SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XVII. STANFORD, KY., FRIDAY, MARCH 1, 1889. NO. 6

GEORGE O. BARNES.

God is Love and Nothing Else.

PRAISE THE LORD.

This is the month for planting. Happily our "rest" month also. By the time March sets in, with its incomparable softness of climate, in this favored latitude, we shall have utilized our "rest" by putting in hundreds of lime, guava, lemon and orange trees; with bananas and pineapples in abundance. I am persuaded the orange will flourish here, despite the opinion of some that salt air is not good for them. The finest oranges in Florida grow near Punta Gorda, in near proximity to that objectionable feature. Only I shall carefully cut the tap-root off to about one foot. The orange sends its "tap" an incredible distance down into a dry soil in search of moisture; but here, of course, with water within 3 feet, the surface roots must be the only ones called into requisition. All the other fruits do well here, as also the cocoanut, which is as like the cabbage palm at a distance as "two peas in a pod."

I wish I could people this lovely spot with about 50 folk I could select in Kentucky. If they were only on the spot, they would remain; but before they can make up their minds to "pull up stakes" and come, it will be too late for homesteading.

Sanibel means, I presume, "Saint Isabel," in short metre. The cape at the light-house is a still more barbarous abbreviation of that feminine cognomen—"Ybel."

It is too early to say whether we will be in Kentucky this summer. We may not, or we may, as "seems best."

Our party went in bathing a day or two ago; as one can, with comfort, all the year round, in this tepid latitude. They went to try their new bathing suits, rather than because of hankering after the water; but they enjoyed the bracing splash very much.

Our "properties" lie, on one side, along a mile of the finest beach, 50 or 60 yards in width, and strewn with millions of the most exquisite shells that one can imagine. The surf breaks, ceaselessly, on that snowy strand. The harbors are all on the north side of the island. The Gulf surf bathing is incomparable. Fine bits of beach are also scattered along the north side, or San Carlos Bay, where one can take it more quietly. The fishing is unsurpassed on earth, and the varieties of the finny tribe most wonderful. We can live on fish and oysters, the latter No. 1, the year round. And this is the best diet for the climate. All tell us to eat little meat and we need fear no malady whatever. Everybody looks robust and healthy here. I am sure it is a far better climate than our loved and lovely Kentucky, "taken up one side and down the other."

I know, positively, no drawback, but the mosquitoes. We must bring the appliances to bear on them. If any friend can suggest anything beyond the stifling mosquito-bar, we shall be grateful. Jack brought an ointment from Kentucky with him that some one recommended as good for them, or bad for them, rather; and he thinks it promises the best results. At present they are the drop of gall in our cup of comfort. They seem hardly worthy of serious mention, where so many favorable features abound. But that festive insect is strong beyond its size. Their tiny buzz is almost as formidable to me as the screech of a wild-cat.

Ever in Jesus, GEO. O. BARNES.

SANIBEL ISLAND, LEE CO., FLA., FEB. 20, 1889.

DEAR INTERIOR:—A cold north-easter, sending the rain in horizontal sheets and curling the white-caps on San Carlos Bay, furnishes the occasion of this letter, which would certainly not be written in the present crisis, were we not confined to the house.

For we are rushing to put "Prairie Cottage," or "Palm Ranch," we haven't decided which, into a habitable condition. Will and Mr. Boole, our carpenter, finished the roof yesterday and we hoped to move to-day from the hospitable roof of our German friend, Woodring, where we have been in comfortable quarters since our arrival on the island. We only rent rooms from him, doing our own cooking and general housekeeping.

The Tea Tephi has been dismissed, since the 15th and is in Punta Gorda. Julius is gone, and we are thrown wholly on our own resources. All of our little party have shown themselves equal to the emergency. The ladies, one and all, are notable cooks; Will Ferguson and John mighty anglers; while the Deacon's strong muscles and ingenuity in handling tools have flown in the channel of house-building, with cheerful spontaneity. I am general manager, self-elected, but gracefully obeyed to date; with no prospect of a "strike" in the near future.

Our new cottage is about four miles from where we lodge. Mr. Boole, Will and I make that distance, and back, daily. It is rather laborious, but hardens muscle amazingly. It annihilates superfluous flesh. So I am much thinner than when we began, but what is left is solid.

We walk along the beach on the San Carlos, or northern side of the island, taking advantage of the firm sandy margin, where it is left uncovered by the restless tide; and where it is too wet, taking to the mangrove swamp, that skirts the Bay most of the way down to what we call the "lumber landing," whence the islanders take their departure inland, for their respective farms.

