FRIDAY, Dec. 3—P. M.

A further break of 4 per cent in the price of Northwest common stock from 121¾ to 117¾ this morning was sufficient to unsettle the entire market and drive all moderate speculators to the selling of pretty much all the stocks they held. It is undeniable that for a short time the scare was both complete and extensive among brokers holding stocks on slim margins for their customers, and that there was a very general closing up of accounts by sales to stop further losses. Yet, except for Northwest and two or three other stocks, the final prices show handsome gains on yesterday's best figures. Of course, there must have been one or two buyers to produce the result stated above. Who those one or two or more buyers were is the problem the solution of which to-night is taxing the brains of the average speculator. The recent decline in the price of Northwest stock now requires no further explanation than that afforded by the action of the company to-day in declaring a dividend of only 3 per cent on the common stock for the six months ended November 30, after the stock had advanced to 130 on the almost official intimation that the dividend would be at least 4 per cent and then have a large surplus. It probably will be difficult to convince the buyers of the stock at the high figures that the recent large sellers of it did not possess information that was contrary to that which was in general circulation. The company makes no official statement of its business for the last six months, but we learn from what we believe to be trustworthy sources that the statement, if made, would show earnings more than sufficient to pay 6 per cent for the six months. It must be remembered, however, that railroad reports of income account are frequently at great variance with the cash account.

But the general market did not decline as much as did Northwest. St. Paul, perhaps in sympathy, yielded more than almost any other stock. Lake Shore, however, fell to 119, but finally closed at 122, against 120¾ yesterday. We learn that it is the intention, after the payment of the next semi-annual dividend, which will be 4 per cent, to place the Lake Shore stock on the list of those that pay quarterly dividends. Erie was about as strong to-day as any stock, and only declined to 45⅛ from 45⅝, yesterday's last figures, and then rose to 46½@46¼. Ontario and Western also was strong all the way out and closed at its best figures, 31⅞. A notable, and perhaps a significant, feature of the day was the sharp advance in the price of Missouri, Kansas and Texas stock. It never sold lower than its first price, 37½, and it closed at 41. The Wabashes also were more steady in early dealings than they had been for several days, and finally were specially strong. Western Union is another stock which presented dealings that may be regarded as significant of the immediate future of the market. For some time it has been a favorite stock to sell "short," and such sales heretofore have paid large profits. To-day it was no less such a favorite, yet after transactions amounting to 70,000 shares, it closed at 91⅞@2 per cent higher than the lowest price of the day and 1⅜ per cent higher than yesterday's final price. The market closed quietly firm.

Government bonds were a little more active, the sales at the Boards amounting to $167,000, but prices were ⅛ easier for the 6s of 1881 and 4½s, and ¼ lower for the 5s. The bids for the 6s of 1880 were advanced to 103 at the Board. The Sub-Treasury purchased $442,000 of the 1880s at 102⅞. The Treasury Department has given notice that no books for the registered interest on the 1880s will be made up this month; the principal being due at the same time as the interest, both will be paid together on presentation of the bonds. A very interesting question to-day arose between the Treasury officials and a representative of a holder of the 4 per cent bonds. Washington checks for interest, amounting to $170, on registered 4 per cents, were presented at the Sub-Treasury in New-York for payment. Acting under general instructions to make all payments 90 per cent gold and 10 per cent in standard silver dollars, 17 standard silver dollars were tendered in part payment for the checks. The tender was declined on the ground that by the Refunding Act both principal and interest were made payable in "coin of the present standard value," which at that time was the gold dollar of 25⅞ grains. The matter has been referred to the Secretary at Washington, with the request that the subordinates of the Department be instructed to act in accordance with the law. The following are the closing quotations:

State bonds were dull, the only transactions being in Missouri 6s, Hannibal and St. Joseph issue, 1887s, at 41¾; and South Carolina 6s, nonfundable, at 5½. Louisiana consols are quoted 51½@52½. North Carolina consolidated 4s sold 43¾@48⅞, and new and new series 44@45½, and Virginia 6s, deferred, 12¾@14. Of city bank stocks the only sale was five shares American Exchange at 122.

