What seems most expensive at the beginning frequently costs the least in the end.—The Advertising Agent.

THE SALT LAKE HERALD.

Established June 6, 1870. SALT LAKE CITY, UTAH, MONDAY, MARCH 25, 1907 10 PAGES. Price, Five Cents.

"In my opinion the only way to advertise is to give them plain, common sense talk. Tell them the truth. Do not get a customer to come to your store and find that you have faked him, for that is poor advertising, besides being dishonest."—Tom Murray.

BONILLA MADE LOSING FIGHT

President of Honduras Defeated by Nicaraguans and Has Taken Flight.

END OF THE WAR IN SIGHT

FALL OF THE CAPITAL EXPECTED TODAY.

Managua, Nicaragua, March 24.—Santos Ramirez, director general of telegraphs and telephones, today made the following statement to the Associated Press:

"The Nicaraguan forces have captured Choluteca, Honduras, which was held by the Honduran and Salvadorean troops, and President Bonilla has fled by boat. Steamers will pursue the fugitive president.

"I believe the war is ended."

The government is without further advices concerning the capture of Choluteca, but details are expected shortly. Choluteca is the most strongly fortified town of Honduras. It is on the Choluteca river, about three miles from the Gulf of Fonseca. It was here, some years ago, that Ex-President Vanquez was defeated by allied revolutionists and Nicaraguans.

WAR PRACTICALLY ENDED.

Enemy Will Probably Capture Honduran Capital Today.

Washington, March 24.—President Bonilla has fled from the battlefield and the Central American war has practically ended, according to cable dispatches received in Washington today by the Nicaraguan minister, Mr. Corea. The fall of the Honduran capital, Tegucigalpa, tomorrow, is predicted by the Nicaraguan secretary of foreign affairs, Mr. Gamez.

The cablegram from the secretary of foreign affairs follows:

"Choluteca taken. Salvadorean and Honduran combined armies defeated. President Bonilla hidden in San Lorenzo with few men. Sent steamers to capture them. Tegucigalpa will be taken tomorrow."

General Ramirez, director general of telegraphs and telephones, sent this message:

"It is my opinion that the war is terminated. Bonilla has fled from Choluteca by sail."

When shown the Associated Press dispatch tonight announcing the President Bonilla had fled from Honduras, Minister Corea said he believed the fugitive president would go to Salvador and again raise his army for a second attack on Nicaragua, unless the United States and Mexico exercise their good offices to the extent of insisting that Salvador and Guatemala maintain neutrality. If this be done, Mr. Corea says the war is ended; otherwise he is firmly convinced that it will only be a question of a short time until hostilities are again resumed. The Nicaraguan minister tomorrow will ask Secretary Root and the Mexican ambassador, Mr. Creel, to take some steps to make Salvador and Guatemala to keep their neutrality pledge.

EXPORTS OF MEATSTUFFS

Increase of $76,000,000, or 45 Per Cent, During Decade from 1896 to 1906.

Washington, March 24.—The total exportations of meat, dairy products and food animals from the United States last year aggregated over $250,000,000 in value, according to a statement issued today by the bureau of statistics of the department of commerce and labor. This represents an increase of $76,000,000, or 45 per cent, during the decade from 1896 to 1906. More than 60 per cent of last year's exports went to the United Kingdom.

Of the $250,000,000 worth of meats, dairy products and food animals passed out of the United States last year $90,000,000 was in live animals, $58,000,000 worth of lard, $36,000,000 in bacon, $32,000,000 in fresh beef, $21,000,000 in hams, $18,000,000 in oleomargarine, $14,000,000 in pork other than bacon and hams, $4,500,000 in butter and $2,500,000 in cheese.

LOSS $15,000.

Chicago, March 24.—The sporting goods house of A. G. Spalding & Brothers, on Wabash avenue, near Monroe street, was partially destroyed by fire tonight, the loss being estimated at $15,000. The cause of the fire is not known.

MINES WILL BE RUNNING SOON

Industrial Workers of the World Cut But Little Figure in Goldfield.

MINERS TO MEET TUESDAY

LOCAL UNION WILL THEN BE SET FREE.

(Special to The Herald.)