A glance at the map will show the general shape of Sanibel to be not unlike a Greenlander's "kyak;" the inner curve, San Carlos Bay, a lovely sheet of water; the outer curve, the Gulf of Mexico. The light-house is at the eastern extremity. Mr. Woodring's about four miles west, on San Carlos. The lumber landing and bay terminus of the present road, running up the island, is about 3 miles from Woodring's and one from the light-house. Prairie Cottage, or Palm Ranch, is about one mile and a quarter from the landing.

We were favored from the very start. Mr. Woodring had a lot of lumber that he at one time purposed building with; but changed his mind. It was just what we wanted. So we bought the whole instanter. Then the gentleman who does the surveying for the new settlers had a yoke of gaunt oxen and a homely, but strong wagon, which he was willing to dispose of at a bargain. These we purchased also. The Tea Tephi transported our house-building material to the lumber landing before we dismissed her; and also brought an additional supply from the saw-mill at Fort Myers, 25 miles up the Caloosahatchie river. Then we were ready for work.

It is just two weeks since the carpentering began and one house is ready for occupation. Two rooms 10x12 feet, in a "state of nature" but tight and well covered. The kitchen is to be furnished after we move in. Cooking meanwhile to be done under the house, where, also, we are preparing to have our religious services. A "church under the house" a thing unknown to Scripture, tho' the "church that is in the house" is. Ours has a clear 7 feet from bottom to top; the ground covered with the pure white shells, so common here, and so admired in less favored localities. The room is 12x20 feet, and ample for the present population of Sanibel. Marie talks of putting up a more pretentious place of worship on her estate, *in futuro*; but this will do "for the present distress."

This under-house arrangement is secured by having our two rooms (as kitchen also, when completed) perched on stout pine posts, set 3 feet in the ground and 7 feet out. The general appearance is not so angraceful as one might suppose. Indeed we can so fix things as to make the arrangement quite ornamental. This elevation is supposed to give a vantage ground in repelling the attacks of mosquitoes. We are willing to try anything that promises even partial exemption from these ferocious insects. Apart from this rather exceptional altitude in building, everything in the South is lifted above mother earth. Our Northern methods of placing our houses in contact with the ground, is esteemed very unwholesome here. A free circulation of air under the dwelling is deemed indispensable to health.

Sanibel ought to be a favored spot, if the clergy can bring blessing to it. The first homestead on the prairie is that of Rev. Wiren (pronounced Veerain) a Lutheran minister, Swiss by birth, with an interesting family, wife and four lovely children. Then Bro. Barnes, evangelist. Then Rev. Fitzhugh, P. E. clergyman. Then Will, another of the same Church, "rather reverend," being only a deacon yet. And yet another preacher, a little further on. Quite a string of us, isn't there? I hope we shall prove a blessing to present and prospective Sanibel islanders.

Accompany us as we walk to work—Will and I—and I think we can point out several things that will interest and edify.

Mr. Woodring has nearly a mile of attractive beach on his homestead. He has, perhaps, the best location on the island, all things considered. The land-locked harbor, just to the west of his house, with deep water and semi-circular beach, is very fine. Then to the east as we journey towards the lumber landing, he has many attractive points, with superb outlook across San Carlos and Punta Rassa and St. James City in full view. Both these "cities" are only stopping places for tourists, with a hotel and large store comprising the bulk of improvements. P. R., in addition, is the terminus of the Cuba cable and a shipping point of cattle that are fattened on the grazing grounds of the Caloosahatchie, for the Key West trade. The string of green islets between St. Sames and P. R. are very picturesque.

To be Continued.)

—The next meeting of The Kentucky State Medical Society will occur at Richmond, May 8-10.

HUSTONVILLE.

—Mrs. Dodd died Wednesday at the home of her son-in-law, Mr. Jesse P. Riffe, aged about 80 years. She has lived in the county during a long and active pilgrimage. Left early a widow with four daughters, she devoted her best energies to their welfare, and lived to see her efforts successful in a high degree. Thus another of the grand old line of Lincoln county mothers "rests from her labors, and her works do follow her."

—Dr. Alcorn is not the only one who has noted the unwonted pallor of the usually bold and brilliant INTERIOR JOURNAL. A week ago the staid and dignified L. B. Adams said to me: "Tell Mr. Walton that I cannot consent to 'boom the bustle' at the expense of my favorite paper, and that I am willing a tax should be levied pro rata on all the readers of the INT. JOUR. for the creation of a permanent 'bustle fund,' to be sacredly set apart for the improvement of the symmetry of the female form."

—We see by a clipping from a Kansas City paper that Mrs. Ann Chrisman, wife of Wm. Chrisman, Esq., and daughter of George Lee, Sr., formerly of this county, died some days since at Independence, Mo. Shortly after his marriage Mr. C., then a promising young lawyer, settled in western Missouri, where he soon built up a lucrative practice and accumulated a fine fortune. A short time before the death of his wife his residence, said to have been one of the finest in Independence, was consumed by fire, involving a loss of some $50,000.

