DEPARTMENT OF THE INTERIOR, United States Patent Office, Washington, April 24, 1868.

On the petition of Edward W. Brown, formerly of Fall River, Mass., praying for the extension of a patent granted to him the 25th day of July, 1854, and reissued the 14th day of March, 1855, for an improvement in Looms, for seven years from the expiration of said patent, which takes place on the 25th day of July, 1868:

It is ordered that the said petition be heard at the Patent Office on MONDAY, the 6th day of July next, at 12 o'clock, m.; and all persons are notified to appear and show cause, if any they have, why said petition ought not to be granted.

Persons opposing the extension are required to file in the Patent Office their objections, specially set forth in writing, at least twenty days before the day of hearing; all testimony filed by either party, to be used at the said hearing, must be taken and transmitted in accordance with the rules of the office, which will be furnished on application.

Depositions and other papers, relied upon as testimony, must be filed in the office twenty days before the day of hearing; the arguments, if any, within ten days after filing the testimony.

Ordered, also, that this notice be published in the Republican and the Intelligencer, Washington, D. C., and in the Journal, Providence, R. I., once a week for three successive weeks; the first of said publications to be at least sixty days previous to the day of hearing. A. M. STOUT,

Separate bids must be made for each article, and in triplicate; and with a copy of this advertisement attached to each.

Bidders are invited to be present or represented at the opening of the proposals.

The Government reserves the right to reject all bids or accept or refuse such parts as may be to the best interests of the service.

Proposals should be addressed to the undersigned, and endorsed upon the envelope "Proposals for the delivery of Forage and Straw."

By order of Brevet Brigadier General R. Saxton, Chief Quartermaster.

H. J. FARNSWORTH, First Lieutenant 34th Infantry, A. A. Q. M., in charge of Depot. je26-1d

PROPOSALS FOR POSTAGE STAMPS.

Post Office Department, June 22, 1868.

Proposals will be received until 12 m. of July 22, next, for furnishing Postage Stamps for a term of four years, commencing 2d of September next.

Bidders will state the price per thousand Stamps, deliverable in packages of ten thousand each, at the Post Office Department in Washington.

Also, the price per thousand in similar packages deliverable to the agent of the Department at the place of manufacture.

Also, the price per thousand delivered in larger packages, as required either at the Department or place of manufacture.

Also, the price per thousand separated in such quantities as may be daily ordered for the use of post offices, never less than two hundred stamps, and securely packed in tin cases, suitable inside board boxes, with muslin or other equally strong covers, or in suitable envelopes, according to the quantity and distance to be conveyed, as may be required by the Department, stating the difference, if any, between the cost of delivery to an agent at the place of manufacture and at Washington, D. C. All such packages, before mailing, to be reexamined and recounted by an agent of this Department.

Bidders will also give the additional cost for directing packages for the mails and preparing blank receipts, according to the form of an agent of the Department, either at the Department or manufactory.

Proposals must be made for the Stamps in sheets, perfectly gummed, and printed in such manner that each separate Stamp can be readily detached and used.

The denominations of Stamps now in use are one cent, one cent, three cents, five cents, ten cents, twelve cents, fifteen cents, twenty-four cents, thirty cents, and ninety cents; and five cents, ten cents, and fifteen cents for periodicals. The superfices of the periodical Stamps will be about ten times that of the letter Stamps. On all of the Stamps the denomination must be given distinctly, in figures as well as letters, and the whole work must be executed in the best style.

The Stamps must be prepared in such a manner that any attempt to remove them from a letter or packet will so mutilate them as to render them useless.

Special proposals for Stamps on embossed paper, as now in use, are invited.

The whole number of Stamps furnished to the Department during the year ending the 30th of June, 1867, was 311,501,000.

From past experience it is supposed that the number of packages mailed will average above two hundred daily, varying in size from two half sheets, or 200 stamps, up to the 500 half sheets, or 50,000 stamps; but by far the larger proportion of packages contain not more than 20 half sheets or 2,000 stamps.

Each bid is to be accompanied with a specimen of the style of engraving and quality of the paper to be furnished, which will be submitted to competent persons, to be selected by the Postmaster General, for examination; and the accepted bidder before the final consummation of a contract, will be required to prepare designs and furnish proof impressions of the engravings of the several denominations of stamps, of such a variety in the sizes as well as the designs of the stamps.

Specimens of board and tin boxes and envelopes for the transmission of stamps must also be submitted for examination and approval, and packed boxes by muslin or other covers in the most effectual manner against wet or abrasion.

The contract will require all dies and plates to be prepared in the best manner, and that new dies and plates shall be made, either for the present denominations of stamps or others, without charge, at the pleasure of the Department; and all such dies and plates are to be the property of the United States for the service of the Post Office Department.

No bids will be considered except from parties who have been actually engaged in the business of copper-plate printing and steel engraving, and are thus engaged at the time of bidding, and who are occupying suitable fire-proof premises, and provided with all the necessary facilities to execute the work promptly, and give the requisite protection to the stamps, dies, and plates in their possession.

Parties not known to the Department will furnish proof as to these points with their bids.

The Postmaster General reserves the right of deciding which bid, in its practical results, may be most to the interest of the Department, having reference to the style of the work, security, mode of packing, &c., as well as to the terms, and also of rejecting any or all bids, if in his judgment the interests of the Department require it.

Proposals should be carefully sealed, and marked "Proposals for Postage Stamps," and addressed to the Third Assistant Postmaster General.

ALEX. W. RANDALL, Postmaster General.
