secretary; Mrs. M. F. Loudon, treasurer; Mrs. A. J. Hartwick, right guide; Miss H. Gannon, left guide; Mrs. William Franklin Margo, inside guard; Mrs. F. Sanders, outside guard, and Mrs. M. Igo, organist. After the installation Mrs. Weisel, the retiring chief, was presented with a jewel of her new rank and with a past chief's certificate and in accepting thereof made a neat speech.

ANCIENT ORDER OF FORESTERS.

During the past week High Chief Ranger Boehm, in company with High Court Treasurer Lunt, paid an official visit to Court Azella, and after an exemplification of the work they were the guests of honor at a banquet. They also visited Court Advocate in Oakland, where there was an exemplification of the work by the initiation of several candidates by the board of deputies in a most satisfactory manner.

The deputies of Oakland have issued a challenge to the deputies of San Francisco for a contest in ritualistic work.

The high chief ranger, high court treasurer and permanent secretary next will visit Court Sutter Fort of Sacramento, where they will on Friday install the officers, and the same night the officers of Independence Circle, Companions of the Forest, will be installed by Supreme Grand Chief Companion Mrs. M. E. Falconer, assisted by Mrs. L. E. Polk of Merced.

The deputies of Alameda County met in Gier's Hall last Monday evening. M. Boehm, H. C. R., was present. The following dates for installation of officers and official visits were arranged: Wednesday, July 5, Court Advocate, Oakland; Thursday, July 6, Court Holland, West Oakland; Monday, July 10, Court Alameda, Oakland, and Court University, Berkeley; Tuesday, July 11, Court Knaresborough, Oakland; Thursday, July 13, Court Piedmont and Court Triumph, Oakland; Thursday, July 27, Court Grant, East Oakland.

COMPANIONS OF THE FOREST.

Last week Supreme Grand Chief Companion Mrs. Falconer, Sub Chief Mrs. Ash, Treasurer Mrs. Bennett, Secretary Mrs. Morrow, Right Guide Miss McNorton and Left Guide Mrs. Miller paid an official visit to Mazzini Cricle and had a most enjoyable visit. The officers were accompanied by visitors from Loyal and other local circles. After the meeting they were entertained in that hospitable manner for which this circle is noted. The same officers also visited Liberty Circle. They also visited California Circle last Wednesday night, and on that occasion they were accompanied by Mrs. L. E. Polk of Merced, John Falconer, P. S. G. C. C.; Mrs. Follett, P. S. G. H., and George J. Berger, P. G. S. R. G. A number of members from local circles accompanied the officers on their visit, and the board of deputies, who that night installed the officers of the circle. On Thursday night the grand officers paid a fraternal visit to Eureka Circle.

The officers of Mazzini Circle will be publicly installed to-morrow night in Washington-square Hall, at Stockton and Union streets. After the ceremony there will be a ball.

On Thursday evening last Mizpah Circle gave a dance, which proved a very successful affair. Quite a number of visitors were present from San Francisco and Oakland circles. In consequence of Mizpah's meeting falling on the Fourth of July its officers were installed in the hall of Piedmont Circle last Thursday evening.

Piedmont Circle will give a public installation on Thursday, July 20.

Last Monday night the following officers of Loyal Circle were installed by Deputy Mrs. Mary Large, assisted by Mrs. Virginia Cervalli and Mrs. R. P. Gale: Mrs. Mary Bostrom, P. C. C.; Mrs. Maggie Morrison, C. C.; Mrs. Angie Crowell, S. C. C.; Miss Bailey, T.; Mrs. F. N. Morrow, F. S.; Mrs. A. Senna, R. S.; Miss Eva Bryant, R. G.; Mrs. N. E. Sanborn, L. G.; Mrs. Mary Large, O. G.

Next Monday the supreme grand officers will visit Sherwood Circle. On the 11th they will go to Washington Circle and on Wednesday they will go to Artimas Circle.

THE ANCIENT ORDER OF DRUIDS.

At the recent session of the Grand Grove a change was made in the constitution of the subordinate groves so as to conform with the law of the Supreme Grove in the matter of charges and trials. It was decided that the first meeting night in the month of February of each year should be a memorial night in the subordinate groves in respect to the memory of those of the grove who during the year have passed away, the exercises to be either private or public, as the grove may elect. The per capita tax was increased from $1 to $1 20. A motion to reduce the number of representatives and to pay mileage and per diem was lost. The next session of the Grand Grove will be held in San Francisco.

During the past week Aurora Grove conferred the third degree; Hesperian Grove initiated one candidate, Concordia Grove initiated two and Tomales Grove conferred the second degree on candidates.

WOODMEN OF THE WORLD

Last Monday night Golden Gate Camp had a large meeting, when twenty-five candidates were initiated. To-morrow night there will be a business meeting, to be followed by a members' social entertainment. There will be a good programme of musical and athletic events.

IMPROVED ORDER OF RED MEN.

Last Wednesday night several candidates received the warrior's degree in Manzanita Tribe.

Althomas Tribe has during the past term made the greatest gain in membership—136 net—and it will be awarded the Great Council prize of $100.

Teams from the following tribes will enter the contest for the Great Council prize during the Great Council session: Modoc, Osceola, White Eagle, Bald Eagle, Althomas and Monadnock.

It is expected that at the next Great Council there will be made a showing of a net increase of at least 350.

KNIGHTS OF PYTHIAS.

The grand chancellor will visit all the local lodges in Pythian Castle in this city to-morrow night except Nos. 147 and 149, and he will visit them on the following night. On each of these nights the lodges will meet in joint session.

A new lodge is being organized in Tehama County and another in Merced County.

A new company of the Uniform Rank has been instituted at Pomona and another at Eureka.

## Why goods are cheaper now.

### In the East.

Eastern makers are clearing lots. Stocks that were thrown back on their hands by the ill fortunes of trade are now being rushed out to cash bidders. Manufacturers turn with belated lines to the larger merchants for relief. Hale's California stores are large consumers, and many a maker sought relief from them.

### In California.

These cash bought lots are here, landed at a low cost and priced accordingly, to insure rapid selling. Moreover, the season is ending. Many lines, popular a month ago, show broken assortments now, odd sizes, orphan lots, etc. These must be disposed of while there is wearing time ahead. Goods cannot be sold where no demand exists, so the selling must be hurried. Prices must be cut, for the season is passing, and that is why prices are lower at Hale's.

### Millinery greatly reduced.

Saving Time in Millinery—Trimmed hats and trimmings at prices you would hardly believe. The season is rapidly advancing. Many lines are cut to close. Some are cut in half. Will give you an idea of the conditions:

## The Summer Man and What He Should Wear.

IT very frequently happens that the summer girl overshadows the summer man. Not in importance—far from that, as he is the most important item in the whole campaign. He is dressed for, longed for and squabbled for. He is overshadowed in the matter of clothes. Those who cater to men and model their fashions are not held in such high esteem as those who do the same thing for the fair sex. Indeed, men are considered just a wee bit above the frivolities of dress, and yet, if the truth were known, many of them are more finicky and fussy about the set of their coats and trousers than the average woman.

These "lords of creation" have just as many infinitesimal changes in the cut of their trousers, the length of their coats, the twist of their scarfs, the brims of their hats, the shape of their shoes and the color of their shirts as have their female relations.

And these little differences, so slight in themselves as to be almost imperceptible to the uninitiated are so marked to the well informed man that he can detect a past fashion in a glance. Therefore, it behooves those who would cater to the well groomed man to inquire into and then set forth some of the novelties of the season for his reading as well as devoting pages to the information of his womankind.

For this season the newest dress shirts have wide bosoms and two buttonholes. The cuffs are attached. Gray suede gloves are still worn, though the preference now seem to be given to dark tan. In handkerchiefs fine linen with narrow hemstitched border and embroidered initial is en regle for the perfectly dressed man.

For business wear the ever favorite double-breasted sack coat is one style; the waistcoat should match. If a single-breasted coat is worn the trousers must match; if a double-breasted coat the trousers may be of different material. A derby must be worn with this costume.

Colored shirts with cuffs attached are good form for morning wear, but the collar must be of white linen. The Ascot, four-in-hand or "once over" tie is used with this costume. The shoes are of russet or calf, laced.

For evening wear the little dinner jacket or Tuxedo is used for informal occasions. Twill silk roll collars will be made on this jacket, and a pique waistcoat is usually worn with it. White twill silk waistcoats also promise to be popular.

Three forms of collars are now used—the straight stand up, the stand up with turned corners, the points of which are rounded, and the round pointed double upright.

The golf jacket for this year is green, which many consider not altogether an improvement on the old scarlet jacket, which lent such a tone of color to the links. Golf knickers are made tighter at the knees and less baggy over the hips than formerly. Thick stockings of green tartan plaid are worn, and gaiters are no longer en regle. Low shoes are better for outdoor sports than ordinary walking shoes.

From London the information comes to us that there is no change in the shape of top hats this year. They are still slightly bell-shaped, with the leaf somewhat less curled than last year. The Prince wears a broader leaf than is commonly seen and flatter in the rim than last year. Frock coats are very much worn in the West End at present, but when the weather gets warmer open morning coats are to be the thing. The Prince's heavy overcoats have velvet cuffs, but that fashion has not found favor, being of French importation.

A new fad in underwear is the knee length "pants." This abbreviated style is destined to "fill a long felt want" with wheel and golf devotees. The innovation bids fair to revolutionize the trade. Its advocates reason that there is relatively no more use for a "continuous performance" on the legs than on the arms in hot weather.

Among certain of the real smart set gold buttons on full dress waistcoats are affected. The wearer's monogram often appears in bas relief.

Black silk and satin broad end ties, with plain band and artistically embroidered ends, are much affected. Some new effects in rumchunda neckerchiefs are now used to complete man's outfit for the gentler sports. They are worn as sashes. Bicycle hose this year is of the unobtrusive class. Fancy tops are still proper, but the colors and designs are quieter and neater.

All bicycle trousers are made with cuffs which button at the side, but these are now made of the same materials as the body of the garment. Full suits of the same material are not worn by the makers of fashion, but light trousers with a fancy check or plaid are the thing, with a sack coat of solid dark color.

The stylish shoe is laced low, but not so extremely as before, the tops being above the ankles. This style not only prevents the accumulation of sand and small stones in the shoes, but also conceals the connection between the footless riding hose and the ordinary socks. Coats are cut on the ordinary lines of those worn during business hours, and can be either square or round cornered.

With the dark coat and light trousers a light hat is worn. An effort was made to do away with the bicycle cap and substitute the fedora, but the attempt has not met with much approval, owing to the extra weight and consequent heat of the felt. The best dressed riders still wear the caps, and have them to match the trousers.

## THE LOWENTHAL MURDER.

### The Woman's Dying Declaration Is Admitted as Evidence in the Case.

The preliminary examination of the soldier, M. J. Mochel, charged with the murder of Mrs. Ida Lowenthal in the Campfire saloon on Kearny street, was continued before Judge Treadwell yesterday morning at 9 o'clock.

Mrs. S. B. Reid, the nurse who attended Mrs. Lowenthal till she died, testified that she said she was going to die. On this showing the Judge admitted as evidence Mrs. Lowenthal's dying declaration, which had been vigorously opposed by the defendant's attorney.

Dr. Fitzgibbon, who attended the woman at the Harbor Hospital, testified that the wound itself was serious and was not produced by a bottle but by a sharp instrument that penetrated the throat. He had treated 40,000 cases of that character during the past four years, which statement took the Judge's breath away. Seeing the Judge's amazement, which was reflected in Prosecuting Attorney Carpenter's face, the doctor reduced the number to 10,000. The case will be argued Tuesday morning.

Conboy returned to Mogan, and he said that if the cases were not on Treadwell's calendar they would be put on his, so that there would be no trouble about them.

Anderson, the former partner of the dead man, was released from custody by the police yesterday.