Goldfield, Nev., March 24.—That the trouble between the mine owners of the Goldfield district and the men employed by them will be settled shortly there is scarcely a doubt. In spite of many obstacles the miners, by an overwhelming vote, have decided that locally the Western Federation of Miners is to be entirely independent of the Industrial Workers of the World.

The next meeting of the men, which will be held on Tuesday, is for the purpose of placing the local union free from interference, and it is thought that a committee will then be appointed to come to a final agreement with the mine owners.

Truce Probable.

The men in control of the mines realize that they must agree upon the conditions of a truce until the annual meeting of the Western Federation of Miners, which is a branch of the I. W. W. It is thought that the action of this convention will result favorably and that the constitutional changes will cause a complete separation between the miners of this district and the I. W. W. In the meantime the mines will open, as the mine owners will not discriminate against any union which is absolutely independent of the I. W. W., and this opens the way for permanent peace. It is hoped that by Wednesday morning the trouble will be settled, pending the meeting of the Western Federation of Miners a few weeks hence.

BURTON'S STORY DENIED.

No Pardon Was Offered the Former Kansas Senator.

Washington, March 24.—Peyton Gordon, United States attorney in charge of pardons, tonight denied the statement of former United States Senator Burton that a pardon had been offered to Mr. Burton a few days after he was placed in jail at Ironton, Mo., to serve his six months' term. Mr. Gordon declares that a few days after Mr. Burton's imprisonment began a number of letters were received at the department of justice asking for a pardon for the former senator. As there was nothing to indicate that these letters had been written with Mr. Burton's knowledge, Mr. Gordon wrote to Mr. Burton and called attention to the letters and suggested that if Mr. Burton so desired the communications would be forwarded to the president. No answer, however, was received from Mr. Burton.

SNOWING IN THE EAST.

Summer Weather in the South for a Few Days More.

Washington, March 24.—The weather bureau tonight announced that the hot wave has been broken in the east and throughout the Ohio valley, though the summer-like weather will continue in the south and southwest for several days. According to official advices received at the weather bureau, it is snowing today in Albany, N. Y., and in many parts of New England. The highest point reached by the thermometer here today was 85 degrees at 3 o'clock in the afternoon, and at 9 o'clock tonight the mercury had dropped to 35 degrees. Professor Frankenfield predicts there now will be several weeks of cool weather.

CANNOT BE FORWARDED.

Washington, March 24.—In consequence of the withdrawal by the Oceanic Steamship company of its steamers on the route between San Francisco, Auckland and Sydney, the postoffice department is without the means of dispatching parcels post mails to New Zealand and Australia. Consequently, postmasters have been instructed to decline to receive such packages addressed for delivery in this country until further orders, which will be issued as soon as other arrangements can be made. These arrangements are expected in the near future.

STUCK IN THE MUD.

Seattle, Wash., March 24.—A special to the Post-Intelligencer from Port Townsend says:

The British ship Dudhop, Captain Derenier, lumber-laden, from Port Gamble for Callao, dragged her anchors in the high wind of today and is imbedded in a rift of beach mud. No damage is apparent and it is believed that she can be floated tomorrow without great difficulty.

NO WONDER HE WENT TO PAN. MA.

—Chicago Inter-Ocean.

The Heir Apparent Trains for the Presidential Race.

EXPECT TO HOLD THEIR PLACES

Postoffice Clerks and Letter Carriers Satisfied With Improved Prospects.

Washington, March 24.—Information has reached the postoffice department that many clerks and letter carriers who indicated their intention some time ago to retire from the postal service will continue in the service. Those who had given notice of their intention to resign included not only clerks and carriers in city offices, but rural mail carriers. Their complaint was that they could not live on their present salary by reason of the increase in their household expenses. The force of the complaint was recognized by First Assistant Postmaster General Hitchcock, who strongly recommended an increase in salaries. The recommendation was approved by the then postmaster general, Mr. Cortelyou, and was taken up by Mr. Hitchcock with the committees of congress.

Gratitude Expressed.

Both the clerks and carriers have expressed, in connection with their assurance that they will remain in the service, their appreciation of the work done in their behalf.

Edward J. Cantwell of this city, secretary of the National Association of Letter Carriers, has forwarded to Mr. Hitchcock a letter, in which he says:

"On behalf of the letter carriers of the country, I take this opportunity of expressing their gratitude and appreciation for your untiring and unselfish work on behalf of their welfare and which has resulted in the passage of the amendment to the postoffice appropriation bill substantially increasing the salaries of all the carriers throughout the country."

Mr. Cantwell said today that the local organizations of both the carriers and the clerks throughout the country had adopted resolutions of thanks to Mr. Hitchcock, and he expressed the belief that the good feeling engendered would benefit immensely the postal service.

AGAINST CASTE SCHOOLS

William Lloyd Garrison Discouraged Over Outlook in the Southern States.

Boston, March 24.—William Lloyd Garrison, presided at a mass meeting held in Tremont temple today under the auspices of the industrial department of Morris Brown college at Atlanta, Ga. Mr. Garrison said, in part:

"What disturbs me more than the attitude of the southerners who are making capital out of race hatred, are the concessions of northern friends of the colored people who have been truly helpful in the encouragement of southern schools. Because prejudice is deep-rooted and is again demonstrating its strength in the north, it is all the more urgent that no countenance be given to this hateful spirit. Not even southern lynchings are so disheartening to the friends of equal rights as the acquiescence of such men as ex-President Cleveland, President Eliot of Harvard and Bishop Lawrence of Massachusetts (all desirous of uplifting the colored race), in the nullification of the fifteenth amendment and the maintenance of caste schools."

Mr. Garrison argued that the white south has shown "no sense of responsibility" since "usurping all political power," and that it has discriminated against colored schools in appropriations.

TAFT STARTS FOR THE CANAL ZONE

Expects to Reach Hampton Roads on Return Trip Some Time Next Month.

New York, March 24.—A special meeting of the New York chamber of commerce will be held in New York City on Tuesday at which Ambassador Bryce will make an address. Afterward he will leave for Ottawa, Canada.

Secretary Taft, who, with a party of congressmen and engineers, sailed for the Panama canal zone today aboard the dispatch boat Mayflower, is due to arrive at Colon March 30. The trip will include visits to Havana and San Juan and Mr. Taft expects to return to Hampton Roads April 22.

This week may see the appointment of a commission to pass on the mental condition of Harry K. Thaw and the consequent interruption for some time of his trial before a jury for the killing of Stanford White. Justice Fitzgerald now has the affidavits of both sides and may be ready to announce his decision on Monday as to the reference of the question of Thaw's sanity to a commission of experts. If he determines against such a course, however, the trial will go on, and as practically all the evidence has been given, a verdict should not be far off.

A murder trial presenting features of unusual interest is scheduled to begin at Carmet, N. Y., on Monday, when Jennie Burch, a 14-year-old girl, will be called on the answer the charge of poisoning Wilbur Winship, a 2-year-old child whose nurse she was. The defense will be insanity.

A meeting of the Order of Railway Conductors and the Brotherhood of Railway Trainmen will be held at Buffalo on Thursday to ratify an agreement of co-operation between the two organizations. The agreement to co-operate will not affect the separate integrity of the orders.

RESULT OF PATIENCE.

Mormon Church Erected and Dedicated at Milwaukee, Wis.

(Special to The Herald.)

Milwaukee, Wis., March 24.—Mormonism, after a nine-year struggle, has succeeded in erecting its first church in Milwaukee. Today, at Twenty-seventh and Clark streets, the followers of the faith promulgated by Joseph Smith dedicated their own place of worship in this city. The edifice has been constructed at a cost of $4,000, all of which has been contributed by converts to the Mormon faith since it was first systematically preached here in 1898.

The church is free and clear of debt and the establishment represents only six months devoted to the task of raising funds and accomplishing the entire work. Arnold E. Schulthoff of Salt Lake City officiated.

STOPPED AT CHARLESTON.

Secretary Taft and Party Entertained at Breakfast.

Charleston, S. C., March 24.—Secretary Taft and party, en route to Panama, Cuba and Porto Rico, arrived in Charleston early today, and were met by Mayor Rhett and a number of citizens. The visitors were entertained at breakfast, there being about twenty-five persons present representing the navy, the army and the city. The visitors were then taken in automobiles to see the magnolia gardens, a private estate on the Ashley river. Returning to the city at 1 o'clock, the reception committee became the guests of Secretary Taft and went aboard the Mayflower. The luncheon was held on board, after which the Mayflower raised anchor at 4 o'clock and sailed for the isthmus, Colon being the first stop, according to announcements of plans.

