TUESDAY, June 8—P. M.

There is hardly room for a doubt that the further advance in prices for shares to-day was largely due to the employment of sheer force coupled with boldness. There were many times when the market evidently was shaky and almost ready to drop. But special care was taken that the weakness was not developed far enough to frighten the smaller and recent buyers into pressing their stocks on the market. So the market was kept agitated nearly all day; each new burst of buying or bidding carrying prices higher than before, until Erie sold at 36⅞, Lake Shore at 102⅝, Northwest at 94⅛, St. Paul at 75⅜, Delaware, Lackawanna and Western at 76¾, New-Jersey Central at 63⅜, Missouri, Kansas and Texas at 34, Iron Mountain at 44¼, Western Union at 97⅜, and other stocks proportionately above yesterday's last figures. It should be mentioned that the early dealings were somewhat disturbed by a rumor of a large defalcation in the Delaware and Hudson Company, and the price of that stock declined from 69 to 66. But the rumor was promptly and officially denied by a letter from the president of the company, addressed to the president of the Stock Exchange, and the price of the stock advanced to 69¾.

After 2 o'clock there was a break in prices that averaged nearly 2 per cent from the highest figures, followed by a partial recovery just before the close. It so happened that the break referred to coincided in time so well with the receipt of the news from Chicago of General Garfield's nomination that that nomination was eagerly seized upon as a cause. But the nomination probably had as little effect upon the market as any event could have. Under any circumstances the market probably was ready to yield, and even a greater reaction than has yet occurred may with reason be expected after the recent and rapid advance of from 5 to 10 per cent. It is not worth while to forget that it is not yet a week since Western Union sold at 86¾, Erie at 30, Lake Shore at 95, New-Jersey Central at 53½, Northwest at 88, St. Paul at 68½, etc., etc. The buyers at those prices have profits at the present prices which are too tempting to suppose that they will not attempt to realize. Although the recovery from the extreme decline was about ½ per cent, the final gains and losses from the last prices yesterday are about evenly divided, and the market closed unsettled, with quotations in many instances below the figures of last sales.

The business done in Government bonds at the Boards amounted only to $101,000. The 6s and 5s were ⅛ to ¼ higher, the 4½s about ⅛ lower, and the 4s steady. District of Columbia 3-65s continued strong. Annexed are the closing quotations:

State bonds were dull, but the sales included Missouri 6s of 1887 at 108 and 1889 or 1890 at 110, Alabama class A at 58¼, and North Carolina special tax third class at 3½. The only sale of city bank stocks was 23 shares of Metropolitan at 149.

There was increased activity in railroad bonds, with a sharp advance for some of the speculative issues, followed by reactions when the share market weakened. The dealings in Erie second consols amounted to $1,640,000 at prices ranging from 83⅝ up to 85, with final transactions at 81⅛, and the funded 5s rose from 77⅛ to 78¾. Boston, Hartford and Erie firsts rose 1 per cent to 38½ and fell back to 37¾, and Rome, Watertown and Ogdensburg advanced from 59 to 60¼@60. C., C. and I. C. first assented, after selling at 81¼, closed unchanged at 81, but the incomes rose from 36½ to 38@37. New-Jersey Central consols were ⅝ higher at 101, and Lehigh and Wilkesbarre consols were steady at 103⅝@93½. Mobile and Ohio first debentures advanced ¾ to 70¾, and second debentures 1 per cent to 39¼. Canada Southern ¼ to 89⅞, and St. Louis and Iron Mountain first incomes 2 per cent to 80½, and second incomes 1¾ per cent to 72¼. The old issues of the Wabash system were about ½ per cent higher. Denver and Rio Grande firsts yielded ½ to 101½, and Missouri, Kansas and Texas were weaker, the first consols ½ lower at 103, and the seconds 1⅛ per cent lower at 58½. About the usual amount of business was done, ranging from one to five bonds, in the miscellaneous list, and without material change in prices.

The Sub-Treasury to-day gained $199,599 on balances, made up by a coin gain of $231,989, less a currency loss of $32,390. This makes the net gain since last Friday $676,738. Money is in abundant supply, and the rates again were 3 per cent to-day for call loans on pledge of the usual Stock Exchange collateral, and 2½ per cent on Governments. The United States Treasurer at Washington to-day received $570,000 in National bank notes for redemption. The customs receipts were $730,000, and the internal revenue receipts $200,000. The following is the Clearing House statement to-day: Exchanges, $92,612,777; balances, $5,187,025. The transactions at the Sub-Treasury covered: Receipts, $874,836; payments, $675,237; currency balance, $8,481,162; coin balance, $89,251,887.

The foreign exchanges are quiet, but rates are firm. The following are the quotations:

In London, the quotations for British consols and United States bonds are unchanged. American railways, while higher, hardly responded to yesterday's full advance in this market. Erie rose from 34¼ to 36, and second consols from 84¼ to 85¾. Atlantic and Great Western firsts were ⅛ higher at 61, Illinois Central 1¼ higher at 105¾, Pennsylvania ½ at 51¾, and Central and Hudson 1 per cent at 129½. The Bank of England gained £13,000 bullion on balance. In Paris, French 3 per cents declined from 85.80 to 85.72½@85.77½; sight exchange on London falling to 25.32½ francs to the £.
