WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending Jan. 27, 1880.

[Expressly for THE N. Y. TRIBUNE by our own reporter.]

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package or slovenly appearance fails. Pack securely, so that the motion will not allow the contents to change about. Use plenty of clean, dry fine cut straw with eggs. Mark plainly with *paint*—a stencil-plate it best—and note contents on the box or barrel, stating the amount also. Send a letter at the same time, stating what is sent, the route, time, etc. An invoice or list should also be inclosed in the barrel or box. Always state the number of packages. Secure for yourself the reputation for fine goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts for the week: Beans, 4495 pkgs.; Peas, 8,834 bush. Exports—Beans, 1,306 pkgs.; Peas, 2,302 bush. There was an active demand for Marrow Beans for export early in the week, and a good many were moved at $1 70@$1 75, but thus far this week the market has had a quieter tone, though stock is firmly held. Mediums are quiet and steady; there is a disposition to meet all demands at $1 55. All other kinds of Beans have a light inquiry, and rule very quiet. Peas are in light request and steady at $1 65@$1 70. Southern Black Eye are also slightly in buyers' favor with very little trade at the moment. Quotations:

Beans: Med.		Pea Beans	
Choice	@$1 65	Do fairto good	1 55 @ 1 65

Do. white	1 85 @ 1 90		
Do.fair to good	1 75 @ 1 80		

BUTTER.

Receipts for the week, 24,355 pkgs.; last week, 16,154 pkgs.; corresponding week last year, 31,335 pkgs. Exports for the week, 10,327 pkgs. of Butter and 100 pkgs. of "Butterine." There is just a fair demand for Strictly Fine Fresh Western Creamery for the fancy grade over trade at 35@36c. All other grades of Butter, but particularly State Dairy, are dull and heavy, with a free disposition to sell and but few buyers. Prices on all grades are very irregular, and are largely influenced by the confidence the seller has in the future, or the determined effort of the buyer not to exceed a certain figure. A well-posted buyer can get all the good Butter he wants at quotations, and if a receiver has a pretty large supply on hand and is a little "sick," or has no real confidence in the immediate future, there would be no trouble in getting still better inducements offered. Western Butter is no better than State; in fact the very free arrivals of fresh goods has caused a perfect glut, which has resulted in lower prices all round. Altogether, the situation is without a parallel in the past three months. The warm unseasonable weather no doubt has its effect upon the trade, but the extreme dullness is mainly the result of an over supply. Quotations:

CHEESE.

Receipts for the week, 6,965 boxes; last week, 12,603 boxes; corresponding week last year, 23,055 boxes. Exports for the week, 33,608 boxes; same time last year, 32,059 boxes. Liverpool cable quotations steady at 72s. With a continued active demand for export and a fair home trade, the market shows increased strength. Shippers have followed the advance better than was anticipated; if is reported that the French sugar-beets yesterday were even larger than a week ago, which points to large shipments this week. Sales of Strictly Fancy Cheese have been made at 14¾@14¾c., and even 15c. is said to have been reached for a "special" lot to a "special" customer, under "especially" favorable circumstances. It is now known, however, that a number of "pets" are held at 15c., and even 15½c. is hinted of. There is danger, under the present circumstances of crowding prices so high as to check the demand almost entirely and bring trade to a standstill, which might be attended with more serious consequences than is now thought possible. Still, so long as the foreign demand holds on, and stocks are being so rapidly reduced, holders are justified in asking stiff prices. Quotations:

State factory, fancy	14¾@14¾	Ohio good to prime	13 @13½

EGGS.

Receipts for the week, 4,373 pkgs.; last week, 4,231 pkgs.; corresponding week last year, 2,330 pkgs. Continued warm weather and a very light consumptive demand cause an extremely dull and weak market. Stock is freely offered at outside quotations, though we hear of sales at the inside figures. Strictly fresh laces are the only kind wanted; refrigerator and stale fresh stock is entirely unsalable. No movement whatever in Limed Eggs. Quotations:

Penn.&N.Y., doz.	16½@17	Canada, fresh	12½@13½
Western,fresh	16 @16½	State, Limed	11 @12
Do. held stock	10 @14	Western, Limed	10 @12
Southern, fresh	15½@16		

