Preference will therefore be given to the productions of American industry; and all persons making proposals to supply any article will state whether the same is of the growth and manufacture of the United States.

The whole of each article specified in the foregoing list will be deemed a class; and the person offering to furnish any such class at the lowest price (quality considered) will receive a contract for the same on executing a bond, with two or more sureties satisfactory to the Secretary of the Senate, for the performance thereof, which bond is to be filed in the office of the said secretary within ten days after the proposal has been accepted.

If any articles contracted for should not be delivered within the time stipulated, or should be inferior in any respect to the sample, the bond of the contractor will be put in suit.

Proposals should be endorsed "Proposals for Stationery for the Senate," and be directed to the Secretary of the Senate, Washington.

Proposals and specimens must be delivered at the office free of charge.

PROPOSALS.

ANTHRACITE COAL FOR THE NAVY.

NAVY DEPARTMENT, BUREAU OF EQUIPMENT AND RECRUITING, May 27, 1867.

Sealed proposals for furnishing Anthracite Coal for the Navy to be delivered during the fiscal year ending 30th JUNE, 1868, will be received at this Bureau until 10 a. m., 25th June, 1867.

These proposals must be endorsed "Proposals for Anthracite Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 20,000 tons of 2,240 pounds.

The coal must be of the best Buck Mountain or Black Heath, or of a kind equal to them in all respects, for the purpose intended, which equality will be determined by a Board appointed by the Secretary of the Navy after the receipt of the bids.

The name of the coal proposed to be furnished must be stated in the offer.

It is to be delivered in lumps of suitable size for naval steamers, clean, of uniform quality, selected free from impurities, unmixed, of which the contractor will be required to furnish such evidence as will be satisfactory, and be subject to such inspection as to quality and quantity as the Department may direct. The coal must in all respects be satisfactory to the inspector or inspectors to be appointed by the Bureau, who will have the right of peremptory rejection.

The coal to be delivered on board vessels at such place in the port of Philadelphia as may be designated by the Bureau, and in such quantities and at such times as, in the opinion of the Bureau, the exigencies of the service may require, commencing when the vessel is reported ready to receive cargo; furnishing, if demanded, not less than 600 tons per day, to be distributed to each vessel, as may be directed, until the loading is completed.

Proposals will likewise be received for the delivery of 12,000 tons of the same quality of coal, to be delivered in the port of New York, on board vessels as at Philadelphia.

In the case of failure to deliver the coal in proper quantity or the proper quality, and at the proper time and place, the Bureau will reserve in the contract the right to purchase forthwith, at the contractor's risk and expense, that which may seem necessary to supply the deficiency.

Any demurrage or other charges to which the Navy Department may be subjected from delay in the prompt delivery of the coal by the contractors will be deducted from their bills.

The price must be for the coal delivered on board vessels, on the terms and conditions above stated, at the contractor's risk and expense, and without extra charge of any kind.

The offer, as required by law, must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that they undertake that the bidder or bidders will, if his or their bid be accepted, enter into obligation, at such time as may be prescribed by the Bureau, with good and sufficient securities, to furnish the supplies proposed.

No proposition will be considered unless accompanied by such guarantee; and the Department reserves the right to reject all the offers, if considered to be to the interest of the service to do so.

Two or more sureties each in a sum equal to the amount specified to be paid, will be required to sign the contract, and their responsibility will be certified by the Assessor of Internal Revenue of the District.

As additional and collateral security twenty per cent. will be withheld from the amount of all payments, which reservation is not to be paid except by authority of the Secretary of the Navy, until the contract shall have been in all respects complied with; and the remaining eighty per cent. or other amount that may be due upon each bill, will, when a proper certificate is furnished by the inspector, and the bill approved by the Bureau, be paid by such navy agents as the contractor may name, within ten days after the receipt of the same shall have been passed by the Secretary of the Treasury.

It will be stipulated in the contract that if default be made in the delivery of the coal, in the quantity and at the place and time directed, or the quality, and at the place and time directed by the Bureau, then, and in that case, the contractor by the bond or securities will forfeit and pay to the United States, as liquidated damages, a sum of money not exceeding twice the contract price, which may be recovered from time to time, according to the act or acts of Congress in that case provided.

Bidders, whose proposals shall be accepted, and none other, will be notified, and, as early as practicable, a contract will be transmitted to them, which they will be required to execute within ten days after its receipt at the post office named by them.

The form of offer, guarantee, and certificate is herewith given:
