Boards and quotations were a little easier, the bids for the 6s of 1880 and 4 per cents being reduced ⅛ per cent. District of Columbia 3-65s sold at 98¾ ex interest. Annexed are the closing quotations:

State bonds were neglected and no business was done in them. Louisiana consols are offered at 46¾. The sales of city bank stocks included only ten shares of Mercantile at 95.

Railroad bonds were strong in the morning, but later were unfavorably affected by the decline in the share market. Even Mobile and Ohio first debentures, which had risen from 81 to 82½, again sold at 81, although the stock of the company only declined ⅜ per cent. Erie second consols declined from 91⅜ to 90¾@90⅞, and New-Jersey Central incomes from 82¾ to 82½. St. Louis and Iron Mountain seconds were ¼ lower at 103¾. Missouri, Kansas and Texas seconds were firm, rising to 66¾@66½. St. Paul consols sold at 112½, Oregon Railroad and Navigation at 97¾@97⅝, Peoria, Decatur and Evansville firsts at 101, St. Paul and Sioux City firsts at 104¼. Great Western seconds at 104½@104¼. Denver and Rio Grande firsts at 104½@104¼. Kansas Pacific consols at 96½@97@96⅞, and Texas Pacific incomes at 69¼@69¾. But it is proper to remark that at the close only a few of the issues would bring the prices here named.

The Sub-Treasury to-day lost $736,259 on balance, made up by losses of $96,313 currency and $639,946 coin. This reduces the gain since last Friday to $164,779. The money market is moving rather feverishly and rates are irregular. To-day for call loans they ruled from 3½ to 2½, with the larger portion of the business done at 3 per cent. There is a considerable movement of funds to the interior, and it is not unlikely, if it continues, that the banks will make it a pretext for advancing rates. The only change to-day in the domestic exchanges on New-York is a decline to 5 cents premium at Boston. But $1 per $1,000 discount at Chicago and St. Louis means a serious draft upon New-York. The United States Treasurer at Washington to-day received $263,000 in National bank notes for redemption. The customs receipts were $627,702, and the internal revenue receipts $256,710. The following is the Clearing House statement to-day: Exchanges, $103,274,085; balances, $4,470,358. The business at the Sub-Treasury covered: Receipts, $1,297,971; payments, $2,034,230; currency balance, $7,095,448; coin balance, $88,825,183.

WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending Aug. 3, 1880.

[Expressly for THE N. Y. TRIBUNE by our own reporter.]

BEANS AND PEAS.

Receipts for the week—Beans, 867 pkgs.; Peas, 16,040 bush. Exports—Beans, 579 pkgs.; Peas, 4,132 bush. There is a light stock of Medium Beans on this market, and Prime lots are firmly held at quotations. The feeling is also a shade firmer for Marrows, and strictly Choice are salable at outside figures. There are a good many Red Kidney Beans here, but the stock is well controlled, and $4 75 is the general asking price. White Kidney scarce and firm. The stock of Black Beans is not heavy, but it is believed that there are enough here for all wants. Not many Pea Beans offering, and feeling rather stronger for prime goods. Choice lots of Green Peas are not plenty, but the demand is light, and buyers refuse to pay advanced prices. Yellow Eyes have been held with firmness, but not much business doing. Canada Peas, in bond, in bulk, quoted nominally at 84c. Quotations:

BUTTER.

Receipts for the week, 36,706 pkgs.; last week, 37,143 pkgs.; corresponding week last year, 3[illegible] pkgs. Exports for the week, 50,700 pkgs. Very little fresh, and no pkgs. to the Continent. There appears to be no larger quantity of Creamery Butter offering, but as the demand is confined almost exclusively to the home trade, and prices have been crowded so high there is less being used. The consequence is a quiet market, with a little weakness from the strong figures of last week. Some very choice invoices are still selling at 27c., but the lots have been sold at 26c., and it is a question whether a good customer could not buy the best at 26c. or 26½c. Receivers show no disposition to hold these goods, as they do not improve with age, and there is nothing in the situation which points to any higher prices in the near future. State Dairy Butter is still in very small supply and generally firm. A very conservative dealer expressed the opinion that dairymen would repent the folly of holding so much of their butter at this season of the year, when so good an opportunity offers for its ready sale at remunerative figures. The manufacturers of Oleomargarine are already pressing their goods on the market at 18@18½c., and at these prices a very large amount can be sold in the place of the genuine article. Western Dairy Butter in Half-Bbls. Tubs are selling readily at 24c., but invoices of Welsh Tubs at 23c. and Firkins at the same figure. Nearly all the Western June Factory Butter, in cold storage, is held above the market; exporters want to buy at 18c., and holders are asking as high as 19c. Fresh-made Factory is selling, unless shipped to Western points, at 18c. There is no demand for 15c. goods for shipment to Germany. Quotations:
