LITTLE DEMAND FOR SECURITIES

Increased Selling Pressure in Wall Street Accompanied by Drop in Prices.

New York, Feb. 8.—There was nothing striking in the news today to account for the increase of selling pressure in the stock market. The movement was rather the cumulative effect of the feeling of discouragement that has grown up during the week as to any prospect for an early revival of a widespread demand for securities, such as can only form the proper basis for successful speculative operations. A considerable period of dullness and neglect of the stock market is the clearly expressed anticipation heard amongst habitual operators and voiced in the action of the market. There is the apprehension also of possible delay in the revival of industrials by activity in the country. Sundry items of information which appeared today were of a more cheerful complexion on this subject than has been the recent rule, but their purport was ignored in the movement of prices.

The placing of orders for steel rails by some of the railroad companies following the determination of the new type of rail promised some revival of that important industry, and the president of the United States Steel corporation imparted the information that it was now operating at between 45 and 50 per cent of its usual production, compared with only 36 per cent of its capacity at the low tide in the middle of December. The ratio of decrease in gross earnings of railroads reporting for the latter weeks of January shows a less favorable comparison with last year's corresponding period than in earlier stages of the contraction, giving ground for an inference of betterment in that field of enterprise.

There was an inclination to look for special causes for some of the weakness today. The complexion of the bank statement, when it appeared after the market closed, was seen to be affected by the preparation of the trust companies for their inclusion this week for the first time in the public statement of conditions. Evidently the trust companies have drawn on their banking neighbors freely to replenish their cash showing, a decrease in bank cash of nearly $11,000,000, comparing with an indicated gain from the known movements of money of between one and two million dollars. The 8 per cent reserve held by the other banks and trust companies will be significant only for future comparisons. It is interesting to note that the actual percentage of reserve of 27.70 per cent of the clearing house members compares with a percentage of 27.62 per cent in the computation by averages, thus proving that the latter understated, rather than overstated the actual condition on this occasion.

Bonds were easy. Total sales, par value, $1,300,000.

United States bonds were unchanged on call during the week.

Bank Statement.

New York, Feb. 8.—The weekly statement of the condition of New York banks was issued in a new form today. In addition to the statement showing averages for the week of the clearing house banks as given out heretofore, additional data is given showing the actual condition of clearing house banks at the close of business yesterday. The statement gives also the average condition for the week of those banks and trust companies in Greater New York not members of the clearing house.

The statement shows that the banks hold $29,832,175 more than the requirements of the 25 per cent reserve rule. This is a decrease of $10,694,550 in the proportionate cash reserve as compared with last week. The statement follows:

Loans, $1,139,755,700; increase, $5,969,000.
Deposits, $1,137,384,500; decrease, $1,117,000.
Circulation, $67,391,500; decrease, $1,872,200.
Legal tenders, $60,097,000; decrease, $3,915,500.
Specie, $254,091,300; decrease, $4,058,300.
Reserve, $314,178,300; decrease, $10,973,800.
Reserve required, $284,346,125; decrease, $279,250.
Surplus, $29,832,175; decrease, $10,694,550.
Ex United States deposit, $44(750,950; decrease, $11,031,775.

The percentage of actual reserve of the clearing house banks at the close of business yesterday was 25.30. The statement of banks and trust companies of Greater New York, not members of the clearing house, shows that these institutions aggregate deposits of $613,478,500. Total cash on hand $49,026,000, and loans amounting to $770,262,800.

The Financier will say: Saturday's official statement of the New York associated banks was the first exhibit ever made by such institutions which showed in addition to the averages of the various items during the week, the actual condition of the banks as regards such items at the end of the bank week.

The bank statement likewise shows what also has never been disclosed before, the summary of the condition of trust companies and state banks which do not make reports of their condition through the clearing house. Such statement will enable the public to be informed of the condition of all the financial institutions as respects loans, specie, legal tenders and deposits. The statement of the Associated banks for the week showed, as the most striking feature, a decrease of $10,972,800 in cash. This loss could not be reconciled with the traceable movements of money during the week, neither could it be accounted for by the withdrawals of public deposits, for such withdrawals amounted to only 1 1-3 millions compared with the previous week. The most reasonable explanation of the discrepancy between the estimated gain in cash and the officially reported loss is that the trust companies in order to make a good exhibit, had withdrawn cash from the banks in which they kept their deposits.

GRAIN AND PROVISIONS.

Chicago, Feb. 8.—The decline of ⅜@½ pence in Liverpool cables, unlooked for, considering the strength which prevailed here during the previous session and which was reflected in the opening quotations on the Chicago exchange, was followed by reports that supplies for domestic and foreign consumption were plentiful. Australia was shown to have shipped 445,000 bushels more than during the preceding week, and the world's shipments, estimated at 11,600,000 bushels, were regarded as greatly in excess of the weekly requirements. The opposing influence of smaller Canadian and northwestern reserves in the estimates for the coming week failed to rescue the market from the lower level. May was off ½@⅝c at the opening, advanced to 98, and was later forced back to 96⅞ by the weight of offerings. The close was weak at 97¼.

Corn was lower, but the market exhibited a degree of steadiness in view of the weakness in wheat. There was considerable week-end profit-taking and trading was without feature. May opened ⅛@¼c lower, at 61⅝ to 61¾, advanced to 61¾@61⅞ and declined later to 61¼@61⅜. The close was easy at 61⅝.

Oats were dull and neglected and followed the downward trend of other grains, the May option starting ⅛c lower, at 54⅛.

The provision market displayed strength at the opening on a smaller run of hogs than estimated for Chicago, but could not withstand the effects of liberal receipts elsewhere.

May pork opened at 12.00 to 12.05, advanced to 12.20 and closed at 12.02½ to 12.05, a gain of 2½@5c. Lard advanced from 7.55, the opening quotation, to 7.62½ and closed a shade higher at 7.52½@7.55. Ribs were up 2½@5c at 6.57½.

Many folks Do Have Catarrh and Don't Know It.

Catarrh in the Head and Throat.

This form of catarrh is most common—resulting from neglected colds—quickly cured with little cost by Drs. Shores' Famous Treatment.

"Is your nose stopped up?"
"Does your nose discharge?"
"Is your nose sore and tender?"
"Is there pain in front of head?"
"Do you hawk to clean the throat?"
"Is your throat dry in the morning?"
"Do you sleep with your mouth open?"

You can be easily cured now—don't let it run into complications.

The Bronchial Tubes.

When catarrh of the head or throat is neglected or wrongfully treated it extends down the windpipe into the bronchial tubes, and after a while attacks the lungs. Quickly cured with little cost by Drs. Shores' famous treatment.

"Have you a cough?"
"Do you take cold easily?"
"Have you pain in the side?"
"Do you raise frothy materials?"
"Do you spit up little cheesy lumps?"
"Do you feel you are growing weaker?"

Don't risk neglecting these warnings—stop the disease before it reaches the lungs.

Of the Ears.

Catarrh extends from the throat along the eustachian tubes into the ears, causing partial or complete deafness. Quickly cured with little cost by Drs. Shores' famous treatment.

"Is your hearing failing?"
"Do your ears discharge?"
"Is the wax drying in your ears?"
"Do you hear better some days than others?"
"Is your hearing worse when you have a cold?"

Don't neglect this until your hearing is irreparably destroyed.

Of the Stomach.

Catarrh of the stomach is usually caused by swallowing poisonous mumous which drops down from the head and throat at night. Quickly cured at little cost by Drs. Shores' famous treatment.

"Is there nausea?"
"Do you belch up gas?"
"Are you constipated?"
"Is your tongue coated?"
"Do you bloat up after eating?"
"Is there constant bad taste in the mouth?"

Now is the time to be permanently cured. Drs. Shores are curing hundreds every year.