Railroad bonds generally were quiet but firm. A special feature was the activity in Boston, Hartford and Erie firsts, with an advance from 46¾ to 49@48½. Erie second consols early sold down to 97, but later rose to 97¾ paid and bid. Missouri, Kansas and Texas first consols declined from 109¼ to 108 and recovered to 109; but the seconds rose from 70 to 73@72⅞. Mobile and Ohio first debentures declined from 87 to 85¾ on the report of a decrease in the company's earnings for the month of November. Indiana, Bloomington and Western income fluctuated between 67⅞ and 67. The Pacific issues generally were steady, but Kansas Pacific consols declined from 100 to 99⅝ and Texas and Pacific firsts, Rio Grande Division, from 94 to 93½.

The business of the Sub-Treasury for the week ending to-night includes the receipt of $8,300,486 and payment of $7,129,365, resulting in a gain to the general balance of $1,171,121, and leaving it at $81,457,183 against $80,286,062 November 26. The various changes of the week are a coin gain of $1,063,617 and a currency gain of $107,504. The money market to-day, as yesterday, steadily worked toward ease. Yet lenders still demanded a commission in addition to legal interest for the use of their funds; but to-day the supply was sufficiently greater and the demand sufficiently less to make 8 per cent per diem the highest rate instead of ¼ per cent, as it was yesterday, and ⅜ per cent as it was Wednesday. To-day the bulk of the business was done at ⅛@¼ and ⅜ per cent was as exceptional as were the late loans at plain interest. Large sums of money have come here from the Eastern cities and some from Canada, and there is plenty of money to loan, the accommodation being only a question of rate. In fact there is a much larger quantity of money in New-York now than there was a week ago, when the rate was 6 per cent. The United States Treasurer at Washington to-day received $125,000 in National bank notes for redemption. The customs receipts were $600,000, and the internal revenue receipts were $510,000. The following is the Clearing-House statement to-day: Exchanges, $135,868,784; balances, $5,811,563. The transactions at the Sub-Treasury covered: Receipts, $1,348,699; payments, $1,509,281; currency balance, $4,375,720; coin balance, $77,081,463.

The foreign exchanges are still dull and weak for sterling, while the Continentals are firm. There were no changes made to-day in rates, and the posted quotations remain as follows:

In London, British consols were steady at 98 15/16 for money, and ⅛ higher at 98 11/16 for account. United States 5s were unchanged at 104½ for 4½s and 4s each were ⅛ lower at 114⅞ and 115⅞ respectively. As usual, American railways responded to the change in quotations in yesterday's home markets and generally were lower. Erie declined from 18⅜ to 17⅞ and second consols from 102¼ to 101½; Lake and Great Western fives sold at 55½; Illinois Central at 125½@125¼; Pennsylvania, 65⅛@65¼; Reading, 27¼, and Central Pacific at 87. The Bank of England lost £314,000 bullion on balance, of which the sum of £50,000 was withdrawn for shipment to the United States. In Paris French 3 per cents rose to 85.90, and reached to 85.80; sight exchange on London rising to 25.28 francs to the £. A Berlin dispatch states that the weekly statement of the Imperial Bank of Germany shows a specie loss of 230,000 marks.

An advertisement in another column indicates that the Panama Canal scheme is to be vigorously pushed. The capital stock is to be 600,000 shares of 500 francs ($96) each, of which 590,000 shares are offered to public subscription at par, payable as follows: Twenty-five francs on subscription, 100 francs on allotment, and the remaining 375 francs on just to the call of the "Council of Administration" on not less than three months' notice. The subscription books will be open in Europe and America on December 7, 8 and 9. American subscriptions will be received by the "Special Committee," consisting of Messrs. Drexel, Morgan & Co., J. & W. Seligman & Co. and Winslow, Lanier & Co. Particular attention is invited to the advertisement of the Universal Company, which under the presidency and management of M. Ferdinand de Lesseps, is to be the Constructing Company.
