to 45¼ after its drop. In the early dealings Union Pacific was unusually active, and its price advanced to 96⅝, later reacting to 95½ after transactions that amounted to the unusual quantity of 43,400 shares. The general list yielded from ¼ to 4 per cent from the best figures of the day, but with only a moderate amount of business. The Elevated Railroad shares were weak because of the heavy tax bill, about $1,100,000, which has accrued against them pending the trial of the test case, and which has been decided against them. There are no new developments concerning the intentions of certain large operators, whom the whole street is watching with no little anxiety. But it was stated to-day that the offer was made to bring $20,000,000 of gold from Europe, if it can be loaned, in lots of $500,000, at 5 per cent for six months. The market closed dull and weak.

The Treasury to-day purchased $500,000 of the 6s of 1880 at 102¾ from the National American Exchange Bank. We have little doubt now that the holders are satisfied that the Secretary will adhere to his fixed price of 102¾, and that the bonds will be presented for payment as rapidly as the Treasury is prepared to accept them. At the Boards to-day the transactions in Government bonds amounted to $133,500 at full figures. The bids for the 5s, however, were reduced ⅛, but for the 4½s and 4s they were advanced ¼ per cent, showing that investors have little expectation of prices being much affected by the anticipated stringency in money. Annexed are the closing quotations:

State bonds were less active than they have been recently, and hardly so strong. Tennessee 6s, new, sold at 44½, and Arkansas 7s, Little Rock and Fort Smith Railroad, at 8. Louisiana consols are quoted 50⅞@51¾. Tennessee 6s, old, 46½@49, and North Carolina Consolidated 4s 79½@80. There were no transactions in city bank stocks.

Railroad bonds generally sympathized with the share market, but there were notable exceptions. C., C. & I. C. first assented were unusually active and rose from 98 to 100½@99¾, and the incomes from 47¾ to 49½@49⅜. Rumor states that the recent large purchase of those bonds were made in the interest of the Pennsylvania Railroad Company, and that a settlement of the back rental is near at hand, but there is no information in this city of any negotiations to that end being in progress. The Denver and Rio Grande issues also were strong, the first up to 109½ and the consols from 103⅞ to 106@105⅞. Texas Pacific incomes were ½ higher at 73¼@73, and firsts, Rio Grande Division, were ¼ higher at 93¼. Erie second consols were steady at a decline of ½ per cent to 96¾. Missouri, Kansas and Texas issues made no better prices than yesterday, but at the end the first consols showed a final gain of ½ per cent at 113¾, the seconds being ¼ lower at 70½. Metropolitan Elevated firsts declined from 104 to 103⅝ in sympathy with the stock. Ohio Central firsts were strong and advanced to 101. Louisville and Nashville general mortgages sold at 105. St. Paul and Sioux City firsts were ¼ higher at 106½, and Chicago, St. Paul and Minneapolis incomes sold at 116¼@116, and Central Iowa firsts at 108½.

The business of the Sub-Treasury for the week ending to-night includes the receipt of $7,269,174 and payment of $6,272,807, resulting in a gain to the general balance of $996,371, and leaving it at $76,463,658 against $75,467,287 November 5. The particular changes of the week are gains of $13,865 currency and $982,506 coin. While nearly if not all the renewals of loans to-day were made at 5 per cent, there was more new business done at 4 per cent than there was yesterday, and the final rate, for brokers' balances, again was 3 per cent. The bank rate is 5 per cent. The domestic exchanges on New-York are as last quoted. The United States Treasurer at Washington to-day received $190,000 in National bank notes for redemption. The customs receipts were $520,000, and the internal revenue receipts were $470,000. The following is the Clearing House statement to-day: Exchanges, $155,429,333; balances, $6,231,395. The transactions at the sub-Treasury covered: Receipts, $882,124; payments, $976,293; currency balance, $4,537,111; coin balance, $71,926,547.

The foreign exchanges are fairly steady on the basis, in actual business, of $4 80½@$4 80¾ and $4 82½@$4 82¾ for 60 day and short sight sterling respectively. The posted rates are as follows:

In London British consols early declined ⅛, but later recovered and closed unchanged from yesterday at 99⅝⅛ for money and 99 11/16 for account. United States bonds were all higher; 5s up ⅛ at 104⅞, 4½s up ½ at 115, and 4s up ¼ at 113⅞. American railways generally were better; Erie, however, was only steady at 44⅝@44¾. Atlantic and Great Western firsts rose 1 per cent to 53¾, and seconds 1 to 30¼; Illinois Central was ¾ higher at 122¼. Pennsylvania steady at 65, and Central Pacific ⅝ higher, at 88⅜, but Reading was 1⅜ lower at 25⅞. Bar Silver was quoted ½d. lower at 51¾d. per ounce. The Bank of England lost £150,000 bullion on balance, of which sum £100,000 was withdrawn for shipment to the United States. In Paris, French 3s per cents declined from 85 72½c to 85.50; sight exchange on London falling to 25.30 francs to the £.

LIVE STOCK MARKET.

NEW-YORK, Nov. 12.—BEEVES—Receipts were 163 cars, of 2,802 head, cattle at Jersey City and 6 cars at 60th st. for slaughter; 8,300 head, 11,715 head against 12,819 head for the corresponding six days last week. The supply and demand were almost equal at the start, and the offerings were soon at full Wednesday's prices. Indications of cooler weather gave a little more life to the market as fresh arrivals showed more fat. Slaughtering was active and prices ruled firm and steady, but higher for Common and Medium cattle, but closed dull, with quite transactions at or a fr off from the early sales. Good and Prime cattle remained about steady throughout. There was less activity in the trade, however, than might be expected from the moderate receipts, but drivers were anxious to force up prices, but butchers bought every move in that direction somewhat, and the consequence was a changing, unsettled and unsatisfactory market. There were no Texas or Colorado Half-breeds on sale. Exclusive of some North Michigan Oxen which were sold as low as 4c. to dress 53 lb., the range for Common to Prime Steers was from 4¾c. to dress 53 lb. to 5¾c. to dress 56 lb., with good to choice at 5¾@5¾c. to dress 56@57 lb. No Extra or Fancy Cattle on sale. Some Poor State Dry Cows were sold at 1¾@2c.—a carload from Delaware County at the lower price.
