WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending July 26, 1881.

General Directions.

Send only good articles. The freight and other expenses eat up poor goods. Put everything in good order. An attractive look secures examination, and often makes a sale where a dirty package of slovenly appearance fails. Pack securely, so that the motion will not allow the contents to change about. Use plenty of *clean, dry* fine-cut straw with eggs. Mark plainly with *paint*—a stencil plate is best—and note contents on the box or barrel, stating the amount also. Send a letter at the same time, stating what is sent, the route, time, etc. An invoice or list should also be inclosed in the barrel or box. Always state the number of packages. Secure for yourself the reputation for fine goods, put in best shape, so that your mark is in demand.

BEANS AND PEAS.

Receipts for the week—Beans, 1,330 pggs.; Peas, 12,430 bush. Exports—Beans, 538 pkgs.; Peas, 5,083 bush. Choice Mediums are rather scarce and held with some firmness; receivers ask $2 45, but they are not salable in any considerable lots above $2 42½. Pickers are selling at $2 42½@$2 45. There is no pressure to sell, but holders seem willing to keep stock moving at current rates. Red Kidney are again very quiet. White Kidney have little or no inquiry and quotations are nominal. Strictly Choice Pea Beans are scarce and are wanted at $2 55 to $2 60; all grades have no demand and are very low. No trade in Black Beans and feeling dull and weak. Choice Green Peas, free from bugs, have sold up to $1 50@$1 55, but other kinds are not wanted. Hardly enough Southern Bluetts Eye offering to fix a quotation.

BUTTER.

Receipts for the week, 45,926 pkgs; last week, 43,162 pkgs.; corresponding week last year, 37,143 pkgs. Exports for the week, 7,850 pkgs. to Great Britain, and 1,883 pkgs. to the Continent; of Oleomargarine, 206,077 lb. Strictly fine Creamery is in moderate supply and rules fairly active at 23@24c. for State and 22½@23c. for Western. Buyers do not want goods that show the effect of hot weather, and stock that does not try well or has a weak "summer flavor" is neglected and is accumulating. Exporters bid 22½c. for very fine Western, but buyers generally are small. A number of shippers who purchased considerably in excess of their orders some three weeks ago are now shipping those goods; and while it lessens the demand for the present it is a good thing to have the goods taken out of this market. Fine lines of State Tubs and Pails are in better supply and sell fairly at 21c. with Fancy selections up to 21@22c. A few State Firkins are selling to the Southern trade at 21@22c., and lines of Welsh Tubs have sold at 20@21c. for fine. Western Factory, Ladle Packed and Dairy goods do not move off satisfactorily. Not much of the Iowa Gum Factory is offering; it probably could not be bought under 19@20c. The Ohio and Indiana Factory is mainly hot weather goods, and the market for such is irregular and uncertain. The Common to Fair grades are very dull and yet well picked up by packers and German shippers. Quotations:

CHEESE.

Receipts for the week, 105,378 boxes; last week, 180,819 boxes; corresponding week last year, 134,288 boxes. Exports for the week, 22,643 boxes; same time last year, 12,173 boxes. Liverpool cable quotations dull at 54s. Receivers tried to start another "boom" upon the basis of yesterday's transactions in the country, but exporters were not inclined to follow an advance, and the scheme suddenly collapsed. Fancy Colored Cheese were freely offered at 4½c. late in the day, and a number of sales were made at that figure; some large shippers were not operating, they could not buy the best factories at 10¾c. Fine White Cheese were not salable above 10¾c. Good Creamery Skims are wanted at 6¼@7c., but the more they are skimmed the harder they are to sell; Hand Skims are nearly unsalable. The mystery which veiled the movements at Liverpool yesterday is gradually disappearing. Manipulators who seek to create an excitement when the sailing is smooth and fair, may find the tables turned to their disadvantage when they least expect it. Quotations:

EGGS.

Receipts for the week, 11,330 pkgs.; last week, 11,598 pkgs.; corresponding week last year, 8,319 pkgs. The market has been demoralized all the week. Fully three-fourths of the receipts from the West arrived in bad order, some being entirely worthless. Many of the best marks which usually sell fine lost more than one-half. Some of the Eggs were so fully hatched that seven chickens were taken out alive from one barrel. Evidently some of the eggs were partially hatched before shipment, but all the stock must have been heated before packing. Some ten or twelve years ago, the stock arrived in about the same condition, but of recent years shippers have placed too much confidence in the refrigerating cars introduced by the transportation companies. A little improvement is now noticeable in the receipts. The demand is fair for strictly fine marks, but all others are at the mercy of the buyer. Quotations:

FRUITS, BERRIES AND NUTS—DRIED.

Receipts of Dried Fruitsfor the week, 210 pkgs., with 2,004 pkgs. of Peanuts and—pkgs. of Pecan Nuts. Exports of Dried Apples, 8 pkgs. The tendency of the market is still upward on all grades of Dried Apples, and the outlook for the coming crop of fruit in all sections of the country grows more discouraging. Receipts are very light. A good many lots of Apples have been withdrawn from the market. The present movement is entirely speculative, so that it is impossible to tell how high prices will be carried. We hear of no sales to exporters or consumers at the prices offered by speculators; the latter are now bidding 11c. for fancy evaporated Apples, 10½c. for Choice, and 5½c. for either sliced or quarter sun dried Apples—a sale of 100 bbls. of State quarters was made yesterday at 5½c. The few scattering lots of Peaches have been put in cold storage and are not offered for sale. Raspberries are firm at 25c. New Pitted Cherries have bids of 16c. with no stock offering. We note the sale of 2 bbls. of New Whortleberries at 12½c. No New Blackberries here; crop reported to be small. Less doing in Peanuts but prices are held about steady. Quotations:
