SATURDAY, May 13—P. M.

There are several causes which to-day contributed their individual mites toward a better feeling and a better market at the Stock Exchange. First among them is the continuance of the advance in the price for Chicago and Northwestern common stock, which was begun yesterday and now is alleged to be the operation of a large speculator; second, the bank statement, which shows the averages for the week to be less unfavorable than had been expected; and, third, there was a remaining "short" interest among the room traders, who were becoming fatigued by the dullness and inaction of the last few days, and who at the first indication of advancing prices aided the advance by their own eagerness to purchase. Such other causes as there were, were simply accumulative causes that were generated by the three principal causes already named—for instance, that class of speculative instinct which buys on a strong market, and sells for no other reason than that the market seems to be weak. Nevertheless, the increased activity which recorded transactions of 183,500 shares, and fluctuations that exceeded the limits of small fractions, was a welcome boon to commission brokers, and it is hoped and generally believed that to-day's market has broken the monotony of the last few days, which was unprofitable to all alike. The business of the day was unusually well distributed and the improved temper was general, covering the whole list. The dealings, however, were in a nutshell, and concerned none but professional speculators and their brokers.

Government bonds were only moderately active and were irregular. The bids for the 4s were advanced ¼, while for the continued 5s they were ⅛ lower. Annexed are the closing quotations:

U. S. 4s 1907 cou...	120⅞	121⅛	Dist of Col. 3-65s.	109	....

The feature of the dealings in State bonds was the decline from 58¼ to 56¼ for Tennessee 6s. Louisiana consols sold at 67, Missouri 6s, 1888, at 113, and South Carolina non-fundables at 7, seller fifteen days. Of city bank stocks the only sale was thirty shares of Metropolitan, at 166¾@166.

Generally there was little doing in railroad bonds, and that little was at declining figures. But the Erie new issues were a marked exception to the rule: second consols, with transactions amounting to $545,000, rose from 95¾ to 97½@97, and the funded 5s rose from 91 to 93. The cause for the exceptional movement is the announcement that the June interest on the bonds is certain to be paid. There has been little real doubt at any time that the June interest would be paid, but it has been questioned, and it was that uncertainty which recently depressed the price of the seconds to 93. Missouri, Kansas and Texas first consols were ¼ lower at 105¾, and general 6s were steady at 83¼. Central of New-Jersey consols were ¼ lower at 110¼, and Chesapeake and Ohio firsts, series B, declined 1 per cent to 80¼. St. Louis and Iron Mountain new 5s were active, and sold at 78@79¼. New-York elevated firsts were up ¾ at 118⅞, and Metropolitan firsts were steady at 102⅛@102. East Tennessee, Virginia and Georgia incomes were unchanged at 50, New-York, Chicago and St. Louis firsts at 89, and Long Island 5s at 97½. Delaware and Hudson firsts, Pennsylvania division, sold at 125⅛. St. Paul firsts, Southern Minnesota division, were ¼ lower at 107½. St. Paul and Omaha consols improved ¼ to 104¾. Kansas Pacific consols were ¼ higher at 103¼. Texas and Pacific incomes were ⅛ higher at 64⅝, and firsts, Rio Grande division, were steady at about 81½.

The Sub-Treasury to-day lost $354,705 on balance, made up by a coin loss of $407,434, less a currency gain of $52,729. The day's transactions covered: Receipts, $931,990; payments, $1,286,695; currency balance, $4,128,872; coin balance, $89,804,153. Money was easy all day at about 3@3½ per cent, and the closing business was done at 2½ per cent.

The weekly bank statement to-day was less unfavorable than it was expected to be, because of a larger influx of legal-tender notes than was calculated upon. The statement, however, as usual, is only an average, and this time is made upon falling averages for cash. The following are the totals of the statement, and the changes from last week:

Loans.....	$315,788,800	Inc.	$553,200
Specie.....	61,761,700	Dec.	3,979,400

The Clearing House statement to-day is as follows: For the day—Exchanges, $98,011,789; balances, $4,551,909. For the week—Exchanges, $807,640,924; balances, $30,187,699.

The United States Treasury now holds United States bonds to secure National bank circulation, $365,069,150; bonds deposited during the week, $1,971,250; bonds withdrawn during the week, $2,087,550. National bank currency outstanding: Currency notes, $359,621,277; gold notes, $892,699. The customs receipts at Washington to-day amounted to $710,544; and internal revenue receipts to $551,896. The Treasury received $341,000 in National bank notes for redemption, the total of such receipts for the week, compared with the same week of 1881, being as follows:

	1881.	1882.
New-York.....	$682,000	$915,000
Boston.....	55,000	151,000

Total.....	$1,600,000	$2,153,000

The London market was steady for British consols at 101 15-16 and 102 1-16 for money and account respectively. United States bonds were quoted 103¾ for the continued 5s and 122¾ for the 4 per cents. American railways were dull and lower. The Bank of England gained £11,000 bullion on balance. At Paris French 3 per cents were off to 83.80 francs.

The following shows the exports (exclusive of specie) from the Port of New-York to foreign ports for the week ending May 9 and since the beginning of the year, as compared with the corresponding periods of previous years:
