Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell.

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

THE THEATERS

And her own company at the Robinson Grand all next week. Matinee Tuesday, Wednesday and Thursday.

The Cumberland Evening Times says:

"Winifred St. Claire is well known to Cumberland theatre-goers having played here last season, and they demonstrated their appreciation of her talents, by flocking to the Maryland theater yesterday in droves. The line in front of the theater last night awaiting to buy tickets, extended half way down Mechanic to Baltimore street. The crowd was a bit noisy, but they enjoyed every minute of the show.

"The St. Claire Company is an unusually clever one, comparing favorably if not surpassing any stock company that has been here this season. Miss St. Claire proved herself to be a very clever little actress and the members of her company showed themselves very capable in handling their respective roles, especially Billy Bretz, who immediately won himself a place in the heart of the feminine theater-goers as a matinee idol.

"The play presented last night wat Tully Marshall's great success, 'The Talker.' 'The Talker' is an especially strong bill and was very well presented, each member of the cast being well adapted to his or her role. Yesterday afternoon the St. Claire company presented the 'Girl from Out Yonder,' Adelaide Thurston's great play.

"Tonight 'The Girl and the Detective,' Cecil Spooner's great New York success will be presented at the matinee and night performances. It is a play full of thrills, tense moments and exciting scenes, showing the inside workings of a big newspaper office in New York city, just before going to press for the first edition. It is a play well worth seeing and is sure to please."

The above company opens a week's engagement at the Robinson Grand starting Monday night. The opening play will be "The Girl From Out Yonder." Seats are now selling.

The admirers of Miss Helen Lindroth will shortly see this popular star in a powerful role when a spectacular multiple-reel feature now in course of production is completed. Incidentally, in one of the scenes will be shown a magnificent bear rug sent to Miss Lindroth by a relative, all the way from Tuklukvet, a tiny hamlet situated in the heart of the Yukon Hills, Alaska.

All America owes much to Col. George W. Goethals, "the man who made the dirt fly" at Panama. Some few Americans, as individuals, are especially indebted to him, and among them is Lyman H. Howe. For it is because of the co-operation and exceptional facilities afforded by Col. Goethals that it is possible to present the remarkable reproduction showing the construction of the Panama canal which will be shown soon at the Robinson Grand theater. Col. Goethals was the mighty potentate to whom all matters at issue were referred whether it was granting the use of a special car at times to photograph the scenes of the teeming life and energy on the isthmus or the selection of a new $600,000 steam crane.

WILD LIFE

Protectionists Unite in Appeal Not to Repeal California Game Law.

NEW YORK CITY, Jan. 3.—Representative organizations engaged in the protection of the wild life in the country have united, in a meeting just held in New York City, in an appeal to the people of California to resist the attempt that is being made, through the medium of the referendum, to repeal its recently enacted law forbidding the sale of game. Organizations signing the appeal are:

The New York Zoological Society National Association of Audubon Societies, New York Association for th Protection of Game, Camp Fire Club, Long Island Game Protective Association, American Game Protective Association.

The meeting was held at the offices of the last named organization. In addition to the above named it may be mentioned that the Boone and Crockett Club has adopted a resolution of similar import.

The appeal attributes the agitation for the repeal of the California law principally to the market hunter and it characterizes that individual as one who "destroys but never produces." Every movement to legalize the sale of game is declared to be "in the interest of and backed to a large extent by market hunters and game dealers; absolutely opposed to the best interests of the people as a whole and a death blow to the real conservation of game."

Emphasis is laid on the fact that the sportsmen of the country would be repelled from, not attracted to the Panama-Pacific exposition by letting down the bars so that "the state of California could be turned into a game shambles 'for the benfiet of those who visit the exposition."

The appeal closes with the expressed hope that "the people of California in particular and the American people as a whole will show such determined opposition to the agitation now on foot that it may quickly pass to the oblivion it so richly deserves."

Organizations signing the appeal also adopted a resolution requesting a conference with William Randolph Hearst at which, in view of his frequently expressed interest in wild life conservation and his wide influence in California affairs, he will be asked to lend his aid in keeping the no sale of game law on the statute books.
