future of prices are heard now than a few days ago. It is also noticed that in a few instances persons who heretofore have been emphatic in their expressions about values are either very quiet or occasionally let drop a remark to the effect that the remainder of the great "boom" is not worth the risk of attempting to secure. But Wall Street is a place where men exercise the right of changing their opinions upon very slight provocation, and therefore it will not be surprising if in a few days the timid men of to-day shall become as bold and rampant "bulls" as they ever were. Undoubtedly the continued stringency of money—to many unexpected—begins to have its effect upon the speculation, and the opinion of those who a month ago said that the return flow of currency would be unusually late, if, indeed, it came at all this year, is now valued, though it was scoffed at then. Perhaps it is the best opinion now that all the relief to the money market of New-York that can be expected during the remainder of this year must come from importations of gold, and that little or none of the currency which has been sent to the West will be returned. Very soon the pork of the West will be moved, requiring further remittances rather than a return of the money already sent.

Of to-day's transactions Erie contributed a greater number (40,400) of shares than any other one stock, and after frequent fluctuations between 40⅛ and 41¼ closed at 40⅝, a gain of ¼ per cent. Lake Shore and Michigan Central were dull, closing with a gain of ⅛ per cent for the first, at 99⅝ and a loss of ½ per cent for Michigan Central at 93½. The Northwest and St. Paul common stocks were fairly active, and in final sales show gains of ⅜ and 1 per cent respectively. Hannibal and St. Joseph common and preferred stocks were strong all the way out. Missouri, Kansas and Texas, after a decline of ⅞ per cent to 28⅛, during the final rally sold at 29¾@29⅞. Wabash was lower at 57½@58⅜; the St. Louis, Kansas City and Northern stocks closing unchanged from last night after fluctuations of ⅞ per cent for the common and 1⅜ per cent for the preferred stock. The coal stocks were well supported during the early decline in the general market and finally advanced from ¾ to 1⅝ per cent, the latter being for Delaware and Hudson. Western Union was steady at about 103¾ until quite late, when it rose to 104½, but it closed at 103¾, against 103⅞ yesterday. Pacific Mail declined from 36¼ to 35¼, closing at 36¼.

At the very close the market seemed again to be weak, all the spirit that was imparted to it a half hour before having disappeared.

The sub-Treasury to-day lost $910,132 on balance, made up by a currency loss of $478,249 and a coin loss of $431,903; this makes the total loss since last Friday $6,059,840. Since yesterday incoming steamers have delivered $873,000 in French gold coin and bars, making the total arrivals of gold since last Friday $4,951,800. The money market during the early hours of business perhaps was a shade easier than it was yesterday, the bulk of the business being done at from ⅛ to ¼ per cent commission added to the legal rate, with a few exceptional loans at simple interest; but toward the close the demand became so urgent that ¼ per cent added to 7 per cent interest was the common rate, and that rate was bid after 3 o'clock. The domestic exchanges continue to rule against New-York at all the principal points, being quoted at the places named as follows: Savannah, ¼@⅛ discount; Charleston, ¼@⅛; New-Orleans, commercial $4, and bank $1 discount; St. Louis, $1 50 discount; Chicago 75@60 cents discount; and Boston, 25@16⅔ cents discount.

The United States Treasurer at Washington today received $100,000 in National bank notes for redemption. The customs receipts were $790,000, and the internal revenue receipts were $720,000. The following is the Clearing House statement to-day: Exchanges, $148,156,217; balances, $5,331,087. The business at the Sub-Treasury covered: Receipts, $1,362,683; payments, $2,272,838; currency balance, $10,473,872; coin balance, $125,606,162.

At the regular weekly meeting of the governors of the Bank of England to-day the bank's minimum rule of discount was advanced from 2 to 3 per cent, money in the open market following up to 2⅝ per cent as the rate for discount of bankers' three-months bills. During the week the bank lost £909,000 bullion, and the proportion of the bank's reserve to its liabilities was reduced from 48 to 46 per cent. At the Stock Exchange British consols first yielded ⅛ to 97⅛, but closed at an advance to 97⅛ both for money and account. United States bonds were steady and unchanged, excepting a decline of ⅛ to 105⅜ for the 5 per cents. Among American railway securities, Erie common stock declined from 42¼ to 41½, the preferred remaining steady at 67. Erie second consols were fluctuating, being quoted 87⅞@88½@87½, against 88 yesterday, and the funded 5s declined ¼ per cent to 84. Illinois Central was ½ higher at 101½, and New-Jersey Central 1 per cent higher at 81. Pennsylvania declined ¾ per cent to 50½, and Reading ¼ per cent to 31½. In Paris, French 3 per cents opened at a decline of 10 centimes at 81.35, later advancing to 81.65; and sight exchange on London rose from 25.26 to 25.28 francs to the £. During the week the Bank of France lost 6,150,000 francs specie.
