State bonds were dull, the transactions including Alabamas, class A, at 58, and Virginia 6s, consolidated, ex matured coupons, at 54¼. Louisiana consols are quoted at 48⅜@50.

Of city bank stocks, the only sale was of five shares American Exchange at 120.

The dealings in railroad bonds were less than usually interesting. The total transactions included only forty-three different varieties, and the amount bought and sold, even of the speculative kinds, was unusually small. There was, however, a good recovery in the prices for some of the issues. Erie second consols rose from 91⅛ to 91⅞, Missouri, Kansas and Texas first consols from 101⅜ to 102⅛ and seconds from 61⅜ to 62½, Boston, Hartford and Erie firsts from 56@55¾ to 56½, and Lehigh and Wilkesbarre consols from 97 to 97¾. Ohio and Mississippi second consols sold at 113¼, an advance of 1¼ per cent from the last previous sale. Mobile and Ohio second debentures at 45⅝@45⅞ were hardly as firm. Denver and Rio Grande firsts remained strong, rising to 105¼. We note sales of St. Louis, Kansas City and Northern firsts, Omaha Division, at 109, Oregon Railroad and Navigation firsts at 93, and Mobile and Ohio first 6s at 101⅞.

The transactions at the Sub-Treasury for the week ending to-night include receipts of $6,282,253 and payments of $6,627,325, resulting in a loss to its general balance of $345,072, and leaving it at $107,768,447 against $108,113,519 April 16. The particular changes of the week are a currency gain of $323,054 and a coin loss of $668,126. Money continues easy, the bulk of the business being done at 6 per cent, with some late business at 5 per cent. The changes in the domestic exchanges on New-York to-day are an advance of 15 cents to 75 cents premium at Chicago, and a decline to 40 cents discount at Boston. The United States Treasurer at Washington to-day received $50,000 in National bank notes for redemption. The customs receipts were $174,000, and the internal revenue receipts were $462,000. The following is the Clearing House statement to-day: Exchanges, $112,965,631; balances, $4,469,134. The transactions at the Sub-Treasury covered: Receipts, $2,028,248; payments, $2,204,336; currency balance, $6,234,377; coin balance, $101,534,070.

The foreign exchanges are still dull and rather weaker; the quotation for prime short sterling to-day was reduced ½ cent to the £. The following are the revised quotations:
