MONDAY, Dec. 13—P. M.

The stock market continues to be feverish and unsettled because of the stringency in money. To-day's business (323,379 shares) was comparatively small and the fluctuations were frequent, but resulting in prices generally being lower than at Saturday's end. But there were some notable exceptions: Northwest common sold up to 123½ and closed at 123, and Chicago, Burlington and Quincy recovered to 174¼@174. International and Great Northern closed Saturday at 44; to-day it rose to 50, on a report that persons interested in the Missouri, Kansas and Texas Railroad had purchased a large lot of the stock, and of an arrangement between the companies whereby the Missouri, Kansas and Texas Company should reach the Gulf by the International route. The Chesapeake and Ohio stocks also were better for the special reasons that the company's earnings are very satisfactory and because of favorable reports of progress in its extension westward. The dealings in Western Union were a feature of the day. Early sales were made at 81¼@80⅝, but later the price rose to 84, and closed at 82. The transactions in the stock amounted to 68,442, or more than one-third of the total of all stocks. Opinions are at variance whether to-day's rally is the natural reaction in price, occasioned by the covering of "shorts," or the beginning of a large buying for another advance, and a final consolidation of the two telegraph companies. The sharp advance in the price of American Union to 75 was regarded as giving color to the last-named opinion, as it was supposed that the intention was to bring the prices of the two stocks together, but the subsequent decline to below 71 for American Union dissolved at least that portion of the theory. Whatever may be the truth of the matter a reaction of 3 or even 5 per cent in the price of a stock that steadily has declined about 20 per cent is nothing calling for surprise or comment. Panama is noticeable because of sales up to 225. Of the general market there is little to remark beyond that it was alternately strong and weak—generally sold higher than the best figures of Saturday, and finally at prices that are small fractions below Saturday's last figures. The closing was quiet and steady.

Government bonds were steady at previous quotations, but the dealings at the boards amounted only to $16,000. A fair amount of business was transacted over the counters of the great dealers in the exchanging of old 6s and 5 per cents into the later issues. The Sub-Treasury purchased $111,600 6s 1880 at 102⅞. Annexed are the final quotations:

State bonds were strong with only moderate dealings in a few of the Southern issues. Louisiana consols sold at 53⅝, Tennessee 6s old at 50, and new at 48½. North Carolina 6s special tax at 5, and Virginia 6s consolidated ex matured coupon at 77. North Carolina consolidated 4s are quoted 83½@85, Virginia 6s deferred 16@20, and South Carolina 6s non-fundable 5@6.

Of city bank stocks, Phenix sold (54) at 100, and Mercantile (40) at 100.

Railroad bonds were not specially active, but the dealings developed a good deal of irregularity. Chesapeake and Ohio issues were exceptionally strong, the firsts, series B, rising from 74½ to 77@77⅝, and currency interest from 44 to 45¼. C., C., C. and I.C. first assented continued to be firm at 5, with sales up to 105⅝. Missouri, Kansas and Texas first consols, after sales at 112⅛, yielded to 111¾, and seconds, after 75½, sold at 74½. Boston, Hartford, Erie firsts declined to 44½ and recovered to 45¾, Erie second consols were neglected and declined from 98⅝ to 97¼@97½, the funded 5s selling at 93¼. St. Louis and Iron Mountain incomes were in better request and the firsts rose to 91 and the seconds from 71⅞ to 75¼. Ohio and Mississippi firsts, Springfield Division, were notably strong at 115, Canada Southern firsts being firm at 101½. International and Great Northern second mortgage incomes rose from 86½ to 88, and Indiana, Decatur and Springfield seconds from 62 to 65½. St. Paul consols were firm at 122, firsts of Southern Minnesota at 108¼, and firsts of I. and D. Extension at 122½. St. Paul and Sioux City firsts sold at 107½ and St. Paul and Omaha consols at 102½@102¾. Denver and Rio Grande firsts were strong at 110½ and the consols rose from 109½ to 110. Kansas Pacific consols were ¼ easier at 102. The Texas and Pacific issues were active, the incomes up to 75⅞@75¾ and firsts (Rio Grande Division) to 95½@95¾.

The Sub-Treasury to-day gained $274,236 on balance, made up by a coin gain of $440,349, less a currency loss of $166,113. This leaves the net loss since Friday $45,113. A Washington dispatch states that "the United States Treasury to day issued $400,000 in silver certificates for gold deposited with the Sub-Treasury in New-York." As the banks of this city neither receive on deposit nor pay out silver or silver certificates, it is suggested that this transaction may be one of the methods of interfering with our local money market. The certificates may easily be locked up, while the gold cannot be, and when again released they are available for payment of duties on customs, so that the loss, if any, will be trifling. European steamers arriving since Saturday brought $3,438,000 in foreign gold coin and bullion. This, with Saturday's arrival, makes $5,337,470 received in three days. None of it, however, will be available as money until Wednesday, and the larger portion of it not till Thursday and Friday. The re was no let up in the stringency of money at the Stock Exchange, and the common rate was 6 per cent plus $\frac{1}{16}$ commission, with exceptional loans at ⅛ per cent added to legal interest, more exceptions at ½ and at plain interest only by favor. It was openly charged that more than two of the city banks, which on application at the bank offices had declared they had no money, were large lenders at the Stock Exchange at $\frac{1}{16}$ and ⅛ per cent commission, through agents. The turn of the domestic exchanges on New-York is favorable to this city at Chicago, where the rate is quoted at 50@25 cents discount. At the other points the rates were unchanged, but are firmer. The United States Treasurer at Washington to-day received $152,000 in National bank notes for redemption. The customs receipts were $531,153, and the internal revenue receipts were $1,089,344. The following is the Clearing House statement to-day: Exchanges, $191,333,839; balances, $6,999,034. The transactions of the Sub-Treasury covered: Receipts, $1,411,882; payments, $1,137,646; currency balance, $8,144,036; coin balance, $77,898,317.

The foreign exchanges are again weaker and lower, the nominal rates for sterling being reduced ½ cent, while for actual business bankers' bills may be quoted $4 78 and $4 80@$4 80½ for long and short sight respectively. The Continental rates are unchanged, because in them there positively is no business. The following are the revised quotations:

In London, British consols were weak, declining ¼ to 98⅝ for money, and from 99⅛ to 98¾ for account. A special dispatch to Kornalé's Wall Street Bureau states that the decline in consols was caused by the political situation in Ireland. American securities were firm or steady; United States 4½s up ¼ to 115½, and 4s up ⅛ to 117⅛. Erie railway shares ruled at 48¾@48⅝, and consols at 102. Atlantic and Great Western seconds were ¼ higher at 30½, Illinois Central steady at 125½@126, Pennsylvania ⅛ better at 64⅝, Reading ⅛ higher at 26½, Central and Hudson steady at 150@150¼; and Central Pacific was ¼ lower at 88. Bar silver rose to 52d. per ounce. The Bank of England lost £10,000 bullion on balance. In Paris French 3 per cents rose to 85.92½, and later declined to 85.80, sight exchange on London falling to 25.31 francs to the £.