The secretary and party are in splendid health and the best of spirits. Mr. Taft only laughed when suggestions of his possible candidacy for the presidency were made.

COLLISION IN LOS ANGELES

Four Men Killed and Many Injured by Santa Fe Trains Dashing Together.

Los Angeles, March 24.—In a head-on collision between two Santa Fe trains within the city limits last night at least four persons were killed and a score were injured, several of them fatally. A Santa Fe special, carrying scores of students returning from an intercollegiate field meet at the Claremont, met the Santa Fe overland limited, while both trains were moving at a rapid rate. The engines were wrecked, one of the baggage cars on the Overland was demolished and the crash was heard for blocks.

The collision occurred in that part of the Los Angeles river bed occupied by the Santa Fe tracks, and directly beneath the Buena Vista street bridge.

List of Dead.

Up to midnight the authenticated list of dead included the following:

C. G. Franklin, student at University of Southern California.
A. H. Edwards.
J. C. Gail.
Fred Hodson, all three students of Occidental college.

Among the injured are the following:

The Injured.

Engineer Fred Walker, Overland train.
Fireman H. H. Beal, Overland train.
A. Grossman, Philadelphia.
C. Stuart, Claremont, Cal.
Clarence Jones, Los Angeles.
J. Smith, Los Angeles.
E. F. Smith, Los Angeles.
Eugene Estoppey, winner of two-mile race, Los Angeles.
F. H. Cutting, conductor of special train, Pomona.
T. Worley, Claremont.
Lloyd Worrell, Los Angeles.
T. N. Morrel, Los Angeles.
R. W. Wilson, Los Angeles.
Miss Etta Lane, Los Angeles.
Charles Parsons, Los Angeles.
Guy Goodwin, Los Angeles.
Edward McLellan, Pomona.

ATTACK UPON EUROPEANS

Assassination of Dr. Mauchamp in Morocco Followed by General Uprising.

Tangier, March 24.—Later dispatches received from Moroco City say that the assassination there of Dr. Mauchamp, who was connected with the French geodetic mission, was followed by a general attack upon the Europeans besieged in their houses, and that the British consular agent was forced to fire, killing two persons.

The pasha finally sent troops, who drove off the mob. The troops are still guarding the houses, although comparative calm has been restored.

Paris, March 24.—Public opinion is greatly exercised over the assassination at Morocco City of Dr. Mauchamp, who was connected with the French geodetic mission, which it is regarded should be the signal for a total change in the French policy in North Africa. The Temps urges the abandonment of the "flabby police" in Morocco. The paper rehearses a long list of outrages on Frenchmen, reparation for which, it says, was never exacted.

WORST NOT YET OVER.

Washington, March 24.—The weather bureau announced tonight that there has not been much change in the flood situation in California. "Crest stages over the lower portions of the two main rivers," it stated, "will probably not be reached until Tuesday. Flood stages will continue for several days thereafter."

FOREIGNERS IN GRAVE DANGER

Spread of Famine in China May Result in Uprising of the Starving.

RULING DYNASTY ALARMED

CIVILIZED WORLD IS ASKED FOR AID.

Washington, March 24.—From Shanghai advices received at the state department it appears that the ruling dynasty in China is seriously alarmed over the effect of the spread of famine through the country and the opportunity it offers to seditionary societies to enlist converts to their cause directed against the government. The government's inability to relieve suffering, it is said, has been magnified and the hardships of the people attributed to lack of sympathy by the government for the poor classes.

The information indicates that a propaganda has been organized to further the circulation of stories of the character outlined and it is said that state department officials fear that a spread of hysteria may engender a general uprising. If such should be the result there is danger that the government might not be able to control the situation. American and other foreign interests then would be jeopardized. So great is the concern that diplomatic and consular officials in China have been instructed to keep Washington advised of every turn in the situation.

Uprising Predicted.

