Hancock Jeffersonian.

Slaveholder's Word for Emancipation.

An influential slaveholder in Sedalia, Missouri, writes to St. Louis Democat:

"Is it strange that a 'change should come over the spirit of our dream?' How intensly pro-slavery our people have been we all know. Every candidate for office, however high or low, had to swear eternal and undying love and veneration for the 'South,' and the more intense was his love and devotion for the nigger, the more certain his chances of promotion, especially if he had none himself, but was simply actuated by purely disinterested benevolences in taking care of his neighbors', who poor souls were not competent to take care of their own property.—But, Messrs. Editors a new era is about to dawn upon the future of Missouri. Then let the loyal, unconditional Union man of the State prepare to meet the issue. *This question of the gradual emancipation in Missouri must be met—must be discussed.* If slavery is the blessing that its friends claim, surely nothing need be feared from investigation—from discussion.

"Let us have a full ticket for all State officers, and it possible call upon our friends everywhere to bring out their candidates for the Legislature. Let the question be fully submitted to the voters of Missouri next August. There is no time to be lost. Our Constitution prohibits emancipation. If our people were unanimous for it we would have to call a convention and change our constitution. Then let the question at once be started, and let us know where we stand. In the immense sacrifice of fraternal blood, not a hostile gun has been fired in any of the States where slavery does not exist. This speaks volumes for our cause."

SHE DEVILS.—It is reported that the rebel women are she-devils.—What could be expected of the feminine counterparts of such men as are represented by the one described by the following extract from the Philadelphia *Inquirer?*

Among the prisoners was George Ritchie, the fiend who had accelerated the death of wounded Union soldiers at Ball's Bluff by stamping upon them. One instance which is stamped upon his soul as indelibly as the letters of blood upon the wall at Belshazzar's feast, is that of a poor wounded soldier, who had crawled upon his hands and knees to his house, and in piteous accents implored assistance. With brute-like ferocity Ritchie jumped upon and kicked him to death, with such exclamations as, 'If they have not already killed you, I'll do it!'

Re-organization of the Democratic Party.

Jesse D. Bright of Indiana wrote a letter to Jeff. Davis after he was inaugurated President of his traitorous goverment, recommending an invention which would be destructive to the lives of the loyal men of the North who were fighting to sustain our goverment; and this same Jesse D. Bright who has since been ignominiously expelled from the Senate for his treason, is urging the re organization of the Democratic party.

The old Democratic leaders such as Dickinson, Dix, Holt and a host of other good and true men who are now battling on the side of their country will not answer now; but such men as Bright, Valandingham, and a few miserable semi-traitors who sympathize with them, are anxious to build up a party of their own, in opposition to the war and of course to their country. We hope they will go on; we like the move. It will separate the loyal from the disloyal, and every man's true position will be made known.

There were men in the days of the Revolution, and during the war of 1812, who were active in opposition to the goverment, and attempted similar organizations to that now desired by Bright and his friends, but their fate was sealed, and they were doomed to an ignominious oblivion. Of course Brignt and Valandigham are already "done for." They are sunk so deep in the estimation of loyal people everywhere, that nothing will ever restore them to the favor or confidence of the people, hence they are anxious to do all the mischief they can; so they hope to create discensions among the people by urging violent party organizations, knowing that if they can get up jealousies and divisions among the people of loyal States, it will be a source of great encouragement to the rebels.—[Springfield News.

THREE UNANSWERABLE FACTS.—The *World* thinks (and very justly) that the following facts in connection with this war are worth bearing in mind:

1. That no rebel soldier has yet planted a foot on the soil of the free States except as a prisoner of war.

2d. That the Union troops have always been victorious in the open field, their reverses being invariably caused by indiscreet and unskillful attacks on strongly fortified positions.

3. That since the fall of Sumter the rebels have never taken a fort or strongly fortified position, while they have been compelled to vacate and surrender places of great strength.

Theodore Hook met a friend just after leaving the King's Bench Prison, who said to him that he was getting fat. 'Yes,' replied Hook, 'I've been enlarged today."

PROMISSORY NOTES.—Tuning the fiddle before the performances begins.

THE SHARP SHOOTING AT YORKTOWN.