FRUITS, BERRIES AND NUTS—DRIED

Receipts of Dried Fruit for the week, 9,9[illegible] pkgs., with 3,162 pkgs. of Peanuts and [illegible] pkgs. of Pecans. Exports of Dried Apples, 5,351 bbls. There is very little doing in the Dried Fruit market and to effect sales prices would have to be shaded a trifle. Still the stocks here are light, and from the favorable condition of Western markets the outlook is rather better. A letter from a prominent dealer at Chicago under date of the 25th, says: "More movement in Dried Apples, and prices have advanced ¼c. within the last three days." A dispatch from Buffalo, received this morning, indicates a large movement in State Quarters; 7 car-loads, in sacks, were so d at 8c., and 4 car-loads, in bbls., at 8½c. There is no reason to doubt, therefore, that this market will be in a more healthy condition in the near future. At the moment Evaporated Apples are very quiet at 14@14½c. for Fancy Ring-cut, and 12½@13½c. for Fair to Good, including "Hop House;" Sliced Evaporated have very little inquiry at 11 @12½c. An offer of 8¼c. was made for prime. In lots of Sun-dried State Coarse-cut Apples for export, but the lot cannot be bought under 8½c. Western Quarters, if large and bright, will sell full as well as State. There are no new North Carolina Peaches on this market; Old are selling, when wanted, at 15@16c., according to quality and the condition of the fruit. Blackberries have but little more inquiry. Raspberries and Cherries rule dull and weak. Plums scarce and about steady. Peanuts in very active demand, and firm at rather strong prices. Hickory Nuts very dull; it is difficult to reach 75c. Pecans firmer. Quotations:

FRUITS AND BERRIES—FRESH.

Export of Apples, 1,495 bbls. There is a very dull and unsatisfactory market for Apples. The weather continues warm, the demand very moderate, and prices are weak and irregular. Choice, sound stock is salable above outside quotations, but there is very little of such fruit. Grapes are about out of season; a few lots are arriving, which are taken by a few special customers at $2 50@$4 50 per case, for prime stock. The Western demand for Cranberries has fallen off very materially, and with a very small local trade, the market may weaken during the coming week. It is now known that New-Jersey has considerable many more cranberries than at this time last year, and this fact alone may make holders a little more anxious to sell. Nearly all the Florida Oranges arrive in bad order and have to be repacked. There is not a very active demand and stock moves slowly. No fresh receipts of Strawberries; the Charleston steamer due to-day had not arrived at a late hour this afternoon. On Saturday Florida berries were sold at 50@80c. per quart, and Charlestons at 75c.@$1. Quotations:

Apples, Baldwins, bbl	$2 50@$2 87	Do.East'rn,round hooped, Fancy	$8 00@$8 50

HOPS.

Receipts for the week, 330 bales; last week, 378 bales; corresponding week last year, 1,663 bales. Very little doing in the Hop market and prices are lower to sell; strictly fancy lots are held about steady, but all other grades can be bought a trifle off from last week's prices. Brewers have few wants, and exporters are not operating. Quotations:

State Fancy, '79	36@38	Do.Fair to Prime, '78	15@18

Do. Fair to Good	28@30		

FURS AND SKINS.

At the London Fur sale on the 19th and 20th, Beaver and Opossum advanced 25 per cent from last July sales, and Muskrat advanced 10 per cent. Shippers were disappointed in the way Muskrat sold, as an advance of 25 per cent had been fully anticipated in prices paid here. The catch of Skunk up to this date proves to be much larger than was calculated, and the market is lower under free offers to sell by the country collectors. Red Fox are scarce and higher. Most of or sorts are in demand at quotations, which are for prime Skins only:

Bear, Northern Black, according to size and quantity, prime	$7 00@10 00
Bear, Southern and Northern yearlings	4 00@ 6 00
Beaver, Northern, per skin	1 00@ 5 00

MILK.

The daily average receipts for the week at the various points of distribution were as follows: Erie Railway, 70 cans of Cream, 4,860 cans of Milk; Harlem Railroad, 2,490 do.; New-Haven Railroad, 580 do.; Hudson River Railroad, 420 do.; Midland Railroad, 1,030 cans of Milk and 35 cans of Cream; miscellaneous near-by routes, 1,825 cans of Milk; total, 9,005 cans of Milk of 40 quarts each. The price at which the surplus has been sold on the platform during the week ranges from $1 30 to $1 50, and the average was $1 40. There is still an oversupply of Milk on the market, and prices are barely steady.

POULTRY AND GAME.

No exports of Dressed Poultry the past week. The supply of Live Poultry is rather in excess of the demand, and prices favor the buyer. The receipts of Dressed Poultry are rather large, but the demand is very moderate and prices are rather weak. A good many freight lots are in bad order. It is reported that the bulk of the stock now coming forward was intended for later in the season, but warm weather has forced it on the market. Nearly all kinds of Game will be outlawed the 1st of February; hence, buyers are purchasing very sparingly. Grouse and Quail are in light supply and good demand at quotations. Partridges have been scar
