LIGHT DEALING ON THE MARKET

Harriman Reports Again Produced a Decline in the Prices.

NO EFFORT TO HOLD PRICES

NEWS OF FINANCIER'S DEATH CAME AFTER MARKET CLOSED.

New York, Sept. 9.—The stock market started out today with the supposition, apparently, that conditions were adjusted to await the news from Mr. Harriman's sick chamber, without further feverish excitement. The news of the financier's death came 35 minutes after the stock market closed. The early dealings were on a small basis. The protective measures in the market were relaxed later, and when the rumors and contradictions began to be received the gradual sag which had set in was converted into a precipitate decline. Support seemed to be withdrawn and the market was left to take care of itself.

It was concluded that it had been decided by the backers of the market that preparations for a shock would be more effective by not attempting to hold prices artificially at the advanced level. That opinion in the financial community was prepared for an unfavorable termination of Mr. Harriman's illness was clear and was not disguised.

It was noted that an active borrowing demand existed for Union Pacific stock in the loan crowd, where the operators short of stocks assemble to fill their temporary requirements by borrowing stocks for delivery. The approaching annual meeting of the Union Pacific, it was alleged, had stimulated a borrowing demand for the stock, for purposes of representation. This explanation did not allay anxiety on the part of the stockholders, as it served to give some point to rumors of internal dissensions in the company and to revive attention to the charges made by Mr. Harriman's friends of an attempted raid during his illness.

Another explanation of the borrowing demand for Union Pacific was that it represented sales by those inside the property, who desired to conceal their identity by borrowing stock for delivery rather than appearing openly as sellers.

The special weakness of the Gould group was due to the supposed interest Mr. Harriman had shown in the long contemplated fiancial plan for these properties and which it was feared might be prejudiced by the new conditions. Money rates were not affected. Professional bear selling was conspicuous and the demand from this element to cover shorts worked the substantial rally from the lowest prices of the day. The break resulted in carrying prices considerably lower than were touched in the slump on Saturday, Aug. 28.

Bonds were weak. Total sales (par value), $2,246,000.

United States bonds were unchanged on call.

GRAIN AND PROVISIONS.

Chicago, Sept. 9.—Official announcement of a serious crop shortage in Russia, and the bullish showing of America's crop report caused decided strength in all grain markets on the board of trade today. Final quotations on wheat showed net gains of 1⅜@1¾.

Activity and strength marked trading in the wheat pit nearly all day and prices moved over a range of from 2½ to 2⅞.

The factors chiefly responsible for the marked revival of trading were the official statistics relating to the grain crops of the United States and Russia. A leading elevator interest was an active buyer of the December delivery all day. This led to urgent covering by shorts. Liberal receipts in the northwest and a poor demand for the cash grain here and at Minneapolis and Duluth induced free selling at various times during the day, but offerings were readily taken. During the day the December option sold between 94⅝ and 97. The close was strong, with December at 96⅝.

Trade in the corn pit was on an enormous scale and the market was strong all day. The market closed strong.

Oats were strong and closed strong at the top prices.

Provisions were strong all day. Prices at the close were 2½ lower to 22½ higher.

The leading futures ranged as follows:
