WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending Feb. 17, 1880.

(Expressly for THE N. Y. TRIBUNE by our own reporter.)

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package or slovenly appearance fails. Pack securely, so that the motion will not allow the contents to change about. Use plenty of clean, dry, fine cut straw with eggs. Mark plainly with *initial*—a stencil-plate is best—and note contents on the box or barrel, stating the amount also. Send a letter at the same time, stating what is sent, the route, time, etc. An invoice or list should also be inclosure in the box or barrel. Always state the number of packages. Secure for yourself the reputation for the goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts for the week: Beans, 1,317 pkgs.; Peas, 15,916 bush. Exports—Beans, 1,515 pkgs.; Peas, 6,982 bush. Market rather dull for Medium Beans, and stock can be bought a fraction of from last week's prices; $1 45@$1 47½ are the top quotable figures for prime hand picked stock. Marrows are dull and easier, under a light export demand and some pressure to sell; some receivers are offering choice stock a shade lower. Neither Pickings nor Red Kidney Beans need quotations are entirely nominal. White Kidney are scarce, but the demand is very limited at unchanged prices. There has been a little more inquiry for Black Turtle Soup Beans, and stock is held rather firmer. Pea Beans were dull, except for strictly Choice stock, for which there is some demand, but undesirable Grades are neglected. No demand for Southern Black Eye Peas, and quotations are nominal. Quotations:

BUTTER.

Receipts for the week, 19,509 pkgs.; last week, 20,364 pkgs.; corresponding week last year, 26,017 pkgs. Exports for the week, 7,614 pkgs.; same time last year, 15,084 pkgs. At the moment there is a rather short supply of Fine Creamery Butter, and buyers find some difficulty in getting enough for immediate wants at the advanced price. Choice lots of fresh State Dairy tubs have sold at 26c., but there are few Full tubs which will exceed quotations. The receipts of all grades of State Butter are very light, and the market for desirable lots is firmer. Fresh Western butter is not arriving as freely as it has been, which gives a little more tone to the market, and receivers are holding best invoices a shade higher. Fancy fresh lots are wanted, and some sales are above quotations. Lower grades come in competition with Oleomargarine, which renders them unsaleable, except at low and irregular prices. Quotations:

CHEESE.

Receipts for the week, 8,815 boxes; last week, 4,014 boxes; corresponding week last year, 16,334 boxes. Exports for the week, 2,182 boxes; same time last year, 63,380 boxes. Liverpool cable quotations only lower, but market presents no new features. Exporters are buying on a very limited scale, and the home trade is exceedingly light. Holders are generally confident of the future, and no weakness in prices is apparent as yet. Fancy parcels are held at 13c. and over, and no considerable lot can be purchased less. Most buyers are looking for better prices under parcels, and are very particular as to quality. Few such lots are offering, and as the best grades are generally held above buyers views, very little business is being done, and the market is exceedingly dull. Quotations:

EGGS.

Receipts for the week, 13,843 pkgs.; last week, 8,397 pkgs.; corresponding week last year, 9,558 pkgs. With heavy receipts from all points—8,880 pkgs. in to-day—and a very light consumptive demand, the market is extremely dull and weak, nearly all the receipts being in a great extent, regardless of the fact that every effort has been made to sell on the market, and an outlet has been sought from outside markets, without success. The weather continues mild, and as the stock keeps piling up, no one has any confidence in the immediate future. Receivers are very anxious to sell, and are willing to accept lower prices than quoted. The market opened this morning at 15c. for Fine Western and best marks of Southern, but weakened with each succeeding hour, and late this afternoon very little stock of any kind was held above 14½c., and we hear of—rarely any business at that figure. Lined are entirely nominal and at our quotations. Quotations:

FRUITS, BERRIES AND NUTS—DRIED.

Receipts of Dried Fruit for the week, 393 pkgs., with 3,200 pkgs. of Peanuts and —— pkgs. of Pecans. Exports of Dried Apples 292 bbls. Evaporated Apples are moving more freely, but buyers are not willing to pay top prices; a lot of 225 boxes was sold to-day, to go West, at 13½c., and an exporter is trying to buy some 500 boxes at about 12½c. to 13c. Sun-dried Apples are selling readily in a small way, but the stocks are slight and the market is quite firm. Very few Sun Peeled Peaches have been taken in their stead at a trifle under what New would sell for. Small Fruits in good request, firm and generally higher. Peanuts are quiet; the extreme prices asked by holders have a tendency to check business. Hickory Nuts in fair demand and favor the seller. Quotations:

FRUITS AND BERRIES—FRESH.

Exports of Apples, 5,969 bbls. The Apple market is not quite as active as it has been, but there is still a fair business doing. The demand for primo parlies for good stock, which is getting scarcer every day. There is a continued active Western demand for Cranberries, and the market is firm and favors the seller. Good lots of Florida Oranges are wanted at stronger prices, but off-grades and out of condition fruit move unusually slow. There is just a moderate demand for Strawberries at quotations. Some choice Charleston Berries arrived by express this morning and were sold at 50c. Quotations:

HOPS.

Receipts for the week, 404 bales; last week, 278 bales; corresponding week last year, 1,939 bales. Market quiet from the fact that exporters are not operating, and brewers are buying very sparingly. The few remaining lots of Choice and Fancy Hops are held very firmly; 38c. has been offered several times for a handsome lot, but the holder (as they cannot be bought below 40c. A careful estimate places the stock on hand in this city at about 16,000 bales, and in the State outside of the city, 15,000 bales, making 31,000 bales to carry us through the season. Buyers say that this is more than enough, while holders are confident that all will be wanted, even at higher prices. Quotations:

MILK.

The daily average receipts for the week at the various points of distribution were as follows: Erie Railway, 62 cans of Cream, 2,920 cans of Milk; Harlem Railroad, 2,450 do; New-Haven Railroad, 560 do; Hudson River Railroad, 415 do; Midland Railroad, 1,025 cans of Milk and 40 cans of Cream; miscellaneous near-by routes, 1,100 cans of Milk; total, 8,970 cans of Milk of 40 quarts each. The price at which the surplus has been sold on the platform during the week ranges from $1 80 to $2, and the average was $1 94. The market has ruled uncommonly steady during the week, and the first day there was never a fraction of an over 110c., and on four days of the week $2 was the selling price.

POULTRY AND GAME.

The receipts of Live Poultry are rather moderate, but the demand is only sufficient to take the arrivals at about steady prices. The market for Dressed Poultry is very dull, and stock can only be moved at lower prices. Turkeys, especially, are abundant and 11c. was the general price for good stock to-day. Chickens are not in plenty as they have been, and are rather steadier than Turkeys. All kinds of game are dull and lower; not much here, but demand very light. Quotations:

VEGETABLES.

Exports of Potatoes, 3,216 bbls. Irish potatoes in limited demand and very dull; plenty of stock here which can only be moved at easier prices. No Bermuda steamer this week. Onions have been selling at very irregular prices to-day the tone is firm and in sellers' favor. Very few Southern Vegetables in market to-day, and prices somewhat nominal. The Charleston steamer will not arrive before to-morrow, as she was delayed a day and did not sail until Sunday night. Quotations:
