AGRICULTURAL.

Lime Around Apple Trees.

We have known farmers to make it a regregular practice for a succession of years, to throw caustic lime around their apple trees in the spring and summer. We once noticed that a tree standing in the immediate vicinity of our dwelling had, all at once, put forth with renewed energy, and we were at a loss for some time to define the cause. On examination, we found that a quantity of lime, which had accidently been spilled and rendered worthless by becoming mixed with the refuse on the stable floor, had been thrown at the foot and around the tree, and to this, as the principle cause, we immediate-accredited the repurchased twelve casks of lime, and applied half a bushel to each of the trees in our orchard, and found that it produced immediately beneficial effects. Not the health of the trees only, but the quality of the fruit also, was greatly improved. This application will be especially beneficial in soils where there is a redundancy of vegetable matter. We would advise our farmers, in some places, especially in new forest lands, to make the experiment, and so if it is not deserving of the high recommendation it secures.

A HORSE FINDS HIS WAY HOME AFTER AN ABSENCE OF FOUR YEARS.—Mr. Green Triplet, of Flemingsburg, Kentucky, sold a horse to a man who was buying horses for the government early in the war. The same horse was taken to Cincinnati, and sold to an officer in the United States army, and since that time nothing has been heard of him until a few days ago, when he returned to the farm of Mr. Triplet, who had raised him from a colt. The horse was four years old when he left his home. Where he came from, or how he managed to find the place of his birth is involved in mystery.

Mr. Triplet is an excellent hand with horses, and is supposed that the animal was badly treated, and having evaded the vigilance of his master, has returned to the home of his choice. This horse was absent for four long years in distant and strange lands, and how he managed to find his way back home is quite a problem for a naturalist. This is a remarkable illustration of the wonderful sagacity possessed by a horse. It shows that the horse is possed of a wonderful instinct, and that years do not wipe out its memory.

TARRING FENCES.—It is not, perhaps, generally known, that by mixing a small quantity of benzine with the tar, when about to use it, that it liquifies and becomes as easily used as thin paint.

It is necessary in the mixing of tar and benzine to take more care in the warming it, as the slightest contact with flame will cause the benzine to blaze, and hence, for that purpose, a charcoal fire will be best where practicable.

Beyond the saving in material, which as gas tar is not so very dear, may not be material, and the saving in labor, it being much more easily applied than raw tar—the appearance of the work after completion is astonishing to those who have not witnessed it.

Tar is prepared and applied makes the wood look more like Japanned ware, than anything else we can compare it to.—*Gardeners Monthly.*

We hope the benzine possesses the great principle of preserving the wood, and thus protect it against the effects of the *gas tar, which tends rapidly to destroy it.*

HOW TO HUSK CORN.—Let the corn remain on the stalks until it is dry and fit for the crib.

Enter the field with a horse and wagon, straddle every fourth row, with a man on each side and a boy in the rear. Break off the ears as rapidly as possible, throwing them into the wagon; this saves carrying or handling over, not being particular about taking off all the husks; secure your corn in any convenient place until winter; a pen of rails will answer. The husks that remain will keep the corn from spoiling in crib.—When you wish to market your corn, put it on a floor, thresh with horses, the husks will not be in the way, take off and run through a mill, and your corn will be bright and clean and in first rate condition. Two men and a boy can pick and crib two hundred bushels of ears in a day.

☞ My opinion is, that if farmers adhere strictly to these rules, they may save half of their labor, and have better crops. Try it.—*Michigan Farmer.*

SUPPLY AND DEMAND IN THE LITERARY MARKET.—The New York *Evening Gazette* shows how overstocked the brains market now is:

An author advertised for assistance in getting up a historical work, a few days since received over fifty applications for the place. At least forty of the applications were made by men who seemed fully capable of doing the work—men who had culture, were well read in history, and appeared to be "ready writers," at least so far as one could judge from their letters of application. Of course the advertiser could employ but one, and he was chosen over the rest only because he proved to be an old acquaintance.

