acteristics of the stock market for the greater part of to-day. There were no sudden drops—always excepting Reading—but a quiet decline that spared neither good, bad, nor indifferent stocks. Northwest declined from 113¼ to 112⅞, and Erie declined from 42¾ to 42⅛; St. Paul fell from 102½ to 101¼, and Lake Erie from 32 to 31; Lake Shore from 113½ to 112⅝, and C., C. and I. C. from 21 to 20¼; Delaware, Lackawanna and Western from 97⅞ to 97⅛, and New-Jersey Central from 79⅛ to 77½; Central and Hudson from 137⅝ to 136¾, and Iron Mountain from 48 to 47⅛; Western Union from 96½ to 95½, and Missouri, Kansas and Texas from 41 to 39⅛; Union Pacific from 95½ to 94¾, and Wabash from 41⅝ to 41⅛; and so we might go on through the whole list, comparing the dividend payers with the non-dividend payers with little advantage to the first-named class. Reading was specially weak, and declined to 40⅛, finally closing with a recovery to 41⅛. The latest story about Reading is that Messrs. Morton, Rose & Co. of London undertook to act as trustees for the syndicate which originated the deferred bond scheme of the Philadelphia and Reading Railroad Company, and to receive, on account of the company, the proceeds of the sale of the deferred bonds. It was proposed to deposit with them (Morton, Rose & Co.) $2,000,000 to guarantee the scheme, but owing to some legal difficulties the deposit has not been made. London cables bring the news that Messrs. Morton, Rose & Co. have now declined to act in the matter. But whether the scheme proposed is successful or not, the late advance in the price of Reading had only a large "short" interest for its basis, and not a merit in the stock, with or without reconstruction. Among the miscellaneous stocks there was a renewal of Coal-ings in New-York and Straitsville Coal and Iron, which sold at 55@56, and closed at 56 bid. Just before the end there was a rally in the prices of some stocks, but it was too feeble to hold until the close, and the last prices were at or near to the lowest of the day, the market closing weak.

The business in Government bonds at the Board amounted to $334,500, but the prices were hardly as firm, the final bids for the 4½s showing a decline of ¼ per cent from yesterday, and for the 4s a decline of ⅛ per cent. The Treasury to-day purchased $168,000 of the 6s, 1880, at 102¾. Annexed are the closing quotations:

State bonds were dull but firm. Tennessee 6s, new, sold at 44¾@44⅞, against 44 yesterday. Louisiana consols are quoted 50¾@51½. Tennessee 6s, old, 45@48. Virginia 6s, deferred, 12@14, and 6s consols 95 bid, and North Carolina consolidated 4s, 79¾ bid. Of city bank stocks there were sold Commerce (6) at 144, and Park (50) at 133.

The special features of the railroad bond market were the dealings in the issues of Missouri, Kansas and Texas and C., C. and I. C., which almost alone of the speculative classes recorded higher figures. Missouri, Kansas and Texas first consols advanced to 115, and the seconds rose from 71⅛ to 72⅛, closing at 71½. C., C. and I. C. first assented advanced to 102½@102, and the incomes, after opening down 1½ per cent at 49½, rose to 54, reacted to 52½, and closed at 53¾. Erie second consols declined from 97¼ to 96⅞. New-Jersey incomes held steady at about 90, and Canada Southern firsts at 99½. Metropolitan Elevated firsts were in better request and advanced to 103½, the seconds selling at 92⅞. Ohio Central firsts were firm at 102¼@102, and first terminal bonds at 99½. Indiana, Bloomington and Western incomes continued to advance, selling at 64¾@64 against 62½ yesterday. The Western list of bonds generally was a shade easier, as also were the Pacific issues—Kansas and Pacific consols at 97¾, Texas and Pacific incomes off 1 per cent to 73, and firsts of Rio Grande ⅛s at 93¾, and Union Pacific firsts ⅜ lower at 113¾.

The Sub-Treasury to-day gained $272,496 on balance, made up by a coin gain of $318,628, less a currency loss of $46,132. This makes the total gain since last Friday $820,375. Some of the banks to-day marked up their rates for call loans at 4 per cent, but at the Stock Exchange the bulk of new business was done at 5 per cent, with exceptions at 6, and later at 4 and 3 per cent. As time advances the probability of any distressing stringency in money is lessened because of the large amounts of gold on the way from Europe and the smaller demand from the interior. The only change in the domestic exchanges on New-York is a decline to 12½ cents discount at Boston. The United States Treasurer at Washington to-day received $180,000 in National bank notes for redemption. The customs receipts were $430,000, and the internal revenue receipts were $245,000. The following is the Clearing House statement to-day: Exchanges, $135,402,111; balances, $6,582,460. The transactions at the Sub-Treasury covered: Receipts, $909,196; payments, $636,699; currency balance, $4,437,737; coin balance, $72,846,296.

The foreign exchanges are dull and very weak, and some of the drawers reduced their rates ½ cent to the £, but the standard quotations are unchanged as follows:

In London, British consols are stronger at 99⁹⁄₁₆ for money and 99¹¹⁄₁₆ for account. United States 5s were ⅛ lower at 104⅝, but the 4½s were ⅜ higher at 115½, and the 4s steadier at 114⅜@114½. American railways were lower and irregular; Erie shares at 44¼@44½, but second consols were firm at 100⅝, Atlantic and Great Western firsts at 53½, Illinois Central at 121½@121⅞, Reading at 21¾@22¾, Central Pacific at 87¼@87½, and Central Hudson at 141½@142½. Pennsylvania was ⅛ higher at 65. The Bank of England lost £111,000 bullion on balance, of which £31,000 is reported for shipment to New-York. *The London Financier* of to-day says: "It is rumored that a further sum of £500,000 gold will be sent to New-York this week." In Paris French 3 per cents sold at 85.40@85.50 against 85.45 yesterday; sight exchange on London falling to 25.28 francs per £.

BEANS AND PEAS.

Receipts for seven days—Beans, 3,223 pkgs; Peas, 24,998 bush. Exports—Beans, 100 pkgs; Peas, 2,845 bush. Moderate receipts and a fair demand have caused a little firmer feeling for both Medium and Marrow Beans. New Mediums are selling at $1 55@$1 57½. But Fancy have sold up to $1 60. Exporters buy rather sparingly of Marrows, and will not pay over $1 75; some very choice were sold to the jobbing trade at $1 77½. Not much demand for Old Beans, and as there is so little stock here we omit quotations. Red Kidney are in good demand and very firm; few sales are reported at $1 85, but that is an extreme price. Old Red Kidney, if bright and choice, would sell at a fair price. White Kidney scarce and firm for choice stock. Black Beans have a moderate inquiry, and are about steady. About $1 75 is the general selling price for Choice Pea Beans, though a few lots have been sold at $1 80. Green Peas more plentiful and easier, choice lots only sell at top quotations, off grades and Buggy Peas are very dull. Southern Black-eye quoted steady at $1 60@$1 85 per 2 bush. bag. Quotations:

BUTTER.

Receipts for the week 31,632 pkgs; last week, 31,749 pkgs.; corresponding week last year 27,[illegible] pkgs. Exports for the week, 3,[illegible] pkgs. to Great Britain and 395 pkgs. to the Continent, and 502 pkgs. of "Butterine." The general market is moderately active and firm for all Fine, fresh Butter, suitable for the jobbing trade, but dull and barely steady for over made, off-flavored goods. Really fancy 30-gilt-edged Creamery is scarce and salable at 32c.; but only a large part of the Creamery, especially that coming from this State, is not strictly fine, and 32c. is the more general wholesale price; some lots are selling at 32½c. Fall Creamery tubs are selling at 29@30c. for Fine. Choice selections of State Dairy pails and tubs have sold up to 30c., but it is very difficult to exceed 29c., and 28c. is a full price for best invoices. Fine entire Dairies are selling at 28c. Fancy are held at 27c. Best firkins sell at 26c., shippers have picked up some lots at 23@24c. The receipts of Western imitation Creamery and Dairy are light, and fine goods sell fairly at steady prices. Fine fresh Factory has a fair demand at 19@20c.; 100 tubs of Good were sold at 18c. June goods and grades below Fine of the fresh receipts are dull and neglected and are accumulating. Prime rolls have sold at 19@21c. The general firmness in the market for Fine Butter is partially attributed to the fact that many of the retailers have become dissatisfied with Oleomargarine and are now selling only the genuine article. The oil from which this "butterine" is manufactured is very high, and the high cost of Butter to mix with the oil makes the production too expensive to be sold at present prices. It is claimed, therefore, that less care is taken in its manufacture, and buyers are greatly dissatisfied with the quality. Quotations:

Exports for the week 27,[illegible] boxes; same time last year 2,[illegible] boxes. Liverpool quotations steady at 67s. There is not a very active demand for any grade of Cheese, and the market generally is quiet. Fancy September Cheese is firm and held with a good deal of confidence; but aside from the sales of a few "Fall" factories, and the rather limited sale of a lot of Western combinations, shippers' bids are below receivers' views. Exports wanted to buy Fancy Stock to-day at 13c. and only paid 12⅞c. in extreme cases. Low grades are dull and weak, and some off flavored early made stock can be bought a little lower than last week. Quotations:

The general tone of the market for all domestic Dried Fruits is firm. Strictly Choice Evaporated Apples have had more inquiry and can now be sold at better prices, or 8½@9c. for Fancy—50 cases of Choice were sold at 8c. and sales of Fancy are reported at 8½c., many lots are held above buyers' views. Choice Sun-Dried Sliced Apples are in fair demand and firmer; even the off grades are moving more freely. Exporters have been picking up all the consequent Apples they could find regardless of the quality or condition of the fruit. Five carloads of Choice Ohio Quarters were sold for November delivery at 4¾c., and one car of Prime for November delivery at 4½c.; all these will be shipped to Germany. Tennessee, and in fact all Southern Coarse Cut Apples have a demand much greater than the supply. Very many of the low grades are being shipped to France for distillation. Evaporated Peeled Peaches are firm at 29@30c.; an offer of 29c. was refused for 20 boxes of Fancy. Sales of Evaporated Unpeeled are reported at 15c. FRUITS AND BERRIES—FRESH.

Exports of Apples, 31,779 bbls. Choice Red Fruit, such as Spitzenbergs, Kings and Baldwins, have a fair demand at full last week's prices. Greenings and inferior Newtown Pippins are dull and barely steady. Choice Sweet Apples are scarce and higher; sales of Pound Sweets have reached $2. Catawba Grapes are in fair request and steady; Isabellas are very dull and weak. A lot of Concord Grapes that have been held in ice-houses for more than two months, are selling at 4@6c. The flavor is nearly all gone, and the persons who tried the experiment are not likely to use cold storage again for such delicate fruit. California Tokays are in good demand at $3 50 to $4 per case. Twenty cases of Black Morocco Grapes were sold at $8 per case. Boston Pears are in demand at $4@$7 per box, according to quality; the Beurre Bosc variety are now selling the best. Cranberries are doing better under the influence of light receipts and an improved demand; quotations are advanced a trifle. Choice ripe Florida Oranges would sell at a fair price, but the receipts are mainly of small Green fruit and such has very little demand. Quotations:

HOPS.

Receipts for the week, 5,760 bales; last week, 4,862 bales. corresponding week last year, 1,863 bales. Exports for the week, 2,700 bales, nearly all of which were bought in the country at 17@20c. Exporters are now offering 22c. in the interior for choice growths. The market generally is firm and fairly active. Brewers are buying with some freedom, and shippers are picking up such lots as suit them. Most of the receipts are of fair to good grades, such as sell at 18@20c. Very few Eastern Hops have been received as yet; the crop in that section is said to be very small, but the quality is unusually fine. English markets are reported firm for Americans, and buyers are bidding considerably higher than German Hops are offered at. Quotations:

POULTRY AND GAME.

There were rather light receipts of Live Poultry to-day and the market was well sustained for good stock. Dressed Poultry is in moderate supply, fair demand, and prices are generally firm. Game is doing much better; the weather is cool and favorable, and nearly all the [illegible] arrived in good condition. The market is not so glutted with Venison as it was last week, and all fresh lots are taken at rather stronger prices. The following directions, taken from a recent pamphlet published by Harry Dowie, jr., will aid many in preparing poultry for the market: "Poultry, before killing, should be kept from food a sufficient length of time to allow the craw to become entirely empty; full crops are liable to sour and injure the sale more than is gained in weight. The best mode of killing is to hang the Poultry up by the feet to a frame made for the purpose, open the veins of the neck with the small blade of a knife, or stick them in the mouth, being careful that they bleed freely and that the blood does not clot in the head, causing that part of the fowl to spoil much quicker than it otherwise would. For scalding, the water should be near the boiling point, but not actually boiling. Take the Poultry by the legs, dip it into the water two or three times; this motion will help the water to penetrate the feathers and have the desired effect. Pick the feathers off immediately and, if possible, remove all the pin feathers. It should next be dipped into scalding water about ten seconds, and then into clean, cold water ten or fifteen minutes; the first will help to give it a plump appearance, and the second to take the animal heat out. It should then be put in a cool, dry place, but not in a draft where it will become "wind dried" and not packed for shipping for eight or ten hours, so that it will become thoroughly dry and cold. Care should be taken, however, not to allow it to freeze before being packed. The head and feet should be left on and the intestines and crop should not be drawn. Boxes holding 100 to 200 pounds are most desirable packages for turkeys; other kinds may be packed in barrels, though boxes are considered best. Rye straw makes the best packing; procure that which is perfectly dry and free from must.
