NOTES ON EDUCATION.

The pay of special teachers in Chicago has been fixed at $1,500.

Two or three more Kindergartens are to be established in Cincinnati.

The estimate for teachers' salaries in St. Louis, for the coming year, is $595,000.

The New-York State Teachers' Association will meet at Canandaigua this year, on Tuesday, July 20, the sessions continuing until Thursday evening.

A fund of nearly $10,000 has been raised for the purpose of assisting necessitous young women to an education at Oberlin. Commencement takes place next week, there being 124 persons to be graduated. There are 514 young men in the college and 435 young women.

The "progressive course" of the Woman's Medical College of Pennsylvania has been found so excellent that the authorities have determined to make it obligatory upon all students entering the college after the year 1880. Students taking this course are examined at the end of the first Winter, this examination being intended as a test of progress and of fitness for further medical study.

Why any person of good capacity should teach in the New-Orleans schools is incomprehensible, unless patriotism and self-sacrifice are taken into account. The school funds are so precarious that the teachers have been obliged to accept certificates of indebtedness from the city, and in order to live to sell these certificates for a mere song. Now it has been decided to stop all expenses after July 31, to pay only one month's vacation salary, and, if necessary, to open the schools for only seven months in the year. The teachers have been working with wonderful patience for many years.

The so-called Harvard Examinations for Women are now being held in Cambridge, New-York, Philadelphia and Cincinnati. They began yesterday. Special examinations will be held in Cambridge in the Summer and Autumn—the first on July 1, 2 and 3, and the second on September 29 and 30 and October 1. Any candidate may divide the July and September examinations as she pleases between the two times appointed, or the whole examination may be passed at once. Special students who wish to take only higher studies are not required to pass any of these examinations, having satisfied the instructors of their ability to pursue these special studies with advantage. The fee for the full year's instruction is $200; for a single course it is $75.

Mrs. Garrett Anderson, the distinguished English physician, urged in a recent address the following practical suggestions as a remedy for the complaints made as to the overwork in girls' schools: First—To get the elements of knowledge well and thoroughly taught at an early age, and not to urge the child to make up for early neglect by taking a very extensive range of subjects as soon as she goes to a good school. Second—To accept two and a half or three hours of class work as long enough at one time for almost all children, and to provide two or three short intervals of rest—e. g., five or ten minutes in each hour—during even this time. Third—To insist upon every girls' school having a playground. Fourth—To aim at greatly reducing the amount of writing in the home work. Fifth—To reduce the number of examinations, and especially to make them as unstimulating as possible, and to apply them with great reserve to the children most likely to shine in them. Sixth—Not to aim at completing the education by the age of eighteen.

J., reopens September 9 for boys and females; exceedingly healthy, excellent government and Christian influences; thorough to fit for any college or for business; $200 a year; send for catalogue; refer to old students: J. Flavel McIlvaine, LL.D.; Judge John A. Blair, Jersey City. S. S. STEVENS, A. M.

ROCKLAND COLLEGE, Nyack, N. Y.—Both sexes; enter at any time; open during Summer; $225 per year; send for new catalogue. W. H. BANNISTER, A. M.

ROCKLAND COLLEGE, Nyack-on-the-Hudson, will be open for Summer Board and optional study for scholars on June 15. A most delightful home with pleasant drives, mountain scenery, boating and salt water bathing at reasonable rates. Address

W. H. BANNISTER, A. M.

SWARTHMORE COLLEGE, near Philadelphia.—Under care of Friends. Both sexes admitted and receive the same degrees. College Courses—Classical, scientific, English, Normal Department, Preparatory and Model Schools. For particulars address EDWARD H. MAGILL, President, Swarthmore, Delaware Co., Penn.