The New York *Tribune's* correspondent with McCLELLAN'S army says of the first day's fight before the enemy's intrenchments at Yorktown:

At first the rebels were very daring, springing on the ramparts and cheering, but the deadly results of this braggadocio speedily taught them caution. Our men could see them fall; could perceive their comrades catching them or pulling them down from behind. The first rebel killed conspicuous from his white shirt, fell while hurrahing waving his hat upon the breastworks. He was picked off by Truman, a sharp shooter of eleven years experience in the Rocky Mountains. So terrible a fire did Berdan's men keep up that the rebels found it next to impossible to load and man a gun. They put up planks and endeavored to effect it under their shelter, and actually dismounted a piece, bro't it round the parapets, and sent its contents scattering through the peach orchard with such savage haste that they did not wait to remove the rammer. Still they could not dislodge the human hornets crouching within its friendly shelter. Ping! ping! ping! spit! spit! patter! patter! went the rifle bullets, and boom! sounded the artillery, cutting and crashing through the trunks and branches. Colonel Berdan estimates that at least a hundred and fifty cannon ball tore through the peach orchard during the day's fight.

MAXIMS OF LOUIS NAPOLEON.—In his views of the English Revolution, contained in his "Historical Fragments," Louis Napoleon states some things well worthy of our consideration at the present moment:

"March at the head of the ideas of your age, and these ideas will follow and support you.

'If you march behind them they will drag you on

'And if you march against them they will certainly prove your down fall."

When at college, Surtees was waiting on the dean on business, feeling coldish, stirred the fire. "Pray, Mr. Surtees," said the great man, "do you think that any other undergraduate in this college would have taken that liberty?" "Yes, Mr. Dean," was the reply, "any one as cool as I am.

The sons of the late Emperor of Austria got into a quarrel. In the height of passion one of them said to the other, 'You are the greatest ass in Vienna." Highly offended at their quarreling in his presence, the Emperor said, "You forget that *I* am present.

WENDELL PHILLIPS stated in his lecture in Chicago that President Lincoln declared last week, that when a rebel's slave touched the hem of the garment of the Government he was free.

A GREAT deal of nonchalance that passes for philosophy is nothing more nor less than natural stupidity

Blood Pills and Blood Purifier

BOTANY CHEMISTRY EXPERIENCE PHARMACY

DR. ROBACK'S

Scandinavian Remedies.

When DR. ROBACK, the celebrated Swedish Physician, introduced his Blood Purifier and Blood Pills in the United States, he set forth in plain language their curative properties.—This was years ago. The task of recommending them has since been *taken out of his hands.* Enlightened men, whose character for sound judgment and philosophy, gives their opinions weight in the community—men who observe, reflect, and make "assurance doubly sure" before they decide,—are everywhere approving and urging the use of these wonderful Preparations. All who confide in the wisdom and honesty of this class, or who choose to investigate for themselves, are now of *one mind* on this important subject.

The evidence in the possession of Dr. Roback, which is at all times accessible to the public, establish the following

FACTS:

That the *BLOOD PURIFIER* and *BLOOD PILLS* have been proved by analysis to

CONTAIN NO MINERAL;

That they cure the almost universal complaint,

DYSPEPSIA,

with *unerring certainty,* and in a very short time; that after all other medicines have proved useless, they relieve

LIVER COMPLAINT,

and restore the health and strength of the sufferer; that **SICK FEMALES,** who have languished for years in helpless weakness and despondency, recuperate with great rapidity under their invigorating operation; that all sexual disabilities are removed by their cordial and gently stimulating properties; that they recruit

SHATTERED CONSTITUTIONS,

however they may have been trifled with and abused; that their direct tendency is to lengthen life, and render it enjoyable; that, operating directly upon the *poison of disease in the blood,* they

CAUSE SOON TO HEAL

and discharge from the system, every taint of Scrofula, whether hereditary or otherwise;—that they

RECRUIT THE DEBILITATED;

and that there is no disease of the stomach and bowels, the liver, the nervous system, the skin, glands, or muscles,

ARISING FROM IMPURITIES OR OBSTRUCTIONS OF THE BLOOD OR SECRETIONS,

in which they do not give *prompt relief,* and, (if administered before the very citadel of life has been invaded,) *effect a painless and perfect cure.*

Bear in mind that the **Scandinavian Vegetable BLOOD PILLS** are endorsed by the experience of thousands of living witnesses, who, in letters, affidavits, medical works, and by word of mouth, proclaim them to be the very best preparation of the kind ever offered to the broken-down victims of ill-health. They hunt disease through every avenue and organ of the system, and expel it thoroughly and permanently.

No one can doubt their superiority after one single trial—they are not only better, but in fact, cheaper than any other Pills, for it takes a less number of them to produce a better effect.

Price of the Scandinavian Vegetable Blood Purifier, $1 per bottle, or $5 per half-dozen.—Of the Scandinavian Vegetable Blood Pills, 25 cents per box, or five boxes for $1.

Read Dr. Roback's Special Notices and Certificates, published in a conspicuous part of this paper from time to time.

Dr. Roback's Medical Almanac and Family Adviser, containing a great variety of interesting and valuable medical information, can be had gratis of any of his Agents throughout the country.

