DENTISTRY.

NEW INVENTION OF ARTIFICAL CHEOPLASTIC BONE TEETH, BY DR. S. R. SIGESMOND & HAYWARD, 280 Pennsylvania avenue, between Twelfth and Thirteenth streets, Washington.

Drs. S. & H. calls the attention of the public to the following advantages of their improved system:

1st. The teeth of their manufacture will never corrode nor change color by any acids, and are three-fourths lighter than any other.

2d. No teeth or roots need be extracted, as the artificial ones can be inserted over them.

3d. The roots will be made insensive and never to ache.

4th. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which, under the old system, is frequently disfigured.

5th. This work has been fully tested for over five years by many of the first chemists and physicians of this and the old country.

Drs. S. & H. have also invented a white indestructible metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through a lifetime.

TEETH EXTRACTED WITHOUT PAIN!

With Innoxious Vapor, by Drs. Sigesmond & Hayward, 280 Pennsylvania avenue, inventors and sole manufacturers of Anaestic Innoxious vapor (not Laughing Gas, nor Chloroform or Ether) but strictly an Anaestic agent, entirely free from exhilarating effects and perfectly harmless causing a quiet sleep, with pleasant sensations and perfect insensibility to pain.

Each proposal must be signed by the individual or firm making it, and must specify but one price for each and every article of the schedule or of the class bid for.

The articles, when furnished, must correspond with the samples, or any of them, if desired, and in no case be inferior in quality, to the samples, and they must be delivered without delay when ordered, and must be satisfactory to the Secretary; and a failure so to comply with this stipulation will be deemed cause for the abrogation of the contract.

Articles not named in the schedule are to be furnished at the option of the Department, at the lowest market prices, and the right is reserved of ordering a greater or less quantity of each article contracted for, as the public service may require.

Bonds, with approved security, must be given by the person or firm obtaining the contract; and in the event of the refusal or neglect of the contractor to furnish any article or articles named in the contract, on the order of the disbursing clerk, the same may be purchased in open market, and the difference in price paid therefor and the contract price shall be paid by the contractor, and be deducted in the settlement of his account for the quarter during which such refusal or neglect may occur.

The subjoined schedule specifies, as nearly as can now be done, the amount, quality, and description of each of the articles, likely to be required.