How to Keep Potatoes.

A correspondent of the *Scientific American* says that he has tried the following method of keeping potatoes for years with complete success, though in some instances the tubers were diseased when taken from the ground:—"Dust over the floor of the bin with lime, and put in about six or seven inches of potatoes and dust with lime as before. Put in six or seven inches of potatoes and lime again; repeat the operation until all are stowed away. One bushel of lime will do for forty bushels of potatoes, though more will not hurt them—the lime rather improving the flavor than otherwise."

☞ The farmers of Long Island are suffering this season from the potato rot. The losses from disease last year are renewed this season on a much larger scale. In some places fields embracing many acres are wholly blasted. The Mercer variety appeares to be the most affected.

WASHING MACHINE.
It is generally conceded that "the best is always the cheapest;" and that being the case great pleasure is taken in introducing to the public
DOTY'S CLOTHES WASHER

which is rapidly becoming popular and with this Machine the hard work of washing is mitigated to a comfortable and pleasant task. The clothes are placed in hot suds, and shut in. While thus immersed and the steam confined, the Machine is operated as seen above. Thus the work is speedily, cleanly and easily done, and that too without tearing and wearing out the clothes, which to a great extent is the cause under the old fashioned rubbing process.
With a
UNIVERSAL CLOTHES WRINGER

the whole labor of washing is but a pleasant pastime compared with the former mode of RUBBING AND SOAKING, and to bring and wringing. The dirt is so dissolved by the HOT SUDS that but little compression is necessary to expel it. No family in the County should be without
DOTY'S CLOTHES WASHER
and the
UNIVERSAL CLOTHES WRINGER.
The prices of these Machines range as follows:
Family size Washer, ... $11 00
Hotel Size 16 00
Family size, No. 2 Wringer, ... 8 50
Size No. 1, ... 10 00

GREAT IMPROVEMENT IN
SEWING MACHINES.
Empire Shuttle Machine!
SALESROOMS, 536 Broadway, N. Y.,
259 Washington st. cet. Boston,
921 Chestnut Street, Philadelphia.
PATENTED FEB. 14, 1860.
THIS MACHINE is constructed on entirely new principles of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be
Simplicity and Perfection Combined.
It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook muslin, with cotton, linen, or silk thread, from the coarsest to the finest number. Having neither CAM or COG WHEEL, and the least possible friction, it runs as smooth as glass, and is
Emphatically a Noiseless Machine.
It requires FIFTY PER CENT. less power to drive it than any other machine in the market. A girl twelve years of age can work it steadily, without fatigue or injury to health.
Its Strength and wonderful Simplicity of Construction render it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction.
We respectfully invite all those who may desire to supply themselves with a superior article, to come and examine this UNRIVALLED MACHINE.
One half hour's instruction is sufficient to enable any person to work this machine to their entire satisfaction.
Agents wanted for all towns in the United States, where agencies are not already established. Also, for Cuba, Mexico, Central and South America, to whom a liberal discount will be given.

BEALE'S LATE
FOWELL'S EMBROCATION,
FOR ALL DISEASES INCIDENT TO HORSES, CATTLE, AND THE
HUMAN FLESH,
requiring the use of an external application.
This new Compound, prepared by a practical Chemist, being a brilliant knowledge of all the medical virtues of each ingredient that enter in the composition, is warranted to exceed anything of the kind ever yet offered to the public as an external application for the diseases for which it is recommended. We are satisfied that it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rely on experience as the best test of its usefulness. It is pronounced by
FARRIERS
and all who have tried it, to be the best application ever used. This Embrocation has been put up for over eight years, and it is only through the increasing demand and urgent request of our friends and the public that I send it forth as the grand remedial agent for the various diseases to which that noble and useful animal, the horse is subject.
Many remedies have been offered to the public under different forms, some of these are injurious, others at best of little use, and many wholly improper to answer the purposes for which they are recommended.
A judicious and really useful compositon, free from those objections, has heretofore long been desired by many gentlemen who have
VALUABLE HORSES,
and are unwilling to trust them to the care of designing and pretending Farriers. Their wishes are at length fully gratified, by (Dr. Beale) being prevailed upon to allow this valuable Emorocation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.
This Embrocation was extensively used by the Government during the war.
Address all orders to DR. EDMOND BEALE,
602 South Second St. Philadelphia, Pa.
March 20, '67.—6mo.