In difficult or complicated cases, Dr. Roback may be consulted personally or by letter enclosing one stamp for reply.

In flavor it is superior to all other Bitters.—Try it.

The formula of these Bitters, now (1861) the sole property of Dr. Roback, originated with one of the oldest and most eminent Medical Practitioners of the West, and it is directly predicated upon the wants of Western people.

These Bitters derive their stimulus from the powerful tonic nature of the roots and herbs of which they are composed, and as they are, by allaying unnatural cravings of the stomach, directly promotive of

TEMPERANCE,

the present proprietor believes that in making them widely known the public welfare is subserved.

It will soon be for sale by all of Dr. Roback's numerous Agents, and at Hotels, &c., the country over. In the meantime, orders will be filled direct from Cincinnati in any quantity, and at the lowest rates. It is put up in Quart Bottles, and securely packed in one-dozen cases. Half dozen sample cases will, however, be packed and sent to any address, if desired.

LANGWORTHY'S

East India Dyspepsia Cure

AND

Femae Regulator.

DURING my absence in the war this medicine will be made by my wife, and that of my make can only be had in Findlay of ISRAEL GREEN or J. M. HUBER & Co.

Read the following statements:

R. B. HURD says—"After taking it for a strengthening medicine after a fit of sickness, I would say that the Butchers ought to favor its sale, for the appetite it gave me was enough to consume a beef a week."

ROBERT BONNER says—"Dr. Langworthy: At your suggestion, I bought for my daughter, who was suffering under some of the peculiar diseases incident to her sex, a bottle of the East India Dyspepsia Cure. It has done her so much good that I must have another bottle.

Esq. JORDAN, of Arcadia, says—"Your medicine has done me more good than any medicine I ever took."

I refer any patient confidently to the following persons who themselves or their families have used it:

Paul Sours, Cashier Findlay Bank;	
R. B. Hurd,	Chester Church,
K. S. Baker,	S. Bergman.
Dr. Hudson,	Dr. Beech,
Samuel R. Gray,	Dennis Lee,
Amos Hartman,	J. B. Vandoren,

"The unrivalled sales of this medicine is an unmistakable evidence of its intrinsic value.

DR. HOOFLAND'S Balsamic Cordial!

FOR THE SPEEDY CURE OF COUGHS, COLDS, INFLUENZA, CROUP, HOARSENESS, BRONCHITIS, PNEUMONIA, DISEASES OF THE BOWELS, ARISING FROM COLD, INCIPIENT CONSUMPTION, AND FOR THE RELIEF AND (IF AT ALL POSSIBLE) CURE OF PATIENTS IN ADVANCED STAGES OF THE LATTER DISEASE.

The Balsamic Cordial is entirely a Vegetable production, combining the healing properties of the Balsam, with the invigorating qualities of a Cordial, producing a combination so well adapted to the purposes intended, that there are but few cases of diseases which will not, at an early period, succumb to its healing and life-giving properties.

For ages, has the treatment of pulmonary diseases occupied the greater portion of the attention of the scientific of the medical world, but none acquired more eminence in his treatment of these diseases, than the celebrated Prussian Dr. Hoofland, the originator of the Balsamic Cordial. His life was devoted to the production of remedies that would stand unrivalled. How well he has succeeded, the American people are able to judge; and we positively assert, that no preparations that have ever been placed before them, have conferred the same amount of benefits on suffering humanity, or have elicited so many commendations from all classes of society, as the remedies of Doct. Hoofland, prepared by Dr. C. M. Jackson & Co., of Philadelphia. The Cordial is designed for a class of diseases more general and more fatal than any other to which the people of this country are subject—those springing from a slight cold. That eminent authority, Dr. Bell, says: "I will not say that colds are to our inhabitants what the Plague and Yellow Fever are to those of other countries; but I can aver confidently that they usher in disease of greater complicity and mortality than these latter."

VEGETABLE AND NO ALCOHOLIC PREPARATION!

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS.

Prepared by Dr. C. M. JACKSON & CO., Philadelphia, Pa., will effectually cure Liver Complaint, Dyspepsia, Jaundice, Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach.

Such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the stomach, sour eructions, sinking or fluttering at the pit of the stomach and at the heart, hurried and difficult breathing, choking or suffocating sensations when in a lying posture, dimness of vision, &c., &c.

The proprietor, in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended. It is no new and untried article, but one that has stood the test of a twelve years' trial before the American people, and its reputation and sale are unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietors, and to be had gratis of any of their Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

READ THE EVIDENCE.

From J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge.—Although not disposed to favor or recommend patient medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reason why a man may not testify to the benefit he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others. I do this the more readily in regard to Hoofland's German Bitters, because I was prejudiced against them for years, under the impression that
