WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending Jan. 5, 1880.

[Expressly for THE N. Y. TRIBUNE by our own reporter.]

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package or slovenly appearance fails. Pack securely, so that the motion will not allow the contents to change about. Use plenty of *clean, dry* fine-cut straw with eggs. Mark plainly with paint—a stencil-plate is best—and note contents on the box or barrel, stating the amount also. Send a letter at the same time, stating what is sent, the route, time, etc. An invoice or list should also be inclosed in the barrel or box. Always state the number of packages. Secure for yourself the reputation for fine goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts for the week: Beans, 1,232 pkgs.; Peas, 15,700 bush. The receipts of beans are light, but the demand is correspondingly light and the market is dull, with prices nominally more or less nominal. Marrows are held rather stronger at the moment than any other kind, though the higher prices asked have checked the business to a large extent. A car load of Red Kidney were sold at $1 75, but most of the stock is held at a higher figure. Black Beans weak and unsettled; it is difficult to effect sales even at quotations. Very few Green Peas are wanted, and prices are lower to sell. Green Peas are very light. But few Southern Black Eye Peas selling; prices remain about steady. Quotations:

BUTTER.

Receipts for the week, 14,817 pkgs.; last week, 12,851 pkgs.; corresponding week last year, 16,323 pkgs. Exports for the week, 4,592 pkgs.; corresponding week last year, 5,808 pkgs. Fine fresh Creamery is not over plentiful, and there is a fair trade at about 37c. for the best. State lots are freely offered and have very slow sale at 25@30c., according to quality. There is also a good trade in Fine Dairy Butter, and last week's prices have been fully sustained. Choice tubs and pails are salable at 30c., while exceptional sales of very fancy goods have been made at 32c. Entire Dairies are moving fairly at the prices made at 32c. Imitation Dairies are selling a little above the average of Fine even 22c. The bulk of the Dairies are of only medium quality, so that holders of Fancy lots are asking extreme prices. Really fine firkins have sold at 25@26c., and are easier to sell at those figures than the off grades are at 23@24c. All grades of Western Dairy, indifferent and fair factory goods are moving fairly at about steady prices. Superiors are buying quite freely of Fresh Factory at 21@22c. Choice rolls find steady sale at quotations, but stock that arrives a little soft and mussy, on account of the warm weather, has to be shaded a trifle. Altogether there is a fair trade, and the movement is connected exceptionally healthy—especially in this so with regard to Fine Butter. Quotations:

CHEESE.

Receipts for the week, 16,410 boxes; last week, 20,067 boxes; corresponding week last year, 15,024 boxes. Exports for the week, 20,192 boxes; same time last year, 23,557 boxes. Liverpool cable quotations steady at 58s. Stocks in New-York January 1, 1880, 194,758 boxes, corresponding date last year, 336,467 boxes. Liverpool is reported to have 63,510 boxes, against 180,000 boxes same time last year; and London has 70,300 boxes, an increase of only 300 boxes over last year. The estimated stock for New-York State, outside of this city, and Pennsylvania, Illinois, Wisconsin, Iowa and Ohio, is about 154,000 boxes, not one-half of the amount which was back at this time last year. Upon the basis of these figures, and the fact that there is a continued good demand both for export and home consumption, holders are getting very firm in their views, and it looks as though another "boom" had started. At the moment there is a good business doing in pretty nearly all grades, but particularly in grades which can be bought at 13c. and under, and the feeling is strong and buoyant. Strictly fancy parcels are not to be had below 13½c., while "pets" and "specials" are held at 13¾@14c. A receiver closed out 1,000 boxes of Prime and Fancy goods to-day at 13@13½c., and 13¾c. has been obtained in many other instances. Quotations:

EGGS.

Receipts for the week, 2,787 pkgs.; last week, 4,439 pkgs.; corresponding week last year, 2,616 pkgs. With warm unseasonable weather, an exceedingly light demand and free arrivals of fresh-laid Eggs, both from the South and West, trade is almost at a standstill. Nobody apparently has confidence enough in the situation to purchase any considerable lots, no matter what figure they are offered at. Receivers are nearly all pressing the stock on the market, and are vainly seeking an outlet through some outside point. At 4 p. m. to-day plenty of Strictly Fresh Western were offered at 20c., with no buyers. Held stock and Limed Eggs are not wanted at any price. Quotations are to a certain extent nominal, as there are no transactions upon which to base them. Quotations:

FRUITS, BERRIES AND NUTS—DRIED.

Receipts of Dried Fruit for the week, 661 pkgs., with 2,743 pkgs. of Peanuts and 215 pkgs. of Pecans. Exports of Dried Apples, 300 bush. There is a continued dullness in the market for nearly all kinds of dried fruits, both evaporated and sun-dried, and prices are more or less nominal. Apples can only be sold by shading previous prices, though the stock on this market is not heavy enough to make any very great reduction necessary. Peaches are still held with confidence, and all desirable lots are hard to reach below quotations. Small fruits very quiet but held about steady. There is a fair demand for Pears at unchanged prices. Hickory Nuts quite freely offered and dull. Pecans quiet.

FRUITS, BERRIES AND NUTS—FRESH.

Export of Apples, 6,165 bbls. The weather is exceptionally bad for keeping Apples, and stored lots are suffering severely. It is difficult to find any really choice lots. The demand is light for nearly all kinds, and prices show some weakness to-day. Grapes are quite abundant, dull and lower. Basket stock is not now wanted. A few California and Boston Pears continue to arrive, but there is not enough doing in them to warrant quoting. There is a very light demand for Cranberries for home consumption, but the shipping trade is good and keeps the market about steady. Some Fancy Jersey Berries are held at $2 50, but we hear of no