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strengthening and cleansing the stomach and intestines.
It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent, and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Price 25 Cents per Paper, or 5 Papers for $1.

BROWN & PERKINS,
Pianos for the People!
420 Broome St., N. Y.
We would call the attention of the public and the trade to our elegant New scale Pianos, in the following styles:
STYLE A, 7 octave, Front large round corners, plain case, either octagon or carved legs, straight bottom, bead moulding on plinth .. $450
STYLE B, 7 octave, same as style A with serpentine moulding or plith, carved legs and lyre, 500
STYLE C, 7 octave, Front corners large round serpentine bottom, moulding same as on style D, carved lyre and desk, fancy carved legs 550
STYLE D, 7 octave, Four large round corners, finished back, mouldings on rim and plinth, serpentine bottom carved lyre and desk, elegant carved trust legs 600
The above styles are all finished in elegant rosewood cases and have the full iron frame, French action, harp pedal, beveled top, ivory keys and key fronts and exceed in overstrung bass, nearly all the 7½ Octave Pianos now manufactured. They are made of the best materials and for finish, durability, purity and sweetness of tone, cannot be surpassed. We invite the attention of the public, of dealers and the profession, to a critical examination of the merits of our Pianos.
By avoiding the great expenses attendant upon costly factories and expensive warerooms in the city, we are enabled to offer these Pianos at prices which defy competition, and invite all to call and examine them, before purchasing elsewhere. Parties ordering from a distance can rely upon receiving their Pianos promptly, and no confusion can arise as the styles are so distinctly designated by the letters A B C D.
The four styles described above, embody all the essential changes in existing styles of case, which are by many manufacturers run up to 15 and 20 patterns.
MUSIC DEPARTMENT.
We would respectfully call the attention of Choir Leaders and Singing School Teachers to our establishment, where all kinds of Church Music Glees and Anthem Books can be obtained on the most favorable terms.
The long experience of our Mr. Perkins in Musical Conventions, Choirs, the Concert Room and Sunday-School, enables him to give advice and information on all points of interest relative to the selection of proper works of instruction, formation of musical societies—progress in musical studies, and items of general interest to composers, leaders teachers and students.
Sheet Music furnished on the usual terms with promptness and despatch. Country orders so filled—also selections made for pupils, teachers, concerts, &c., &c., &c.
Now ready the new Sunday School Singing Book,
'THE GOLDEN PROMISE.'
By T. E. Perkins. Author of Sacred Lute, Sunday School Banner, Oriental Glee Book, Psalm King, &c., &c., &c.
We will send a specimen copy, post paid, to any address on receipt of twenty cents. The price of 'The Golden Promise' is as follows:
Single copies, in paper covers $0.30

Stoll's Unrivalled Piano Polish,
Just introduced, and being adopted by all leading houses in the manufacture of Pianos, Organs, Billiard Tables, Furniture, &c. &c. Every one who has a Piano should have a bottle of this Polish. Send for Circulars, and we will give full particulars and directions. Applications for Pianos and Agents received by BROWN & PERKINS, General Agents for the United States, 420 Broome Street, N. Y.
☞ As many persons in the country want a single bottle, and as the article cannot be sent by mail, where Clubs are made up, and one or more dozen ordered, (with the money) we will forward by express (charges paid) for $2 per dozen.
