TUESDAY, Nov. 23—P. M.

The stock market to-day opened quiet and hardly steady at yesterday's closing figures. Very soon after the opening, however, it began to gain strength, and continued so until after midday. The stocks leading in the advance were Lake Shore up to 122¼, Michigan Central to 115⅛, Central and Hudson to 147⅛, Northwest to 118, Union Pacific to 102¾, and Erie to 46⅜. After the prices named had been recorded, there followed the usual fluctuation of ½ and ¾ per cent, but without any indication of real weakness until during the last hour, when a flurry in the money market seemed suddenly to change the disposition of nine out of every ten operators, and prices fell away so that with few exceptions the last figures show declines from yesterday. The notable exceptions showing small gains are Lake Shore, Michigan Central and Erie. Of Lake Shore it is related that 15,000 shares lately were purchased for European account, and the condition of the foreign exchanges show that the shipment of large blocks of that and other stocks is making exchange faster than it is wanted for remittance. Erie is being purchased for wealthy operators who profess to believe in its value, but who seem disposed to buy it as cheaply as possible; so to-day, after purchases as high as 46½, they made no attempt to stop its decline to 45½@45⅜. Western Union was a weak spot in the market all day, never rising above its opening figures, 102¼, and pretty steadily declining to 99⅛. At last the whole market was heavy, buyers retiring and sellers having the field much to themselves. Whether the speculation shall prove to be profitable or not, it is a matter of fact that the later sales were made more for the "short" account than for the "long" account, and that it was the "bears" who after Board hours expressed their solicitude for the future of the market, rather than those who run "long" of stocks. The market, however, closed weak and unsettled.

Government bonds continue dull because of the small offerings, and not from a scant demand. The transactions at the Boards amounted only to $150,000, principally in the 6s of 1881. The Treasury purchased $8,000 6s of 1880 at 102¾. Annexed are the closing quotations:

State bonds were dull and strong. There were sales of Alabama 8, Class A, at 69¾, and Georgia 7s, gold, at 114. Louisiana consols are quoted 51@51½, Tennessee 6s, old, 47@48, and new series 44@45, and North Carolina consolidated 4s 80@82.

A well-distributed business was done in railroad bonds, and the morning prices generally showed advances, but in the afternoon the figures for the speculative classes wilted with the prices for shares. Erie second consols rose from 100½ to 101⅞, but closed at 100⅞, after transactions amounting to $875,000. Missouri, Kansas and Texas seconds closed at a decline of 1¾ at 71¾. C., C. and I. C. first asserted off ¼ at 104½, and incomes off ½ at 50. Lehigh and Wilkesbarre consols ⅝ lower at 105¾, and incomes ½ lower at 81½, and Chesapeake and Ohio first asserted ⅜ lower at 73⅜. Rome, Watertown and Ogdensburg first consols were strong and up ⅜ at 78¾, and Boston, Hartford and Erie firsts were firm at 44. Canada Southern firsts were in demand at 100 to 100⅞, because after January 1, 1881, the bonds will bear 5 per cent interest. Mobile and Ohio first debentures yielded ½ to 80, and St. Louis and Iron Mountain second incomes fell ¾ to 76½. Metropolitan first 6s declined to 104½, Louisville and Nashville general mortgages sold at 105½, Oregon Railroad and Navigation first 6s at 107½, International and Great Western firsts at 106@105, and Indiana, Decatur and Springfield firsts at 104½@104¾. The St. Paul and Northwest issues were all strong at full figures, and Central Iowa firsts rose to 110½. Kansas Pacific consols were active at 101¼ up to 102½@102¾, and Denver and Rio Grande consols rose to 108. Texas and Pacific incomes were ¾ lower at 74¾, firsts at Rio Grande Division being steady at 94½, after sales at 93⅞.

The Sub-Treasury to-day lost $65,847 on balance, made up by a coin loss of $68,330, loss a currency gain of $2,483. This leaves the net gain since last Friday $1,087,072. Money to-day was in more active demand, so much so that those whose interest it was to do so had the opportunity to make it lower at a premium of ⅛ per cent just before the close of business. But there was no trouble in making loans at bank at 6 per cent on pledge of proper collateral. Sixty-day loans were made today at 5½ per cent, and the rate for three and four months is 4½@5 per cent. The only change in the domestic exchanges on New-York is an advance to par at Boston. The United States Treasurer at Washington to-day received $90,000 in National bank notes for redemption. The customs receipts were $520,000, and the internal revenue receipts were $115,000. The following is the Clearing House statement to-day: Exchanges, $213,328,319; balances, $6,194,695. The transactions at the Sub-Treasury covered: Receipts, $1,531,940; payments, $1,597,786; currency balance, $1,297,540; coin balance, $74,698,240.

The foreign exchanges are dull and very weak, actual business being done at $4 80 for 60 day sterling, $4 82 for short sight and $4 82½ for cable. There is only one logical way of accounting for the condition of the market and that is by large shipment of American securities. Annexed are the revised quotations:

In London, British consols were ⅛ higher at 100⅜ for money and steady at 100 3/16 for account. United States 5s were unchanged at 104⅜, but the others were fluctuating, 4½s declining ⅛ to 115⅛ and 4s after advancing ½ to 116½ closed at 116¼. Yesterday's 5 o'clock "street" quotation of 48 for Erie, of course, was not sustained, that figure not being warranted by the New-York closing prices; but it to-day sold at 47½@47⅜ against 46½ yesterday's 4 o'clock price, and second consols rose from 104½ to 105⅛. Reading advanced from 25¼ to 26⅝, other Americans being lower; Illinois Central ¼ at 126½@126¾, and Pennsylvania ⅛ at 64¾@64⅞. N. Y., Ontario and Western is quoted at 32. Bar silver was 1/16 dearer at 51 11/16d. per ounce. The Bank of England gained £420,000 bullion on balance. In Paris, French 3 per cents rose to 85.65, sight exchange on London rising to 25.29½ francs.
