditions in Southwest Cause Upturns

CHICAGO, March 24.—Upturns which took place today in the value of wheat resulted largely from Kansas and Oklahoma reports of unfavorable crop conditions and from signs of more active foreign demand. The close was unsettled, ½c to ¾c net higher, with May $1.32⅝ to ¾ and July $1.18 to $1.18⅛. Corn finished unchanged to ⅛@⅜c higher, oats ¼ to ⅝c up and provisions ranging from 10c decline to 15c advance.

At first the wheat market was depressed by a renewal of liquidation of May holdings. The majority of traders, though, soon switched to the buying side, influenced evidently by crop complaints from western sections of Kansas and Oklahoma, where it was said that wheat fields were failing to respond properly to improved weather, and the extent of winter killing was yet to be determined.

At this juncture gossip spread that considerable new export business was being done. On the ensuing advance the wheat shorts covered freely, but toward the last such buying lessened and the market was sagging somewhat at the close.

Talk of export sales of corn at the seaboard helped to rally the corn market. Oats was firm throughout the session because of rains causing delay to seeding.

Provisions fluctuated in line with hog values.

Dun's Report

NEW YORK, March 24.—Dun's tomorrow will say:

Actual improvement in general business is still slow to materialize but encouraging phases are attaining increased prominence. Some progress toward revival of activity is recorded each week and strengthening of sentiment upon which commercial recovery so largely depends has continued. Recent gains in certain basic industries, notably in iron and steel, are being extended and the expansion of building operations in most parts of the country is a highly favorable augury. Belief in a gradual betterment of conditions finds more frequent expression even in lines where results have been least satisfactory, and existing and threatened labor troubles, although causing uncertainty, no not check the growth of confidence. A more optimistic note has marked reports from the west since the appreciable rise in prices of agricultural products which has enhanced the public purchasing power in that section and the depleted state of most merchandise stocks leads to more numerous replenishment orders as consumptive demands broaden.

'SHIFTERS' INVESTIGATED

Paper Clip Is Sign Wearer Is Anxious to Flirt, Says Investigator.

NEW YORK, March 24.—The Society of Shifters, an organization whose password is "I have paid my checks" and whose purpose, according to the bylaws, is "to get something for something," is under investigation today by officials of the Vacation society.

The society, regarded at first as a "flapper fad," has spread rapidly and today is known to have invaded hundreds of communities, including several colleges and universities.

Officials of the Vacation society declare the doings of the "shifters" are no longer harmless but have become "dangerous to the purse and to the morals of every self-supporting girl."

The prospective "member," according to Mrs. Gertrude Robinson Smith, president of the Vacation society, "is made to believe she is being asked to join a universal secret society to promote cordiality, particularly between the sexes. Unfortunately, this is too often the case. The clip (a paper clip) which they wear as a pin, serves as an invitation to flirtation."

Cowboy's Horse Throws Him.

NOWATA, March 24.—J. Riley, a cowboy, whose home is northeast of this city, suffered a concussion of the brain when the horse which he was riding threw him. He is in a serious condition.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edward's Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.—Advertisement.

Islam Is Aflame Against Christian Rule

Little spurts of flame that seemed hardly worth noticing in India, Egypt, Tripoli, Morocco and Asia Minor during the past weeks and months now appear to many keen observers to be ominous manifestations of underlying volcanic fires that may set the Moslem world of 250,000,000 fanatical believers ablaze almost any day.

Turning to the news dispatches of recent weeks for evidence in support of this statement, the following items are encountered: India's demand for the rehabilitation of Turkey; unrest among Egyptian Mohammedans, resulting in Britain's pledge of self-government to Egypt; a Moslem revolt against Italian rule in Tripoli; a fresh uprising against the Spaniard in Morocco and a renewal of Kemal Pasha's campaign against the Greeks in Asia Minor.

Reports from India, notes the Washington *Herald*, indicate that certain Mohammedan leaders dream of making the country a Mohammedan state; and as a reminder that the Mohammedan faith is historically grounded in conquest and conversion by the sword, it quotes the following characteristic passages from the words of the Prophet:

"Fight in the path of God with those who fight with you . . . . and kill them wheresoever ye find them, and thrust them out from whence they thrust you out; for dissent is worse than slaughter . . . . Fight them till there be no dissent, and the worship be only to God . . . .

"I swear by God, in whose hand is my life, that marching about morning and evening to fight for religion is better than the world and everything that is in it; and verily the standing of one of you in the line of battle is better than supererogatory prayers performed in your house for sixty years."

THE LITERARY DIGEST this week, March 25th, presents as its leading article an intensely interesting and comprehensive explanation of the unrest which exists in large areas of the Eastern Hemisphere. The article is accompanied by a map which shows in graphic form the territory where the Moslems are challenging the rule of the Christian powers.
