STOCK TRADING CONTINUES HIGH

Session Diversified and Many Popular Issues Score High Prices

NEW YORK, March 31.—Trading in the stock market today again was unusually active and diversified. Many popular issues scored highest prices of the year on transactions approximating 3,000,000 shares.

Gains were substantially reduced, however, and in several instances entirely cancelled before the close, on the sudden flurry of money rates. Call loans rose to 5 1-2 per cent in the final hour, the highest quotation of the week.

Apart from this incident, sentiment in speculative circles continued buoyant. The approaching crisis in the coal industry seemed more than balanced by developments helpful to the long account.

The high-grade rails and industrials participated only moderately in the day's expansive operations, aside from favorite motors and equipments. New York Central made up the better part of its quarterly dividend at the outset, but this was forfeited later.

Advances of 1 to 3 points in Cast Iron Pipe, Savage Arms, United Fruit, Pressed Steel Car, New York Airbrake and Chandler and Studebaker were fairly well retained and several of the junior rails reflected the demand for kindred securities in the bond list.

Business in foreign exchanges was larger than on any recent day and almost without exception quotations showed distinct improvement. Sterling was at its highest range of the week. French, Italian and Belgian bills were 3 to 5 points higher and the German mark a trifle above .634 compared with last week's decline to 29 1-4.

After showing early hesitation Liberty issues resumed their upward movement in the bond market today. The 3 1-2s, second 4s and almost all the 4 1-2s equaled or exceeded previous high records of the year, closing at gains of 8 to 62 cents per $100.

Excepting Mexican government's, which rose 2 1-2 and 4 points, the foreign division was reactionary or irregular, but extreme gains in many of the low-priced rails extended from 1 to 4 points. New York, Westchester & Boston 4 1-2s led the rise.

There was heavy buying of the various underlying bonds of coal-producing companies, the impending strike of the miners exerting no adverse influence. Cotton carriers also gained on the more extensive movement of that commodity to market. Total sales, par value, aggregated $14,175,000.

Cotton

NEW ORLEANS, March 31.—Promise of better weather over the belt caused a softening in the cotton market today after steadiness in the early session, during which May was sent up to 16.81c and the list showed net gains of 8 to 13 points. Private messages told of considerable cotton up in central Texas, but this helped to depress prices, but after the noon hour selling was scattered and the market fell off mainly through lack of support, finally landing 6 to 9 points under the close of yesterday with May off to 16.61c. The close was at net losses on the day of 3 to 8 points, with May at 16.67c.

Takings of 178,000 bales for the week were larger than expected but did no more than steady the market around the middle of the day. These takings compared with 144,000 bales this week last year and 162,000 two years ago.

WHEAT SUFFERS HEAVY SETBACK

Bearish Crop Estimates Blamed; Winter Crop Condition Worse

CHICAGO, March 31.—Wheat underwent a material setback in prices today owing largely to bearish crop estimates. The market closed heavy, 1 to 2⅞c net lower, with May $1.32½ to $1.32¾ and July $1.17½ to $1.17¾. Corn lost 1 to 5c and oats ⅛ to ¾c. In provisions the outcome was unchanged to 15c lower.

According to reports given out today by unofficial authorities, the condition of the winter wheat crop appeared to be around 79 per cent as compared with 76 in December last. Estimates of the probable yield varied from 550,000,000 bushels to 580,000,000 bushels against December estimates of 527,000,000 bushels. With such figures current, and with milling and export demand slow, the market readily took a downward course, especially as Liverpool quotations showed weakness and there was continued moist weather in the domestic winter crop belt.

Lack of support for wheat values was particularly apparent near the end of the day. May delivery underwent a relatively greater setback in price than did July or September. All the active deliveries closed at the bottom prices of the session.

Corn and oats went lower with wheat.

Provisions were pulled down by weakness in the hog market.

His Heritage.

"You look like an idiot," thundered the disgusted man to his swell son, just returned from college. "You grow more and more like a conceited, hair-brained, helpless idiot." Just then an acquaintance of the old gentleman entered the office and saw the youth.

"Hello, Charlie, back, eh?" exclaimed the visitor. "You're looking more like your father every year."

"Yes," said Charlie, "that's just what the governor's been telling me."

ORDINANCE NO. 7775.

An ORDINANCE to apportion, levy and assess the cost of improving a portion of Latimer Avenue, included within STREET IMPROVEMENT DISTRICT No. 242, against the abutting property, the property benefited and other property liable to assessment, and the owners thereof, in said STREET IMPROVEMENT DISTRICT, and declaring an emergency.

WHEREAS, in pursuance of the provisions of the Charter of the City of Tulsa, Oklahoma, the Board of Commissioners of said City did, by resolution, declare it necessary to pave and otherwise improve a portion of Latimer Avenue, included in STREET IMPROVEMENT DISTRICT No. 242, of said City, and said Board did set forth in said resolution the nature and extent of the improvements to be made on said portion of Latimer Avenue, and the materials with which said improvements were to be constructed, and that said improvements were to be made according to the plans and specifications to be submitted by the City Engineer, which said plans and specifications were thereafter submitted to the said Engineer and duly adopted by said Board, and said Board did thereafter duly advertise for sealed bids for the construction of said improvements in accordance with said plans and specifications; and,

WHEREAS, a contract for the construction of said improvements was duly awarded to Western Construction Co., who executed the bonds required by law, and the City Engineer has prepared, submitted, and filed his written statement containing the names of the persons, firms, corporations and estates owning abutting property, the property benefited and other property liable to assessment for said improvements in the portion of Latimer Avenue in said Improvement District, the number of front feet owned by each and designating the property owned by each by block or lot number or otherwise, so as to identify the same, and also containing an estimate of the total cost of such improvements, the portion and amount of such cost to be assessed against the abutting property, the property so benefited and other property liable to assessment, and the total amount to be apportioned to levied and assessed against such property and the owners thereof according to the benefits resulting from such improvements, and said Board has duly examined said written statement and approved said written statement, and has duly determined by resolution to assess the cost of such improvements and directed notice thereof to be given to the owners of such property by publication as provided in said Charter, and has required due notice to be served upon the owners of such property by registered letter addressed to such owner and deposited in the Postoffice of the City of Tulsa, Oklahoma, and said Board did to such resolution so direct, and did fix a time it would hear all matters affecting such property, or the benefit thereto, or any claim or liability or objections to the making of such improvements, and the equitable apportionment of the cost thereof, and said Board did hear and consider all complaints and objections to the making of such improvements and the apportionment of the cost thereof, and said Board did thereafter revise and correct said written statement, and did approve and confirm said statement as so revised and corrected;