THE SUMMER SESSION of the SELLECK SCHOOL, Norwalk, Conn., the design of which is to secure tuition to those who may desire to spend a portion of the warm season in study, will be open from the last Thursday in June until September 1. On the teaching days of this session the early morning hours will be occupied in school and class-room work, after which pupils, under the care of their instructor, will pass the remainder of the time in the various recreations, which form a prominent feature in the arrangements of the School for this period of the year:—excursions to the adjacent country, pleasure trips to the islands in Norwalk harbor, ball playing, bathing, rowing, etc. A stage for the conveyance of the boys to and from different points belongs to the school; a commodious barge and several boats are kept for the use of its members; bath rooms, a swimming house, and a well furnished gymnasium are attached to it; its campus embraces several acres; its playground is large, and a farm of considerable size adjoins.

It is intended that this midsummer arrangement shall accommodate those who prefer to pass the months of July and August in the country, and also employ a certain part of the long vacation in school exercises and duty.

The principal or one of his assistants may be seen at the Brevoort House on Tuesdays and Thursdays of the next three weeks, from 11 a. m. to 2 p. m.

Circulars can be obtained at Pinckney's School Agency, Domestic Building, 14th-st. and Broadway.

For further particulars apply to JAMES BEECH & SON, China Works, Langton, Staffordshire, England. Direct JAMES MEARS, Sandy Lake, Mercer County, Penn.

European Advertisements.

GRATEFUL—COMFORTING.

EPPS' COCOA.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast-tables with a delicately flavored beverage, which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack whenever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packages labeled thus:

JAMES EPPS & CO.,
Homœopathic Chemists,
48 Threadneedle-st., and 170 Piccadilly,
London, England.

Bankrupt Notices.

THIS IS TO GIVE NOTICE: That on the first day of May A. D. 1880, an alias Warrant in Bankruptcy was issued against the estate of JOHN W. CRAWFORD, of the City and County of New-York and State of New-York, who has been adjudged a bankrupt on his own petition; that the payment of any debts and delivery of any property belonging to such bankrupt to him or for his use, and the transfer of any property by him are forbidden by law; that a meeting of the creditors of the said bankrupt, to prove their debts and to choose one or more assignees of his estate, will be held at a Court of Bankruptcy, to be holden at No. 522 Broadway, in the City of New-York, in the Southern District of New-York, before Isaac Dayton, Register, on the 10th day of June, A. D. 1880, at 12 o'clock m.
U. A. Marshal, as Messenger, Southern District of New-York.

MINES AND MINING.

WEDNESDAY, MAY 26—P. M.

Mining shares to-day were a little more active than yesterday, and as a rule the markets exhibited a better tone. The "raid" on Green Mountain noted yesterday seems to have been abandoned, and the stock was in demand up to 3.05 paid and bid. Hukill was dull and steady at 2.05 regular, and at 2.10 buyer 30 days. Chrysolite was active with an advance from 16½ to 19. Little Chief was ¼ higher at 9½. Climax 10 cents higher at 2.40, Little Pittsburg ¼ higher at 6¼, and South Bite 5 cents higher at 1.55; Silver Cliff being steady at 3.80@3.75, and Amie 15 cents lower at 1.05. Consolidated Virginia sold at 3.15 against 3.20 yesterday, and California at 2.10 against 2.20. Bulwer was dealt in at 6⅛ regular and 6.25 buyer 10 and buyer 60 days, and South Bulwer was more active, selling at 1.10@1.20@1.15. Among the "fancies," Buckeye was largely traded in at between 31 and 33, closing at 32, an advance of 1 cent; Calaveras rose from 72 to 76@75; Gold Placer was steady at 65; Moose sold at 84@85 and at 90 buyer 60 days; Great Eastern rose from 67 to 69, and sold largely on buyers' options at between 70 and 72; Shamrock declined from 93 to 87; and Rappahannock sold at 27, the same as yesterday. We note a sale of Eureka (10 shares) at 17½. The market closed quiet but rather firm.

N. Y. MINING STOCK EXCHANGE SALES.

A telegram received yesterday from the superintendent of the South Hite, says: "Struck 20-inch vein in drift on 250-foot level, assaying $90 per ton."

Mr. J. G. Riley, of the Boulder Consolidated, who has just returned from the mine, reports that the main tunnel has cut a very rich four-foot ore body.

The total value of silver bullion received in this city yesterday was $38,147.

The superintendent of the Green Mountain telegraphs under date of yesterday as follows: "Raise 100 feet above lower level running east opening new country. Good ore in abundance. Ledge in raise continues full and strong. Work on new tunnel and mills being pushed ahead as rapidly as possible at all points. Mills running all right; weather fine."

The Great Eastern Gold Mining Company declared a dividend yesterday of 2 per cent on the capital stock, payable June 15 at the office of the company, No. 3, Broad-st. The superintendent reports that rich ore has been struck in the south workings of the Flora Bell. The width of the vein has been ascertained to be 125 feet.

The superintendent of the Hukill reports, under date of May 21, that the mine throughout is looking very well. The north drift on the third level was carrying 2½ feet of good concentrating ore, and the ledge in the south drift on the same level was widening. The upraise from the third to the second level was up 20 feet and in fine mineral. The stopes on the second level were looking lively and producing the usual amount of ore. About 10 tons first-class and 30 tons second-class ore were being shipped from the mine daily. It is expected that the yield for the month will be unusually large.

Manager Lockwood, of the Miner Boy, reports that in the crosscut running north from the third level a fine vein two feet in thickness has been encountered, assays from which give returns of six ounces in gold and seven and one-half ounces in silver. The vein contains eight distinct pay streaks. The strike was a surprise.

Work on the South Noonday during the week ending May 16 was principally confined to sinking a pump in the main shaft, the inflow of water being very heavy. The face of the north drift carried 5 feet of good ore, and the bottom of the winze was in solid mineral.

The framing of the new wings on the Mayflower Consolidated is nearly completed. Pumps and machinery will be in operation about June 5. The winze has been enlarged to the dimensions of a standard double-compartment shaft, to be known as the Burt shaft. Sinking on the Berry shaft will be resumed as soon as the new pump hall have cleared the water from this portion of the mine. The payroll for May foots about $3,000.

The Red Elephant shipped on May 25 five tons of first-class ore (150 ounces), five tons of second-class ore (110 ounces), and twenty-four tons third-class (39 ounces); net value $1,250.

The superintendent of the Sacramento reports good progress for the week ending May 21. Stoping was going on under more favorable circumstances, as the water in the mine, resulting from the melting snow, was fast disappearing. Stoping in the "October" had been resumed, the quality of the ore still being good. All the different stopes were yielding well. A general cleanup was made May 22.

Four bars of silver bullion worth $5,534 were shipped from the Caribou mine to the New-York office yesterday.

The certificate of incorporation of the Ore Smelting and Refining Company was filed yesterday. The incorporators are George D. Roberts, Jay A. Hubbell, William F. Shaffer, W. H. Winsor and Horace F. Page. This company is formed for the purpose of smelting, reducing and refining gold, silver, copper and other ores and minerals. The amount of the capital stock is $5,000,000, divided into 200,000 shares of $25 each. The incorporators above named are to be the trustees for the first year. The principal office and place of business of the company will be in New-York, but the smelting and refining operations are to be carried on in the different States and Territories. The company is empowered to purchase such property as may be necessary in carrying on the business, issuing full-paid stock in payment therefor.

The total value of silver bullion shipped from Salt Lake City May 20, was $17,435.

The superintendent of the Alta Montana reports, under date of May 17, that the Williams tunnel has intersected the Chalmers shaft. No stoping has been done within 150 feet of the head of the tunnel, the face of which was in solid ore. Developments in the upper and Cole Saunders tunnel has proved the continuity of the ore body between the two levels. The incline was down about 130 feet in good ore. Work had been resumed on the adit tunnel in the Comet mine. About 6,000 tons of low-grade Comet were on the dumps. This ore is to be treated by water concentrating works, which will be built within the next ninety days. The Comet ore runs high in lead, and will serve as a valuable flux in working the Alta Montana ore. A combination of Alta and Comet ore gives about 30 per cent lead and 80 ounces silver.

Several rich gold quartz discoveries have recently been made in Rough Creek Destrict, five miles from Bodie (California). About forty locations have been made within the past week. The camp has been organized as Drake Mining District.

Mining.

AMIE CONSOLIDATED MINING CO.,