—Shack Huffman is home from Harrodsburg. Miss Mary Adams, who has been spending several months with relatives in Alabama, has returned. Miss Nannie Reed and Mr. D. Mahan, of Boyle county, Mrs. Fishback and daughters, of Danville, Miss Jean Buchanan, of Crab Orchard, Miss Maggie Mitchell, of Taylorsville, George Dunn, of Stanford, "Rex" Reid, Junction City, Mr. G. J. Wright, Calera, and R. J. Tuttle, Birmingham, Alabama, were here at the wedding. Misses Helen Reid, Sallie Cook and Lou Hocker have returned from a visit to Danville. Miss Belle Cook is visiting at Lancaster.

—The Adams-Logan wedding, which came off Wednesday morning, was one of the nicest affairs of the kind we have witnessed. Mr. J. B. Adams, the principal, supported by Messrs. G. J. Wright and R. J. Tuttle, all of Alabama, arrived on Tuesday. As it was necessary to be prepared for an early start in the morning, a reception was tendered at Mr. Hugh Logan's, father of the bride, that evening. Here the numerous friends of "Miss Clo" assembled and a delightful evening was passed, including the two essentials of a Hustonville celebration, to wit: a sumptuous feast and a lively dance. At 10:30 A. M. Wednesday the company re-assembled to witness the bridal ceremony. The piano, obedient to the skillful touch of Miss Bradley, sounded the notes of the inevitable wedding march, and the party entered and took their stations—Mr. Wright and Miss Michell, Mr. Tuttle and Miss Buchanan, Mr. W. S. Drye and Miss Eliza Kennedy and Mr. Adams and Miss Logan. While the knot was being tied Miss Julia adroitly touched the keys to the appropriate air of "Call me Thine Own." Immediately after the ceremony the happy pair, accompanied by a large party of friends, left for Junction City, the former to visit New Orleans, Pensacola, &c. Mr. Adams has taken one of our most popular young ladies, but judging from the very favorable impression made by him, and his friends who came with him, we predict for the new Mrs. Adams a happy home in the "Sunny South."

—The president vetoed the bill to pension William Barney, of Richmond. Barney accidentally shot himself while returning to his command from a visit to his family. Both houses of Congress thought it a meritorious case, but the President says the government is not an "Accident Insurance Company."

—The capacity of the hall in the Pension building, in which the inauguration ball will be held, is 13,000 persons. During the Cleveland ball, in 1884, 8,000 people passed in the gates, and yet there was ample room for dancing and promenading. It took two bands—the Marine Band, of Washington, 100 pieces, and the great Germania Orchestra, of Philadelphia, to furnish the music.

—Few who look upon the tottering form and wavering glance of ex-Senator McCreery, on the occasions when he is seen on the streets, accompanied always by one of his devoted daughters, and so weak that he is helped with difficulty in and out of his carriage, but feel a keen regret that the blight of paralysis should have fallen upon a mind and body once so vigorous and athletic. His mind is fast failing and his wonderful memory nearly gone.—Owensboro Inquirer.

In East India they use microbes, the insects which cause chicken cholera, to destroy English rabbits. In America they use Ganter's magic chicken cholera cure to destroy microbes. McRoberts & Stagg. 21

THE K. P. A.

It Will Meet at Owensboro June 6th, with a Big Programme.

OUR representative at the Louisville meeting reports as follows: The Executive Committee met at the Galt House Tuesday evening in answer to a call made by Chairman Urey Woodson, editor of the Owensboro Messenger, to attend to business connected with the Kentucky Press Association and to arrange a programme for its next meeting, which convenes at Owensboro Thursday, June 6th. The Committee is composed of Urey Woodson, E. G. Logan, Louisville Times, John W. Lyne, Henderson Journal, J. W. Hopper, Courier-Journal, E. Polk Johnson, Frankfort Capital, John A. Bell, Georgetown Times and W. P. Walton, INTERIOR JOURNAL. All were present save the last two mentioned and the latter, who was unable to attend, was represented by his brother, E. C. Walton. After caucusing on several questions business began. Mr. Logan's motion to leave the matter of selecting members to read papers to Chairman Woodson was carried. It was also agreed that Mr. Woodson select the subjects of papers to be read and correspond with the members appointed to discuss them. Mr. Logan in a talk to the Committee recommended that the manuscript left by the late Wallace Gruelle, a romance of the early history of Kentucky, bringing in the life of Daniel Boone, be published by the Press of Kentucky and that each paper pay a minimum cost of, say $10, for the privilege of using it, the proceeds to go to Mr. Gruelle's widow. Motions were made by Mr. Woodson that Messrs. Jas. R. Bettis, of the National Editorial Association, and R. B. Herbert, editor of the National Journal, be invited to attend the association at Owensboro. This was also agreed upon. It was very emphatically decided by the committee that none but legitimate editors and business managers be admitted to membership of the association. This was done to prevent the usual number of dead-heads which are always on hand whenever a session is called from crowding to the front. The question as to whether wines be put on the bill-of-fare at the banquet was discussed, but was finally set aside and left to the Owensboro people to do as they choose in regard to it. The programme for the meeting on June 6th at Owensboro is as follows: Business meeting at 1:30 P. M. for election of officers, reading papers, etc. Address of welcome by Reuben A. Miller, of Frankfort, at 7:30. Response by President E. Polk Johnson; oration by Emmett G. Logan and poem by John G. Craddock. Friday morn'ng and evening devoted to business meetings and at night banquet, followed by a ball. Saturday morning the body en masse leave on a special train for Mammoth Cave, where after taking in the sights there, the meeting will be said to end. The convention then adjourned. Mr. Forrester, of the Louisville Commercial, was present and represented that paper.