That the Chinese government recognizes the danger is shown by the fact that Viceroy Tuan Fang of Yan King has memorialized the throne for $1,000,000 to purchase East Indian rice to feed his people. Undoubtedly this step was taken to offset the work of the seditionary societies, as well as to relieve the immediate suffering. In taking his action the viceroy predicted a general uprising in the famine stricken districts unless prompt relief is provided, but he did not refer to the trouble that has been stirred up by the anti-government parties.

An extra effort will be made in the United States to broaden the scope of the movement to find relief for the Chinese. Already there have been large sums of money collected and dispatched to China to be used in the purchase of food and in the near future the transport Buford will sail from San Francisco with a shipload of provisions given by Louis Klopsch, editor of the Christian Herald. A general movement throughout the civilized world to aid the sufferers, it is believed, will enable the Chinese government to strengthen its hands and possibly suppress uprisings and riots.

Civilized World Interested.

That any movement threatening the overthrow of the present dynasty in China gives alarm to the United States and every European nation which has interests and citizens in China is not denied. The life of every white person in China is believed by officials of the state department to depend upon the continuance of the Chinese government as it stands.

ONE VICTIM SUCCUMBED

William J. Cook Died at Leavenworth Soldiers' Home After Eating Hash for Breakfast.

Leavenworth, Kan., March 24.—One death resulted today among the 900 old soldiers at the National Soldiers' Home here, who were poisoned by eating tainted hash. The victim was William J. Cook, aged 64 years, a member of the Fourteenth Missouri cavalry. He leaves a widow at Mexico, Mo. About seventy-five of the veterans are still in a serious condition, but it is not thought any of these will die. The majority of the others made ill have entirely recovered.

A report that some of those affected were missing was emphatically denied at the home today. The government physician stated that only those who were already suffering from disabilities and were in a weakened condition were seriously affected.

ENGINEERS WORKING ON PROPOSED ELY LINE

(Special to The Herald.)

Ely, Nev., March 24.—Two corps of Western Pacific engineers are surveying the proposed line between Ely and the main line of the Western Pacific, and will complete their preliminary work within the next thirty days. These engineers are determining the maximum and minimum elevations of the proposed route, and have been working from Kimberly as their base.

The Western Pacific has three routes under consideration, from the main line to Ely. One of these is parallel with that of the Nevada Northern, through Steptoe valley; another is by way of Wells and Clover valley, and the third, that upon which the engineers are now working, is by way of Ruby valley and Kimberly.

HANDSOME PRESENT FOR SALT LAKE MAN

(Special to The Herald.)

Ely, Nev., March 24.—C. P. Castle, formerly of Salt Lake, and an enthusiastic worker in the Salt Lake council No. 81, United Commercial Travelers, was presented with a handsome gold locket the other night by a delegation of Salt Lake traveling men. The presentation was in recognition of his good work for the organization while in Salt Lake.

The members of the delegation were Finley P. Brooks, Fred Morse and O. E. McGahan, all members of council No. 81. The speech of presentation was made by Mr. Brooks.

The charm is of solid gold and a diamond solitaire adorns one side. The reverse of the charm is engraved with the following inscription: "Presented to C. P. Castle by U. C. T. No. 81." Mr. Castle is now manager for the Graham Mercantile company here.

ONE MORE WEEK OF SENSATIONS

Grand Jury at San Francisco Will Resume Its Investigation Today.

OPPORTUNITY FOR HALSEY

INDICTED MAN WILL BE GIVEN CHANCE TO CONFESS.

San Francisco, March 24.—The coming week promises to be as productive as the past one in sensations relating to the investigation of municipal corruption that is being prosecuted by a grand jury.

It is expected that a decision will be rendered tomorrow by the United States supreme court on the petition of Abraham Ruef for a writ of error. If Ruef's petition is refused the prosecution will proceed in Superior Judge Dunne's court Tuesday with the impanelment of a jury to try Ruef on the charge of extortion in what is known as the French restaurant cases. If it is granted the trial of Ruef will be postponed a while.

Tomorrow afternoon the grand jury will resume its probing into the alleged bribery of the board of supervisors by the telephone and other public service corporations.

Would Like to Use Halsey.

