RHODES'

# SUPER-PHOSPHATE!

PLANTERS seeking Manures, will recollect that RHODES' SUPER PHOSPHATE is the only Manure the late eminent analytical Chemist, Professor Bickell, of Maryland, pronounced

**Standard!**

and which has been confirmed by every section into which this Manure has been introduced.

This Manure is sold under a legal guarantee of

FROM ALL ADULTERATION!

from the eminent manufacturing chemists, Messrs. Potts & Klett, under whose personal supervision RHODES' SUPER-PHOSPHATE is manufactured. This Manure has been used in South Carolina for several years past, with great success in the culture of Cotton and Corn, and is now thoroughly established for these important staples. Do not let the present season pass without the experiment.

Read the annexed letters from gentleman who have tried it the past season.

## J. A. ANSLEY & CO.,

NO. 300 BROAD ST.,

AUGUSTA, GA.

ATHENS, GA., Nov. 22, 1859.

*Dear Sir:* Rhodes' Super-Phosphate has been applied by me this year, on a small scale, to both Corn and Cotton. The result exceeded my expectation, although the experiments, for many reasons, were not, and could not be conducted with due caution; yet I am entirely satisfied, that the growth of weed, in both instances, the fruit in corn, and the number of bolls of cotton, were fully double the yield in the portions unmanured, and this when only a table-spoonful of the Super Phosphate was applied as a top-dressing to each hill of corn, and a ten-spoonful to each stalk of cotton—and the last as late in the season as the 18th of July. Some of the weed grew to nine feet high, with six feet branches, covered with bolls, while the unmanured was not half so good. It is my intention next year, to test it more fully.

Very Respectfully,
Your most ob't serv't,
(Signed) M. C. M. HAMMOND.

UNION POINT, (G. R. R.) Nov. 28, 1859.

Messrs. J. A. ANSLEY & Co.:

*Gents.*—I bought a ton of Rhodes' Super-Phosphate in Baltimore, last Spring, Mr. H. D. Leitner, of Berzelia, to test its value as a manure. I put about 125 lbs. on an acre of cotton, in the drill, on land that would not make over 75 to 100 lbs. of seed cotton per acre, without Manure. The result is entirely satisfactory. I have made at least from 450 to 500 lbs. to the acre on this very poor land. I expect to purchase from 5 to 8 tons for my Spring crop. My Overseer wishes me to put his name to this also.

Yours, in great haste,
(Signed) P. W. PRINTUP,
WILLIAM FOSTER.

## MANIPULATED GUANO.

No. 83 SECOND STREET,
BALTIMORE *January* 28, 1859.

*REPORT OF ANALYSIS*

OF

ROBINSON'S MUNIPULATED GUANO

FOR

FRANCIS ROBINSON, ESQ.,

BALTIMORE CITY.

A SAMPLE of the above which was taken at your Mills, was found, upon analysis, to be capable of producing of

**Ammonia,** - - - **8.31 per cent.**

And to contain of

**Bone Phosphate of Lime 45.82 " "**

The above proportion of Ammonia and Bone Phosphate of Lime is known to be most proper for concentrated manures. Both theoretical reasoning and the results of numerous practical experiments have approved of it. An application of 200 lbs of this article article per acre, will supply more of Bone Phosphate of Lime than is required by any crop—thus leaving a considerable surplus of this valuable nutriment incorporated with the soil after cropping, and will furnish a sufficient quantity of ammonia to to act as a nutriment and stimulant.

CHAS. BICKELL, Ph. D.

REPORT ON
MUNIPULATED GUANO,
FOR
FRANCIS ROBINSON.

THE sample analyzed was taken by myself from the bags in the mill where the guano was manipulated.

It contained of

**Ammonia,** - - - - **8.24 per cent.**
**Phosphoric Acid,** - - **21.98 " "**

Equivalent to

**Bone Phosphate of Lime 47.59 " "**

It is therefore an excellent manipulated guano, containing enough ammonia to produce a rapid and vigorous growth, and sufficient quantity of phosphates to prevent exhaustion of the soil

UNDER THE AUGUSTA HOTEL, AUGUSTA, GA.

THE Undersigned would respectfully inform Merchants and Dealers that they have just completed their arrangements for the coming Fall and Winter Season. Our Store has been enlarged to double its former size, thereby making it the largest Store in the State of Georgia. Our Stock, which for variety of the most desirable Goods, is unsurpassed in this State, will in every respect compare favorably with any house either in Charleston or any other Southern city. It is our intention to establish a regular Wholesale Jobbing House, selling exclusively for cash. Which, as an old fact is the only way to buy Goods cheap.

Having a similar establishment in New York city, of which our Mr. I. KAUFFER, it is easy to be perceived that we have superior facilities in obtaining latest Novelties as they appear in market. We would only ask the favor of an examination of our Stock and Prices before going elsewhere, and we will prove to the Trade that we can sell Goods fully as cheap as any other Wholesale House, besides saving your time for further travelling, and many other expenses.

