MONDAY, Dec. 6—P. M.

Feverishness and an evident feeling of uncertainty were the principal features of to-day's stock transactions. At the opening of business the figures showed a fair degree of steadiness, but it was not long before a weak tone was developed and prices sagged off an average of more than 1 per cent. Reviewing the day's business after it is over, develops a manipulation of prices, which whether it was the intention of the manipulators or not, is creating a large "short" interest, that is made up by the sales of the promiscuous traders. Everyone is at sea as to the intentions of the large operators, who, for the moment, make prices either up or down, as they please. The general conviction of the average traders, however, is that the manipulation means lower prices, and the majority of small and medium operators are making up their books with that idea. There is another large and important element, consisting of wealthy dealers, who while willing to see prices yet lower are themselves taking no steps to produce such a result, but are watching for the proper moment to buy. It is more than probable that they all will arrive at that conclusion at the same moment, so that when the turn does come it will be sharp and rapid. As has been the case for several days, Western Union today was the "heavy weight" upon the market and it was its decline from 90¼ to 88⅞ which unsettled the whole market. Unless postponed for special reasons the quarterly statement of the Western Union Company, the result of which nearly all speculators are fearing, should be published next Wednesday. The transactions in the stock to-day amounted to 62,500 shares at 90¼ down to 88⅞, with final sales at a recovery to 89⅞. Generally the market closed lower than Saturday night, but strong at figures that show sharp recoveries from the lowest prices of the day.

Government bonds were dull with transactions at the boards that amounted only to $17,000. The prices of the later issues also were easier, the final bids for the 4½s and 4 per cents each showing a decline of ⅛ per cent. The Treasury purchased $387,000 6s of 1880 at 102⅞. Annexed are the closing quotations:

	Bid.	Ask'd.		Bid.	Ask'd.

More than a usual business was done in State bonds and at full figures. Louisiana consols sold at 52½. Alabama, class A (small bond), at 75⅛, Virginia 6s deferred at 14½@15, and Tennessee 6s old at 48 and new at 45. North Carolina consolidated 4s are quoted 82@85, and 6s special tax 4@5, South Carolina non-fundable 5½@6 and Quebec 5s 10½ bid. Of city bank stocks, Commerce sold (10) at 148 and American Exchange (7) at 122.

Railroad bonds that are not "gilt-edge" followed the share market, and the prices for nearly all of a speculative character declined. Erie second consols dropped from 96⅞ to 95½ and recovered to 96⅞, the funded 5s falling to 91½. Missouri, Kansas and Texas first consols declined from 110 to 109 @109⅞, but the seconds after selling at 71 rose to 72¼. Boston, Hartford and Erie firsts yielded from 47½ to 46 @46¼, and Mobile and Ohio first debentures from 85 to 84, the second debentures selling down to 50 and recovering to 52. C., C. and I. C. first assented were strong and sold at 103, and Chesapeake and Ohio firsts, series B, were ⅛ higher at 74, and the currency interest ⅛ higher at 43¼. Denver and Rio Grande firsts were firm at 110, and the consols only ¼ lower at 108¼. Texas and Pacific incomes fell from 72¾ to 71½, but the firsts of Rio Grande Division were steady at about 91½. The transactions generally were small, and the changes other than those noted were insignificant.

The Sub-Treasury to-day lost $961,511 on balance made up by losses of $696,825 coin and $267,686 currency. The European steamers arrived since Saturday brought $1,077,199 in specie and bullion. The fact that the highest commission paid to-day for money was ⅛ was not for the want of an effort to establish ⅛ per cent as the rate. The business generally was done at plain 6 per cent, and there was a plenty of loanable funds at this rate. The domestic exchanges on New-York at the places named are quoted as follows: Savannah, ¼ discount to par; Charleston, ⅝ discount to par; New-Orleans, $3.50 discount to par; St. Louis, $1 discount; Chicago, $1 25@$1 discount; Boston, par. The United States Treasurer at Washington to-day received $150,000 in National bank notes for redemption. The customs receipts were $715,000, and the internal revenue receipts were $720,000. The following is the Clearing House statement to-day: Exchanges, $185,063,522; balances, $5,171,161. The transactions at the Sub-Treasury covered: Receipts, $1,441,697; payments, $2,406,209; currency balance, $4,082,971; coin balance, $76,581,504.

The foreign exchanges remain dull and heavy contrary to the expectations of some of our most experienced bankers. An advance in the rate of even 1½ cents to the £ would still leave a margin of profit on the importation of gold. Annexed are the nominal quotations:

	60 days.	4 days.

In London, British consols early declined ⅛, but later recovered and closed at 98⅛ for money and 98⅝ for account. The difference (¼) between money and account is unusually wide, and is unwarranted by the condition of the London market, except upon the assumption that there is an extensive "bull" speculation against the next settlement. United States bonds were in easier all round; 5s at 101¼, 4½s at 111¾, and 4s at 112¾. American railways generally responded to Saturday's late decline in the house market, and Erie fell from 48⅛ to 47⅛, Illinois Central from 125 to 124½, Pennsylvania from 65¼ to 64¾, reading from 26⅞ to 25⅞, and Central and Hudson from 148½ to 148. Atlantic and Great Western first were steady at 35½ and seconds at 30½@30¾. Bar silver was ⅛ lower at 51⅝d. per ounce. The Bank of England lost £121,000 bullion on balance, the larger portion of which presumably is for shipment to the United States. In Paris, French 3 per cents declined to 85.52½ francs.

Messrs. Fisk & Hatch, bankers at No 5 Nassau-st., have issued a circular in reply to numerous inquiries: "Do you really believe the Government can negotiate a 3 per cent bond at par? Can you give good reasons for your belief?" which gives some cogent reasons for the firm's faith in an affirmative answer to the first question. The circular closes as follows:

"No other securities can be compared to the bonds of the Government. They represent the whole wealth of the Nation; they are not taxable in any form; they are wanted in all the money markets of the world—the banks, savings banks, trust companies, insurance companies, estates, capitalists, widows, orphans, aged and infirm, all seek them for perfect safety. Boston, Philadelphia and New-York City have all issued four per cent bonds, all of which are scarce at a premium; the best railroad bonds, all taxable, are selling at prices which yield only 4½ per cent income; British three per cent consols are above par, with their debt as steadily increasing as ours is decreasing. If Congress should, under these circumstances, throw away a half per cent per annum for the next ten or twenty years on $600,000,000 of the public debt, the taxpayers would have just cause of complaint. . .

"The issue of any more bonds bearing over three per cent interest would be a national folly."

The gross earnings of the following railroads are reported:

HANNIBAL AND ST. JOSEPH.	1879.	1880.		
Fourth week in Nov.	$53,613	$57,597	Inc.	$3,984
Jan. 1 to Nov. 30	2,708,443	3,190,353	Inc.	481,910
