## WHOLESALE PRICES OF COUNTRY PRODUCE.

[Expressly for The N. Y. Tribune by our own reporter.]

For the week ending February 1, 1881.

BEANS AND PEAS.

Receipts for the week—Beans, 9,7 pkgs. Peas, 1,276 bush. Exports—Beans, 474 pkgs. Peas, 1,948 bush. Continued light receipts a little better local and shipping demand, and more inquiry for Beans to go West, which tends to a steady feeling in the market for Marrows and Mediums, and Prime stock is held a cent higher than last week. Choice Mediums can hardly be located under $2 70@$2 72½, and $2 80 is the general asking price for Prime Marrows; small lots have been sold at $2 82½@$2 85. There is a fair inquiry for Red Kidney Beans, and the market is firm and weak, the trade have long talked some lots at $1 90, and exporters want to buy at $1 90, free on board. White Kidney are also dull and a little lower to sell. There is no quotable out at present for Pea Beans, and buyers are offered very poorly. Yellow Eyes are quoted nominally at $1 85, but there are no buyers at that figure. Green Peas have had rather more inquiry at steady prices. Southern Black Eye without important change to note. BUTTER.

Receipts for the week 19,971 pkgs; last week, 21,602 pkgs; corresponding week last year, 18,528 pkgs. Exports for the week, 11,725 pkgs. to Great Britain and 1,300 pkgs. to the continent; of Cleomargine, 215,324 lb. There has been little or no change in the general butter market since our last report. The home trade is fair, and buyers are still very partial as to quality or want slight concessions to place. Exporters are offering 2½c. for Good State Dairies, and put quite a number at that figure; occasionally a fine lot of Orange County dairy, drawn a bid of 21c. Strictly fine lots of Elgins and tubs sold to the home trade at 26c., and a few firkins at 27c. A cool May of the Creameries last month in the fine are now a little off flavored, which reduces the value from 2 to 4c. per lb. Really fine gilt-edged goods are worth 34c. Sweet Cream Creameries are graded quite low, and with the price of some Cream. There is a quiet but steady market in Western Dairy and lade packed goods. The cold weather has shortened the supply and fine marks are generally held with some confidence; 125 pkgs. of the "W. & L." marks were sold today at 26c., but the average invoices of fine fresh Factory goods seldom reach above 23c. There is a fair export movement. Rolls are selling on their merits at 18c. for Fine, but 20c. is reached for special marks. Quotations:

CHEESE.

Receipts for the week, 31,559 boxes; last week, 42,221 boxes; corresponding week last year, 12,241 boxes. Exports for the week, 40,726 boxes; same time last year, 24,295 boxes. Liverpool quotations firmer at 68s. The continued free receipts, especially of Creamery skims, have made exporters very cautious, and the demand during this week has been very moderate. There are some fancy lots of September cheese still held at 14c., but that figure cannot be reached only in exceptional cases, either to fill a positive export order for fancy stock or for small lots from the home trade. In fact, it is very hard to do much business at 14c. for any cheese. Medium and low grades continue in demand, but recent sales show a reduction of ¼@½c. per lb in prices. The weaker feeling in fine goods is partially attributed to the decline in the Medium grade. Quotations:

EGGS.

Receipts for the week 1,327 pkgs.; last week, 1,410 pkgs., corresponding week last year, 6,102 pkgs. The fluctuations of the egg market are as great as the stock market. Fortnight ago our last report Fresh Eggs were crowded up to 36c., but eased off toward the close of the week, and 36c. was the general selling price yesterday for Fine Marks of Western. The cool weather of to-day made a firmer feeling in the market and not snow-storm to day made a firmer feeling in the market and not much stock was to be had this afternoon under 38c. A few bbls. of Western Limed Eggs were sold to-day at 35c.; there is so little stock here or to arrive that we omit quotations.
