quence of that increase in confidence, the "bears" began to be anxious about the condition, and it was the later purchases for the "short" account which stimulated the market up to the almost seeming buoyancy that characterized the closing transactions. A special movement in Missouri, Kansas and Texas stock, from 37½ to 40½, however, was not without its favorable influence upon the prices of the whole market, and it very likely added to the uneasiness of the "shorts." The expectation that the Missouri, Kansas and Texas Road will soon be taken out of the hands of the trustee and restored to its stockholders—the case coming up for argument in the United States Supreme Court immediately—was the chief cause for the demand for that special stock. No other stock presented any special feature in the dealings, the market generally falling and rising together. The probable monetary situation for the next four weeks is the burden of discussions among speculators, all other factors for the time being ignored. To-day the predominating opinion evidently was that "there will not be much of a shower anyhow," and that any decline that may follow will be small and only for a short time. Stocks closed strong at the best figures of the day.

Government bonds were more active, and the sales at the Boards amounted to $348,000. Prices also were strong, the bids being advanced ⅛ per cent each for the 6s of 1881 and 4s; ¼ per cent for the 5s, and ⅜ per cent for the 4½s. The 6s of 1880 to-day were not wanted above 102¾, the figures at which the Secretary still offers to purchase them, and at which $25,000 to-day were purchased. Annexed are the closing quotations:

The dealings in railroad bonds were well distributed but were without interesting changes except in a few instances. Missouri, Kansas and Texas issues were unusually active and strong, the first consols rising from 111 to 113½@113¾, and the seconds from 67½ to 71⅛@70¾. C., C. and I. C. issues also were special features, the first assented advancing from 96½ to 98 and the incomes from 46¼ to 47¾. Erie second consols, after a decline to 96⅝, rose to 97¼, against 97⅛ yesterday, and the funded 5s sold at 91¾, against 91⅜. Canada Southern firsts were ¼ higher at 99¼, and Ohio and Mississippi seconds were ⅜ higher at 120. Metropolitan Elevated firsts were strong at 104, and Ohio Central firsts were in demand at their recent advance to 100. Denver and Rio Grande firsts rose to 109. Texas and Pacific incomes 1 per cent to 72½, and firsts of Rio Grande Division ¾ to 93. The following are the closing quotations:

The Sub-Treasury to-day gained $434,010 on balance, made up by gains of $18,698 currency and $415,312 coin. This makes the gains since Friday $990,509. The local money market to-day was liberally supplied with money at 5 per cent, and later at 4 and even 3 per cent, but 5 per cent was the rate for the day, the others being exceptional and made unnecessarily low, probably for a purpose. The domestic exchanges on New-York at the places named are quoted as follows: Savannah, ¼ discount to par; Charleston, 5/16 discount to par; New-Orleans, $1 25 discount to par; St. Louis, 75 cents discount; Chicago, 75 cents discount; Boston, 10½ discount. The United states Treasurer at Washington today received $125,000 in National bank notes for redemption. The customs receipts were $560,000, and the internal revenue receipts were $475,000. The following is the Clearing House statement for today: Exchanges, $144,166,625; balances, $7,462,034. The transactions at the Sub-Treasury covered: Receipts, $1,010,006; payments, $575,995; currency balance, $4,516,144; coin balance, $71,941,652.
