Guns, Guns, Guns.

The attention of the sporting public is called to the new arrival of guns just received by Mr. Wm. Liever, Sportsmen's Emporium, 18 Commercial street. They consist of double-barrel, breech-loading shotguns and rifles, which to the sportsman's life are gems. They were selected with the greatest care from some of the best of English makes and are of the very best value for money ever offered in this market. The most fastidious sportsman can be suited, there being over 200 to select from at prices from a $9 single to a $200 Hammerless. Quality better and prices lower than any other house in California. 12-tf

Economical Fuel — Wellington Coal.

A careful estimate of the relative cost of coal and wood shows the Wellington coal to be the cheapest. It will burn in any ordinary grate or cook stove, giving a steady heat, and is much more convenient to use than wood. Now in general use by all the hotels, restaurants, etc. in this city. For sale at all the retail coal yards, Am prepared to sell same in car-load lots and upwards, delivered at any station on the line of the Southern Pacific railroad.

COLONY LANDS.

The Temecula

Land and Water Company

Are subdividing a tract of land situated in the celebrated

Temecula Valley, in San Diego County, California,

Recently owned by Don Juan Murrietta, containing fourteen thousand acres of land, having an altitude of about one thousand feet above the sea level. This tract of land lies about 45 miles southerly from Colton. The California Southern Railroad runs through the entire length of the tract. The soil in the valley is formed of sedimentary deposits. It is a rich, dark loam, without gravel or boulders, and can be easily tilled, as no clay or adobe soil appears, but is full of rich sediment, which holds the rainfall and prevents leaking or drying, so that when you come to cultivate you turn up moist earth. The superior value of this soil is its closely underlying supply of water, and when cultivated the moisture rises to the surface, doing away with the necessity of irrigation almost entirely, but in case of a dry season, if irrigation is thought to be necessary, an

Inexhaustible Supply of Water

Can be had by sinking from 2 to 10 feet. It is also in the artesian belt and artesian water can be easily obtained. The mesa is formed of undulating lands of reddish-colored soil mixed with decomposed granite on the surface, with enough mixture of clay in the subsoil to hold the moisture. There is a

Fine Running Stream of Water

With several branches running through the rancho. Also several hot and warm springs, noted for their cure of pulmonary diseases. These springs will be improved immediately and the Company design building a hotel and railroad depot on the townsite. Both buildings will be handsomely ornamented. The hotel will be built two stories high and contain thirty rooms.

The Directors of the Presbyterian College of Chicago, design putting a college building on the ground as soon as practicable. There is plenty of good oak wood which can be had delivered at the rancho at from $4 to $4.50 per cord, and common lumber can be delivered at $25 per thousand.

The climate is healthy. The rancho is not more than 15 miles from the sea coast and the ocean breeze fans the valley, purifying the atmosphere with invigorating effect. In the day time the air is soft and dry and always mild, a little cooler at night, but never more than being comfortable.

As a health resort, none in Southern California can surpass in natural advantages this beautiful district of land, with its warm springs of mineral water containing sulphur, iron and soda, its proper elevation above the sea, pure, dry and gentle air, with beautiful scenery all around, can but confirm the assertion that as a health resort it cannot be excelled, especially for catarrh, throat and lung diseases.

It is the intention of the Company, as soon as the land is subdivided, to sell in tracts from a town lot upward at prices that cannot but satisfy actual settlers. The prices will be classified according to the merits of the property. One-third down, balance in one and two years.