## THE SINGER SEWING MACHINE.

THE Marked and ever extending popularity of Singer's Sewing Machines—both in America and Europe—is such as best to establish their superiority over all others in the market. Sewing Machines—so Called—may be bought, it is true, for a smaller amount of dollars than ours, but it is mistaken economy to invest anything in a worthless or unreliable article, and those who will do so must abide the consequences!

SINGER'S NEW FAMILY MACHIES.

In order to place the best Family Machine in the world within the reach of all, we have reduced our letter. A Machine beautifully ornamented—to $60; plain $50.

Singer's No. 1 and 2 Standard Shuttle Machines, both of very general application and capacity, and popular both in the family and manufactory. Prices reduced, respectively to $135 and $150 to $60 and $100. Singer's Standard Shuttle Machine, for carriage makers and heavy leather work. Price, complete $125. Also, to complete the list, an entirely new article, unequalled for manufacturing purposes; Noiseless, rapid, and capable of every kind of work. Price (including iron stand and drawers,) $110—cheaper at that in view of its value than any machine of any other maker as a gift.

All of Singer's Machines make the interlocked stitch with two threads, which is the only stitch known. Every person desiring to procure full and reliable information about Sewing Machines, their styles, prices, working capacities, and the best methods of purchasing can obtain it by sending for a copy of I. ## COLUMBIA MILLS

THE Subscribers, in view of the GREATLY INCREASING demand for goods of home manufacture, have added very largely to the machinery in their extensive COTTON WOOLEN MILLS, and are now prepared to furnish COTTON OSNABURGS, STRIPED OSNABURGS, COTTON YARN, WOOLEN PLAINS, WOOLEN KERSEYS or JEANS, which they WARRANT to be of SUPERIOR quality.

We also continue to manufacture Wool into Cloth, at very low rates, furnishing everything except the wool, and charging but 12½ cents per yard for Plain Cloth; and 16 cents for Twills; or we will work it up for one half of the cloth it makes. This arrangement enables planters raising wool to obtain a SUPERIOR ARTICLE of Negro Cloth, at a very small cost. Planters or others sending us wool to work up, can send it *either clean or dirty;* if dirty, one half cent per yard extra will be charged for expense of washing it. We would prefer wool however, to be sent clean, *as the yield will be more satisfactory*—dirty wool loses 30 per cent. in cleaning. Burrs are not objectionable as they are removed by machinery. NAME OF THE OWNER SHOULD BE MARKED DISTINCTLY ON EVERY BAG SENT. This must be strictly attended to. We will also pay a fair CASH PRICE for wool sent us. We solicit the patronage of the South, and pledge ourselves to give satisfaction to all of our customers. Address

THIS Remedy cures when all other preparations fail. It is entirely unlike every other compound, containing *no mineral poison or narcotic Drug,* as it is prepared solely from *Roots, Barks* and *Leaves,* and has been handed down from one generation to another by the *Cherokee Indians.* It is offered to the public on its own intrinsic merits. It performs its duty quickly and thoroughly. The *unfortunate* of either sex will be repaid by using this *Remedy,* instead of placing themselves at the mercy of some Quack or Professor. This *Remedy* strikes at the very *Root* of the disease; its tendency is not simply to suspend the poison, but to remove the cause on which it depends.—Full directions in pamphlet form accompany each bottle.—The speedy and permanent relief afforded by this Remedy, in all cases of *Gonorhœa, Gleet, Gravel, Stricture, Fluor Albus,* (*Whites in Females,*) and all Diseases of the Urinary Organs, has astonished the most scientific men of the age. This remedy not only eradicates all *poison* from the *system* but *invigorates* the most delicate constitution. ☞ It does not affect the breath or interfere with any class of business, or require any deviation from the usual diet. ☞ It requires no assistance from other medicine. And what enhances its value is the entire absence of all nauseous taste, being a pleasant and delicious syrup.

Premiums and Reductions!!

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz: *The London Quarterly* (Conservative,) *The Edinburgh Review* (Whig) *The North British Review* (Free Church) *The Westminster Review* (Liberal,) *Blackwood's Edinburgh Magazine* (Tory.) The present critical state of European affairs will render these publications more than usually interesting during the forthcoming year. They will occupy a middle ground between the hastily written newspaper, crude and ephemeral speculations, and flying rumors of the daily press, and the profound Tome of the future historian, written after the living interest and excitement of the great political events of the memorable past have passed away. It is to these Periodicals that readers must look for the only trustworthy, intelligible and reliable history of current events, and as such in addition to their well established literary, scientific, and theological character, we urge them upon the consideration of the reading public. The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

**Scrofula or King' Evils,**

Is a constitutional disease a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venerial infection Whatever be its origin, it is hereditary in the constitution descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by disposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this contamination; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

**Ayer's**
**Compact Extract of Sarsaparilla,**

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and skin Diseases, St. Antony's Fire, Rose, or Erysipelas Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in *impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S CATHARTIC PILLS,

For All the Purposes of a Family Physic are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from a low state of the body or obstruction of its functions.

AYER'S CHERRY PECTORAL,

For the Rapid Cure of

*Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in Advanced Stages of the Disease.*

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of it too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