It is announced that the prosecution has retained an attorney to proceed to Honolulu and intercept Theodore V. Halsey, who has been indicted on eleven counts on the charge of bribery, for the purpose of endeavoring to persuade Halsey to appear before the grand jury on his arrival here. Halsey is now en route from Manila in charge of a detective.

The prosecution is momentarily expecting to hear of the arrest of Louis Glass, former manager of the Pacific States Telephone and Telegraph company, and Abraham K. Detweiler, of Toledo, Ohio, against whom indictments for bribery were returned yesterday. In addition to the revelations coming from the grand jury room, public interest is directed toward the moral regeneration of the city investigation in view of the alleged confessions of corruption by the members of the board of supervisors. One story is to the effect that the supervisors before appearing before the grand jury, secured pledges from prosecuting officials that they would neither be prosecuted nor removed from office in return for their evidence.

No Thirst for Power.

An intimation that those back of the prosecution were planning to assume control of municipal affairs by virtue of their power over the supervisors, is strongly denied at the district attorney's office. Assistant District Attorney Heney said:

"All we intend to do is to see that the supervisors behave themselves properly in their official positions.

"We do not intend to try to legislate through them for any purpose. We shall simply force them to be good and to discharge the functions of their office to the best interests of the people. Personally I believe it is right to give men a chance to rehabilitate themselves if possible, and I think that if the supervisors wish to become better men, as they have expressed a desire to be, they should have a chance."

Would Take Time.

As to the prosecution controlling the municipal commissions and other departments of the government through the finance committee of the board of supervisors, Heney declared that there will be no attempt to do this.

Those who favor a reorganization of the municipal government recognize that it would be a lengthy process to bring it about through the courts, but are hopeful that public opinion will force wholesale resignations, thus solving an embarrassing question.

CAUGHT BY AN AVALANCHE

Eight Miners Buried Alive North of Vancouver—Four Dead When Taken Out.

Bellingham, Wash., March 24.—Eight miners were buried alive in an avalanche of snow at the Brittania mine on Howe sound, forty miles north of Vancouver, yesterday morning. Four were taken out dead; four were rescued. Two Japanese were in the group, and one was killed. The surnames of the dead Britisers are McBridge, Wilson and McPherson.

The men had been working in the logging camp owned by the Copper company, securing material to timber the mine. About 9 o'clock a storm broke over the mountain and the workmen started down the incline to the mine. They had not proceeded far when a huge mass of snow swept the side of the hill, burying the men in its path.

Fellow workmen rushed instantly to the scene and began digging out their comrades. The first man taken out was alive, but unconscious. The rescue party next caught sight of a pair of feet spread apart and sticking up out of the snow. The men worked as fast as possible, but for some time it was not known how many men had been covered by the slide.

Several hours had elapsed before the last body was recovered. The rescued Japanese who was the last of the men to be brought out, had been buried for almost an hour under thirty feet of snow.

None of the rescued men, it is believed, will die as a result of the accident.

The bodies of the dead were immediately shipped by the steamer Brittania to Vancouver, where they will be prepared for burial.

DRUNK CLAIMS TO BE ROOSEVELT'S NEPHEW

(Special to The Herald.)

Ely, Nev., March 24.—John Roosevelt, who claims to be a nephew of President Theodore Roosevelt, is a prisoner in the county jail here, serving a sentence of thirty days for drunkenness and disorderly conduct. Roosevelt, who is 22 years old, was arrested for disorderly conduct, he having, while intoxicated, crowded two women from the sidewalk into the muddy street. He was also ejected from the lobby of a local hotel for disorderly conduct. After being sobered up, Roosevelt declared that his father is a brother to the president and occupies a high social position in New York. His story has not been verified here.

Suspicion Has Been Aroused

Portland, Ore., March 24.—The Oregonian says $50,000 is being raised as an investigation fund to bring Francis J. Heney and Special Agent Burns to Portland to probe into local municipal graft. Transactions for years back and up to the present will be examined under the searchlight of the investigators.

It is understood that a small coterie of citizens, all of whom are large taxpayers, have pledged $5,000 as a nucleus for the $50,000. They believe that the money can be raised within a few days, and declare that if more than $50,000 is necessary to make a thorough and sweeping investigation it will be obtainable.

Just what the nature of the transaction is which the investigators wish brought to light is not specified.
