MINES AND MINING.

FRIDAY, Dec. 17—P. M.

A fair amount of business was done in mining stocks to-day, but at irregular prices. Moose was conspicuous in the dealings, both for the amount of transactions and its steady advance from 1.05 to 1.35. The Greenville district properties were all higher at previous quotations, with only a moderate amount of transactions. Of the Leadville shares, Little White was weaker at 67½@7, Amie was active, and rose to 50@49 cents, and Climax was 1 cent higher at 64 cents; South Hite declined to 27 cents, and Little Chief to $1. Iron Silver selling at 3.45@4. The Comstock shares were irregular, Consolidated Virginia declining to 2.10, and California advancing 10 cents to 1.65. The Bodie stocks were steady to firm, with little or no changes in prices. Consolidated Imperial was weak, and declined to 97 to 84 cents. Hukill was more active than of late, but at the expense of a decline of 10 cents to 1.30. Of the low-priced stocks, Silver Nugget further advanced 1 cent to 13 cents, Copper Knob 1 cent to 13 cents, Gold Placer 2 cents to 33 cents, and Little Chief 2 cents to 22 cents, Buckeye being next Eastern 1 cent to 22 cents, Durango again was active, and advanced from 26 cents down to 18 cents. The market closed dull and irregular.

N. Y. MINING STOCK EXCHANGE SALES.

[BY TELEGRAPH TO THE TRIBUNE.]

SAN FRANCISCO, Dec. 17.—Great indignation is expressed here regarding the Alta deal. Nearly all the papers denounce it, *The Post* in the strongest terms. Alta sold as low as $3 80 before the regular session this morning, but the sharp advance in Hale & Norcross in the regular board greatly counteracted the effect which the break in Alta had on the general market. On the call Alta showed an advance of $2 60 over early quotations.

A. E. Head and Charles Foreman, old Comstock mining operators, are now traveling on muleback through lower Arizona and Northern Mexico seeking mines for investment.

The Eureka Consolidated Mining Company has declared a dividend of 50 cents per share.

TUCSON, Ariz., Dec. 17.—Notwithstanding all reports to the contrary, the Hermosa mill continues to run day and night. The mine yields large quantities of high-grade ore. Some very flattering developments have recently been made in the crosscuts from the lower tunnel. The mill crushes about eighty tons in twenty-four hours, and turned out for the month of November will be something over $80,000. The returns for December will be fully $100,000.

The decline in the Alta mine of the Hershaw district, at a depth of 105 feet, continues to look very well, same remarkably rich ore having been cut. The company contemplate the erection of hoisting works and the sinking of a working shaft 300 feet deep, from which levels will be run every 100 feet to tap the ledge.

The recent rich strike in the Holland mine has been drifted on for a distance of seventy-five feet, and shows what is said to be the richest body of ore yet found in Washington camp. The smelter, which was shut down some time since for the lack of proper fuel, is again running on full time, a supply of coke having arrived, and now works satisfactorily.

VIRGINIA CITY, Nev., Dec. 16.—Water fills the 2,050 level of the Alta mine and is still rising, notwithstanding all the pumping. It is impossible to say whether it is a large or small body of water until it stops rising. A few men are running the pumps; all the rest are laid off.

Bullion valued at $841,823 61 was received in this city yesterday from the mines.

The superintendent of the Green Mountain company telegraphs, under date of December 14, as follows: "Green Mountain running full time. There is a superabundance of fine ore. Gold Stripe the same. No interruption since storms. Everything all right."

The Reno Gazette (Nev.), of December 10, has the following:

The Idaho mine, of Grass Valley, has declared another dividend of $5 per share, aggregating $15,500. This is the one hundred and thirty-sixth dividend, and swells the total amount of dividends to $2,830,500. Lucky stockholders. The Idaho mine furnishes an example of what perseverance can accomplish in mining. The original owners sunk 500 feet on prospects before they had a paying mine. In going down that distance they once lost the ledge altogether. But they had faith and determination. They persevered, and developed a splendid property, selling out for enough to make them independent for life. One of the original owners, a cultivated gentleman, now resides in San Francisco. For ten years he toiled as a prospector, but reaped no reward until he "struck it rich" in the Idaho mine.