HUMBLE.—Dave Spoonamore sold his brown horse for $125 and one mule to the Fox boys for $150. Wm. Blanks bought of John Bourne one On Time filly, three years old, for $110. Mr. Henry White is moving to Versailles. Miss Fannie Swope is visiting Mary Gully. G. A. Swinebrod swapped for a fine saddle horse recently and will exhibit him to the public at various points as soon as he gets him thoroughly trained. James Cox and Engleman have shipped the last of their tobacco to Louisville. Wallace Varnon tells us in a private letter that he is a candidate for county attorney in Lincoln county. The INTERIOR JOURNAL has the largest subscription of any paper at this office, though they went around the world last week and arrived here late Saturday evening. The P. Ms. at Danville and elsewhere will please send our next papers here and let us examine them before sending them on. Henry Cox can show the first mule colt this season. Bud Cox bought Jas. Wilmot's pony for $30. Prof. Eddy, of Danville, writes us he will be along letting stock to extend a telephone from Danville to Lancaster. The stock shares will be about $5 and will all amount to about $200. It has proved a great investment from Danville to Harrodsburg. H. J. Luce is visiting friends at Nicholasville.

"Mama's Gittin Better."

There is gladness in the household;
The shadow fades away
That darkened all the sunshine
Of many a summer day.
"Oh, mama's getting better,"
The happy children cry,
And the light of hope shines bright again
In the loving husband's eye.

In thousands of homes women are "sick unto death" with the terrible diseases so common to their sex, and it would seem as if all of happiness had gone out of life and the household in consequence. For when the wife and mother suffers all the family suffers with her. This ought not to be, and it need not be, for a never-failing remedy for woman's ailments is at hand. Many a home has been made happy because the shadow of disease has been banished from it by the potent power of Dr. Pierce's Favorite Prescription—the unfailing remedy for all weaknesses and diseases peculiar to women.

$500 reward offered for an incurable case of Catarrh by the proprietors of Dr. Sage's Remedy. 50c by druggists.

BRODHEAD TOBACCO.

Metcalf & Foster,

Of Stanford, Ky., are wholesale agents for a full line of our Brodhead Tobaccos and we cheerfully recommend our customers to their patronage.
105 MARTIN & PERKINS.

No attention paid to postal cards. Money advanced for wages, advertising, etc. Centennial Manufacturing Co., Cincinnati, Ohio.

WAGES $3.00 PER DAY.

THE MYERS HOUSE

E. H. BURNSIDE, Proprietor.

No Hotel in Kentucky has a better reputation, and its proprietor is determined that it shall be maintained.

He has recently added to its appointments

Pool and Billiard Parlors

—Also—

A First-Class Livery Stable

To accommodate the demands of his increased transient patronage. Best Turnouts furnished Commercial Travelers and others.

TREASURY DEPARTMENT,

Office of Comptroller of the Currency,

WASHINGTON, DEC. 31, 1888.

Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that "The Lincoln National Bank of Stanford," in the town of Stanford, in the county of Lincoln and State of Kentucky, has complied with all the provisions of the Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of Banking;

Now, therefore, I, Jesse D. Abrahams, deputy and acting Comptroller of the Currency, do hereby certify that "The Lincoln National Bank of Stanford," in the town of Stanford, in the county of Lincoln and State of Kentucky, is authorized to commence the business of Banking as provided in Section fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

In testimony whereof, witness my hand and seal of office this 31st day of December, 1888.

(SEAL) J. D. ABRAHAMS,
Deputy and Acting Comptroller of the Currency.
(No. 9234.)

EXECUTOR'S SALE!
