The Sub-Treasury to-day gained $452,210 on balance, made up by a coin gain of $514,147, less a currency loss of $81,937. This reduces the loss since last Friday to $2,484,589. Money to-day ruled firm at 6 per cent, with some exceptional payments of small commissions, until the business was pretty well over, after which loans were made at 5 per cent, and later still offers at 4 per cent. Notwithstanding this apparent ease, the condition of the banks and the exchanges indicates that rates for money will rule near to or above legal interest for some time to come. The Clearing House statement to-day is as follows: Exchanges, $182,279,947; balances, $4,611,698. The transactions at the Sub-Treasury covered: Receipts, $1,316,300; payments, $934,090; currency balance, $4,437,424; coin balance, $88,538,119.

The Governors of the Bank of England at their weekly meeting to-day made no change in the rate for discount, and it remains at 3 per cent. During the week the bank lost £97,000 bullion, and the proportion of the reserve to the liabilities was reduced from 49¾ to 46 3/16 per cent. To-day the bank gained £17,000 bullion on balance. At the London Stock Exchange British consols are higher at 99 5/16 for money and 99½ for account. United States bonds were strong; 5s, ⅛ higher at 103⅜; 4½s, unchanged at 114¼; and 4s, ⅛ higher at 116⅜. American railways generally were higher and strong, but Illinois Central was ½ lower at 136½@137, and Central and Hudson ⅛ lower at 151. Bar silver was weak and declined ¼d. to 52½d. per ounce. In Paris, French 3 per cents rose to 84.65, sight exchange on London advancing to 25.35½ francs to the £.

It is officially announced that the French Government will issue about March 21 a loan of 1,030,000,000 francs or about $206,000,000 new redeemable three per cent rentes. The price of the new issue will be 82½ francs. The weekly statement of the Bank of France shows an increase of 67,616,000 francs gold and 3,150,000 silver. A Berlin dispatch states that the specie loss for the week by the Imperial Bank of Germany amounts to 14,000 marks.
