WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending March 22, 1881.

BEANS AND PEAS.

Receipts for the week—Beans, 2,068 pkgs., Peas, 12,79s bush. Exports—Beans, 327 pkgs.; Peas, 2,412 bush. The very strong feeling in the country makes a firm tone to the market here, but the export and local trade is light and the market is quiet. A sale of 100 bbls. of Choice Hand-picked Medium Beans is reported at $2 12½; some holders are asking $2 15, but most of the business is at about $2 10. Marrows are generally held at $2 10, some outside lots are asking for less. Many of the jobbers are being stocked with Foreign Medium as it is usually the case when the former are the cheapest. No change in Red Kidney; market very dull. No sale of Black Beans; it is difficult to tell at what prices any quantity could be moved. Green Peas are held about steady, but the trade is very small. BUTTER.

Receipts for the week 23,881 pkgs; last week 14,812 pkgs; corresponding week last year 13,335 pkgs. Exports for the week, 1,897 pkgs. to Great Britain, and pkgs. to Continent; or Gleamargarine, 40,414 lb. The receipts of New-State butter are increasing and some of the cows are showing an improvement in quality; the bulk, however, are poor and sell at 24@25c. selections are quite easily sold at 26@28c. The supply of Fancy Elgin and Iowa Creamery is still small, but buyers are taking some things close in the prices still cause easier prices. Jobbers return prices over, or today, cause quite good sale of Western Creamery at 30c. to 33c., and are not very active. Fair State Creamery is very dull; a little of prime quality is still held at 34@36c., but most of the stock here is only fair to fresh and sellers would be glad to close it out at 29 to 32c. Entire Dairies and Dairies of Firkins are extremely dull; exporters are not operating at all and there is scarcely any local demand for them. All grades are lower to sell, but very Fancy Eastern continues to be held on grades below good. A large quantity of good to fancy Western Imitation Creamery has had a fair inquiry and seems to be in good demand. Fancy Western Imitation Creamery has had a fair inquiry at 28 to 30c. There is no outlet at present for factory goods and the market is dull and very unsatisfactory. The late reduction in prices has not influenced the export trade in the least, and dealers think the only time to do is to drop prices so low that packers will take the goods. Quotations:

CHEESE.

Receipts for the week, 13,702 boxes; last week, 11,269 boxes; corresponding week last year, 5,551 boxes. Exports for the week, 14,98s boxes; same time last year, 3,266 boxes. Liverpool quotations steady at 52s. Receipts have been very light and the market is at present nearly all buying on positive orders, but there is a fair home trade and prices for the better grades are moderately firm. The stock has been reduced to less than 50,000 boxes and holders of fancy goods have confidence in the future. White Cheese is selling better than colored. Creamery skims are freely offered and continue to depreciate in value; general sales are at 7½@8½c., and the market is very quiet at those figures. Quotations:

EGGS.

Receipts for the week, 13,029 pkgs.; last week, 11,849 pkgs.; corresponding week last year, 24,804 pkgs. The supply does not increase very rapidly, and with a good consumptive demand prices are well sustained. To-day the demand was very active, and the offerings were readily taken at firmer prices. State, Pennsylvania and Western going at 21c. and Southern at 20½@21c. A few Duck and Goose Eggs are selling at quotations:

FRUITS, BERRIES AND NUTS—DRIED.

Receipts of Dried Fruits for the week, 408 pkgs., with 4,518 pkgs. of Peanuts and 79 pkgs. of Pecan Nuts. Exports of Dried Apples, 1,937 pkgs. The recent movement in Evaporated Apples has caused a firmer feeling among the principal holders, and there is less disposition to meet buyers' views where concessions are necessary. At the moment the market is quiet, with all grades held with firmness. Sun-dried Apples are very dull and nominally unchanged. Peaches are very dull and weak. French evaporators would probably buy some lots at 24½c., but nearly all the stock is held above those figures; Coarse Cut Apples hold a relatively higher position than Fine Cut. Evaporated Peeled and Unpeeled Peaches are selling in a very small way at quotations; Sun-dried Peeled are in good demand and firm; the stock is well cleaned out. There has been a fair inquiry for Unpeeled Peaches at lower prices, which has been met by holders. We note sales of several small lots at 5½@5¾c., and a car load of halves, small and somewhat mixed, at 5½c. Blackberries in light stock and firmly held at 7½@8c. Twenty-four cents bid for Raspberries and 24@25c. asked. Very few Cherries here. Plums steady. Peanuts have had more demand and prices are firmer. Quotations:

FRUITS AND BERRIES—FRESH.

Exports of Apples 10,729 bbls. Apples continue in large supply and the market is without strength. A few choice lots bring fair prices but the great bulk of the stock in good quality and sells at low and irregular prices. The fine or good lots of Florida Oranges arriving are wanted, but inferior and stale cored fruit has very slow sale. The market for Cranberries is very bad shape. Most of the Jersey growers held on to their stock at the time the Western demand was so active, hoping to realize handsome profits later in the season. This stock now has to be marketed, and with no shipping trade and an unusually light consumptive demand, it is impossible to work it off at any price. Sellers offer to make liberal concessions, but thus far there have been no favorable results. The receipts of Florida Strawberries are very moderate and with the quality generally pretty good prices are about steady. Quotations:
