TELEGRAPHIC

THE CYCLONE.

Another Terrific Blow.

Indianapolis, Ind., 29.—Yesterday evening a cyclone struck the town of Edinburg, Ind., following a heavy rain and wind storm. It lasted for ten minutes with great violence, taking the spire from the Methodist church and throwing it upon the parsonage, crushing through the roof to the ground. South of town a grove of timber was demolished, and four miles south the farm of B. J. Deming, caught the fury of the storm. Deming's son was killed, and a farm hand was also fatally injured.

Terre Haute, 29.—A tornado swept by Clay City at 5 o'clock yesterday evening. The extremeties were a mile apart. Clay City, which was in the centre, escaped with slight damage, but at Neal's Mill on one side a house was swept out of existence. Six persons were killed, a bridge destroyed and havoc played generally. On the other side of the little settlement five persons were killed, a house blown to pieces, twelve persons injured, and trees blown over in a wide arcs.

Cable Clicks.

Zurich, 29.—The people of Zurich have by popular vote sanctioned the bill providing for the restoration of capital punishment.

Paris, 29.—The Suez Canal Company say if the British government has a canal across the isthmus the arrangements must receive the approval of the shareholders of the company before it can be carried out.

Tricour, the new French minister to Japan is expected to arrive at Pekin shortly, to replace Bource, the present representative there. The Chinese embassy in Paris in accordance with the request of Chailomel Lacour, minister of foreign affairs has telegraphed the Chinese government asking that Tricour be received without awaiting the arrival of his credentials.

London, 29.—At the meeting of the Mexican Railway Company to-day the chairman complained that the Mexican government had granted a subsidy to the Inter Ocean Railway Company in violation of the Mexican Railway Company's exclusive right. He said the £30,000 due from the Mexican government was practically a bad debt. There was no reason to fear the subsidence of the late heavy traffic in railway materials. If, however, it did subside, he said they would have for compensation the general development of trade which must use their line.

Divided Irish.

Chicago, 29.—The movement which has been organized to hold a mass meeting of Irish Catholics in this city to protest against the Pope's bull in relation to the participation of bishops and clergy in the Parnell testimonial fund, is causing some stir among Irish-Americans here. There is apparently a difference of opinion as to the wisdom of such a course, the more conservative urging that action be delayed until the full text of the Papal note is known. Other of the leaders insist on immediate action, and a meeting will be held on Tuesday next to decide whether a mass meeting shall be called. Priests being interviewed, join in urging that no layman or prelate should engage in any crusade against the head of the church.

Casualties.

London, 29.—The American bark *Stonewall Jackson* from Portland, Or., while being towed to Hartlepool, went aground on Red Cat rock and filled. The crew were saved. It is expected the vessel will be a total wreck.

Norristown, Pa., 29.—A gang of railroad laborers were buried by a cave-in on the Philadelphia, Norristown and Phœnixville Railway at Conshocken, this morning. Andrew Gurlich, A. Johnson and George Scoopgon were fatally injured.

The Canadian Governor-Generalship.

London, 29.—The *Evening News* publishes a statement, which is probably without foundation, that the Duke of Albany offered his services for the governor-generalship of Canada before the Marquis of Lansdowne was appointed.

"My hands were covered with little dry scabs. They have disappeared and I'm better than I have been for 20 years from using Dr. Benson's Skin Cure." A. M. Noble, Selma, N. C., July 3, '82.

Spat in his Face.

Chicago, 29.—Senator Condee, of this city, last week in the senate, while a certain nomination for a Chicago justice of the peace was pending, made the assertion that Justice Prindivalle, seeking renomination was under the control of Chicago gamblers, and was the tool of Mike McDougall. Yesterday Condee was assaulted by McDougall, while walking the streets of this city, and after some words the latter spat in the senator's face.

THE BEST cure for diseases of the nerves, brain and muscles, is Brown's Iron Bitters.

Logan Denies.

Chicago, 29.—Senator Logan, in a two column letter published in the *Tribune* this morning reiterates in detail his denial that he located any lands on the Zuni Indian reservation, and asserts that the lands located by his son-in-law, Major Wicker, likewise are not within the reservation of those Indians.

Psoriasis

"I have been afflicted for twenty years with an obstinate skin disease, called by some M. D.'s Psoriasis, and others Leprosy, commencing on my scalp, and in spite of all I could do, with the help of the most skillful doctors, it slowly but surely extended, until a year ago this winter it covered my entire person in form of dry scales. For the last three years I have been unable to do any labor, and suffering intensely all the time. Every morning there could be nearly a dustpanful of scales taken from the sheet of my bed, some of them half as large as the envelope containing this letter. In the latter part of winter my skin commenced cracking open. I tried everything, almost, that could be thought of without any relief. The 12th of June I started west, in hopes I could reach the Hot Springs. I reached Detroit, and was so low I thought I should have to go to the hospital but finally I got as far as Lansing, Michigan where I had a sister living. One Dr. —— treated me about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my back, across my ribs, arms, hands, limbs feet badly swollen; toe nails came off; finger nails dead and hard as bone; hair dead, dry and lifeless as old straw. O my God! how I did suffer. My sister, Mrs. E. H. Davis, had a small part of a box of Cuticura in the house. She wouldn't give up. Said, "We will try CUTICURA." Some was applied on one hand and arm. Eureka! There was relief! Stopped the terrible burning sensation from the word go. They immediately got the CUTICURA RESOLVENT, CUTICURA AND SOAP. I commenced by taking one tablespoonful of RESOLVENT three times a day after meals; had a bath once a day, water about blood heat; used CUTICURA SOAP freely; applied CUTICURA morning and evening. Result, returned to my home in just six weeks from time I left, and my skin as smooth as this sheet of paper.

NO USE FOR THEM.

Concerning Certain Relics of the Past—Dogs that have had Their Day.

George Stephenson's "Rocket" and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAPCINE POROUS PLASTER surprised both the public and the physicians; and the triumph of the Capcine is founded upon the partial success, or the utter failures of its predecessors: Everything of value in the old porous plaster is retained in the Capcine; but at this point all comparison ends, and contrast begins. For example:

The old plasters were slow in their action; the Capcine is quick and sure.

The old plasters lacked the power to do more than to impart slight, temporary relief in cases easy of treatment; the Capcine penetrates the system and permanently cures the troubles for which it is recommended.

The old plasters depended for any good results they might attain, upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combinations of the rare medicinal ingredients which it contains.

In brief, the old plasters, like Stephenson's discarded engine, are switched off the track while the Benson's goes on its way winning golden opinions from all sorts of people.

Yet in this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to virtue." Imitation is the concession failure makes to success. Benson's Plasters are parodied in name and style.

Beware of swindles. The genuine have the word CAPCINE cut in the centre. Price 25 cents. Seabury & Johnson, Chemists, New York.
