HIDES—Firm; sales, 6,000 Dry Buenos Ayres, 24 1/2c., 4 months.

HOPS—Mr. E. Wells's weekly circular says there is a market trading off in receipts, and exporters have taken only 594 bales, against 1,682 last week. But a more important feature is the arrival here of an invoice of German Hops, which, though perhaps not of sufficient quantity to influence the market universally, is looked upon by many as a forerunner of what possibly may follow in the shape of important arrivals. The duty of 5c. per lb on Foreign Hops will, it is believed, be no particular barrier against importations, as it is but a small advance on the present high prices of Americans that brewers will not count. Our extreme quotations this week are nominal, and the general market shows considerably less firmness than last week. Receipts for the week, 2,987 bales; total since September 1, 1879, 60,307 bales; total for same period in 1878, 24,638 bales; export clearances for the week, 394 bales; total since September 1, 1879, 37,534 bales; total for same period in 1878, 5,488 bales; New-York new crop, 3@4c.; Eastern, new crop, 30@43c.; Western, 35@45c.; Yearlings, crop of 1878, 7@18c.; Olds all grades, 4@10c.; Pacific Coast, crop of 1879, 30@45c.; Old, 9@14c.

LEATHER—A trade circular says: The manufacturers are taking, from day to day, Hemlock and Union Leather to cover their orders for Spring goods. The short stock of both of the above kinds has impelled a further advance, as noted in the quotations. There has been an evening up of Hemlock Sole of the year's at Hemlock, and a decided advance on Union Tanned. Rough Hemlock is 2c. a pound dearer, and for the best so-called Middle Buenos Ayres Sole Sole is proportionally as low as it can be bought today. Receipts of the week, 16,213 sides and 1,816 bales; exports, 7,720 sides, viz., 4,760 to England, 3,060 to the Continent and 1,000 to various other destinations.

WOOL—Messrs. Manger & Avery's circular of the 19th inst. says: The activity recorded in our circular of October 10 increased toward the latter part of the month, and with the greater volume of business prices have rapidly advanced, until now quotations are fully 15 per cent higher than a month ago. Transactions have been largely between dealers, and embrace every description, while sales to manufacturers have been of sufficient magnitude to give confidence to operators, and added to the firmness of the market. Medium Wools continue to lead the market, and stocks are extremely light. Combing and Delaines are in good request, at prices slightly in advance of Clothing Fleeces. Fine Wools are in good demand, and have advanced in price relatively more than Medium Wools. All grades of Domestic Wools may be fairly classed as in small supply at the seaboard markets, with but little, if any, to come forward during the Winter. The cause of the recent advance in Wools is to be found in the radical improvement of the general business of the country. The woolen industry is the last to feel the beneficial effects, and it is possible that an advance in woolens has been discounted; yet it is hardly likely that there will be for the present any material advance in the price of Wool. Speculation may force values to a point from which they may recede, but it is not probable that our quotations for some time to come will be lower than they are to-day. After a period of unusual activity, such as we are now experiencing, it is reasonable to expect a season of quiet, and we would not be surprised to find a quiet market in December. California Wools of all kinds have shared in the general movement. Spring Wools have passed rapidly into consumers' hands and the bulk of the Fall Wools also have been disposed of to manufacturers as fast as they have arrived. Stocks both here and in San Francisco are much reduced. Oregon Wools have been in good demand, and the stocks have been very much reduced. What remains on hand is firmly held. Territory Wools—Medium Grades had the preference, but all classes have moved freely at advanced prices. Stocks are firmly held. Lake and Georgia—Stocks light; prices firm. Texas Wools—The few parcels of Spring Wools remaining on the market are firmly held. Transactions during the month have been mainly in Fall Wools, which have sold freely on arrival. The consumption of the Week ending with yesterday, and in view of their relative cheapness they will be likely to command a ready sale at quotations. Foreign Wools—Carpet and Clothing Wools have been ordered from abroad to a greater extent than at any time since 1872, and of the arrivals a fair amount has been sold freely on arrival. Under the influence of the American demand the foreign markets have advanced. Telegrams from London and Liverpool sales, which opened yesterday, report an advance on Australian Wool of 15 to 20 per cent and on Choice East India 10 per cent above September quotations.

WHISKEY—Market quiet, nominal; $1 16@$1 17.

LIVE STOCK MARKET.

NEW-YORK, Nov. 21.—BEEVES—Receipts were 145 cars of 2,144 head—107 cars at Jersey City and 38 cars at 60th-st. Total since Saturday 10,563 head against 9,518 head for the corresponding six days last week. At 60th-st. the supply and demand were about equal, and the trade was good at an advance of 3c. per lb on Common, Medium and Good Cattle; Prime and Extra Steers were sold at about the prices current on Saturday for the quality. At Jersey City more than one-half of the stock arrived late, the last train of 6 cars did not get in until 2 p. m., hence a very late market. There was, however, a demand for all the Cattle, and the market was rated one of the best that we have had for over a month. Prices were generally quoted 1/2@1c. higher than on Wednesday, especially for Common and Med Cattle, but some sellers were disinclined to be free in advance so much and telegraphed their Western shippers, "prices a fraction higher." The leading was as firm at the close of the market as when it opened, and a moderate supply of stock on Monday will insure an active and profitable market for the first two days, at least in next week. Cherokees, Texans and Colorados, both Grass and Corn-fed sold at 2 1/2@3c. to dress 55@56 lb; several carloads of Western Dry Cows at 3 1/2@3 3/4 live weight; Poor to Fair Native Steers at 7 1/2@8c. to dress 55@56 lb; Good to Prime at 9@10c., to dress 56 lb; Extra at 10 1/2c., to dress 58@59 lb, with a few Fancy Selected Steers at 10 1/2c., to dress 57 lb. Nearly 50 head of little State Grass Bulls were sold at $2 10@$2 25 per 100 lb.

STATE STOCK YARDS—Receipts were 55 cars of 10,224 head—7 cars at Jersey City, and 48 cars at 60th-st., including the 5 car loads which arrived late yesterday. Total since Saturday, 20,349 head, against 27,393 head for the corresponding six days last week. The market at 60th-st. opened firm and stock sold freely up to 3 p. m., but the supply was very heavy and the last drove of butchers not pretty well stocked up by that hour the feeling became weak, and at the close sellers quoted prices from 1/2c. to 3c. off, mainly on common stock. At Jersey City the supply was rather limited, and the pens were cleared at about yesterday's prices. Although there was some weakness toward the close, Sheep sold at 3@3 1/2c. with 27 Heavy State, part Kerns and part Wethers, to Mr. Hollis, at 5c. Lambs were sold for the most part at 5 1/2@6 1/2c.; a deck-load of very Choice
