The Governors of the Bank of England at their regular meeting to-day made no change in the minimum rate of discount, and it remains at 3 per cent against 2⅞@3, the rate in the open market for discount of bankers' three-months bills. During the week the bank gained £77,000 bullion, and the proportion of its reserve to its liabilities is 50⅛ per cent against 49⅞ per cent a week ago. At the London Stock Exchange, British consols were ⅛ lower, closing at 98 1/16 for both money and account. United States 4 and 5 per cents were unchanged at 109½ and 105⅞ respectively, the 4½s being ⅛ lower at 110½. Erie declined ½ per cent to 46½, and the second consols fell to 94¾@95. The superintendent of the Green Mountain Mining Company reports, by telegraph, the first week's "clean up" from ore taken from the newly discovered shute in the lower level as 170 tons crushed, yielding $2,800, or $16 50 per ton. This exceeds the average per ton of previous workings—from which the company has been paying monthly dividends of 5 cents per share—$8@$4 per ton, and pays a clear profit of $14 per ton. When the company has its sixty-eight additional stamps in operation, which will be in June, its milling capacity will be over three times what it is now.
