BALTIMORE MARKETS.

BALTIMORE, October 30.—Breadstuffs.—Flour.—The sales reported to-day are 1,000 barrels Howard Street, and included 500 bbls. Western Family, for export to Brazil, at $6.50, the remainder being for home consumption, as follows: 100 Western Super at $4 37½; 100 do. Extra at $4.50; 200 do. Family at $5.75 and 200 bbls. City mills Family at $6.75.

Wheat.—The receipts of Wheat to-day were more liberal, amounting to 36,300 bushels, of which 27,000 bushels were Southern, and the market ruled dull for all descriptions at the decline noted yesterday. The sales embrace 600 bushels Western white at $1.60, 400 do. amber at $1.65, 1,300 bushels Southern white at $1.40 to $1.55 for good to choice, 7,000 bushels do. amber at $1.52, 9,000 good to prime red at $1.50@1.60, and 3,000 common to fair do. at $1.30@1.40.

Corn.—The market for Western Corn to-day was active and firmer, and we note sales of 10,000 bushels mixed to elevator at 43½@43¾ cents, bulk at latter figure; 1,000 bushels reconed do. at 40 cents, and 400 bushels new do. at 40 cents. The market for Southern was barely steady, with receipts amounting to 6,000 bushels old and 7,000 do. new. The sales of white comprise 2,500 bushels old at 49@50 cents; 1,600 new at 46@48 cents, latter for early prime, and 700 Mottled Ones at 45@46 cents, and 1,400 do. new at 44@45 cents. The receipts of Western to-day were 12,400 bushels, and the market closed firm at 43 cents for mixed to elevator.

Oats.—Were dull, with receipts amounting to 10,000 bushels. The sales to-day were 1,000 bushels Southern at 40@42 cents, and 3,000 bushels Western at 40@41 cents for mixed and at 44 cents for bright.

Rye.—The receipts are light, and the market is quiet but firm. Sales to-day 750 bushels at 85 cents, and we quote at 80@85 cents, as to quality.

Provisions.—The market for Pork stock is questioned and irregular. The transactions in Bulk Meats and B. ness are light and are limited to small jobbing lots. Prices are lower, and we now quote the former at 64½ cents for shoulders and 6½@6¾ cents for sides, and the latter at 7½@8 cents for Shoulders, 10¾ cents for rib Sides, and 11½ cents for clear rib Sides. There are no hogs on the line to market, and we quote the new unnversed at 5 cents. Mess Pork is quiet and steady at $16 per bbl. Lard is a shade firmer, and we quote prime Western steam at 6½@6¾c.

Sugars.—We learn of nothing doing as yet to-day, and quote prices to-day as follows: Cuba and Porto Rico fair to good refining at 7@7½c.; English Island fair to good refining 6¾@6¾c. Cuba Boxes No. 12, 10½@10¾c.; Porto Rico grocery 10½@10¾c.; Demerara vacuum pan, 10@11½ cts., and New Orleans grocery 9@9½ cents.

Refined Sugars.—Prices are higher in view of the advance in the raw material. We quote Hards at 11¼@11½ cents for crushed, powdered and granulated, and Softs on a basis of 10¾@11¼ cents for A white. Yellows are very firm, at 9½@11¼ cents.

Whisky.—The market to day is firmer, and we note considerable inquiry with light stock. We hear of no sales to-day, but quote Western High Wines at 94½ cents.

Special Notices.

RULES AND REGULATIONS
IN REGARD TO
SMALL-POX.
The essential nature of small-pox is to diffuse itself, and under certain favorable conditions it is not only communicable from person to person, but capable of being transported to great distances.
To prevent the propagation of the specific poison, the following sanitary regulations have been adopted by the Board of Health and approved by the Executive of the District of Columbia:
Parents and guardians shall cause their children and wards to be vaccinated before they attain the age of two years, and revaccinated whenever the Board of Health shall, after five years from the last vaccination, require it.
The Board of Health hereby orders and requires the vaccination of all the inhabitants in the District of Columbia, and whenever, in their opinion, the public health demands it, the revaccination of all persons who do not furnish satisfactory evidence that they have been successfully vaccinated or revaccinated within five years.
The Board of Health will furnish the means of vaccination to such persons as are unable to pay for the same. For this purpose the physicians to the poor, or their agents, will be directed to vaccinate the poor gratuitously; and whenever the exigency requires it, physicians will be employed to go from house to house for the purpose of vaccinating all people who need vaccination.
Principals of incorporated manufacturing companies, superintendents of almshouses, orphan asylums, industrial schools, lunatic hospitals, and of all other charities, where the poor and sick are received; masters of houses of correction, jailers, keepers of prisons, and directors or officers of all institutions supported or aided by the District of Columbia, shall, at the expense of their respective corporations, or institutions, cause all inmates thereof to be vaccinated immediately upon their admission thereto, unless they produce sufficient evidence of previous successful vaccination having taken place within five years.
Smallpox being eminently contagious and infectious, isolation forms an imperative necessity for the prevention of its propagation. Wherever, therefore, a case of smallpox occurs in a dwelling containing more than two inhabitants, it shall be the duty of the head of the family to select the most remote apartment for the occupancy of the person afflicted with smallpox—the highest room in the dwelling to be preferred.
And whenever in a tenement-house and lodging-house, boarding-house or hotel, the person afflicted by the smallpox cannot be isolated to the satisfaction of the Health Officer, said person shall be removed to the smallpox hospital by agents employed for the purpose by Board of Health.
Wherever a case of smallpox breaks out in any dwelling or place, the warning flag (made of yellow flannel) shall be attached to and exposed from the premises occupied by said case, as a warning to the passer-by of the presence of smallpox in that locality. And if the yellow flag be not immediately displayed, a placard, on which is written in large and legible letters, "Smallpox here," shall be fastened upon an exposed part of the infected house or dwelling.
It shall be the duty of those in whose dwellings smallpox occurs to fumigate the house, and the room in which the patient shall be kept, with sulphur fumes, to cleanse and disinfect every part of the dwelling by the free use of chlorinated soda, carbolic acid, and bromo chloralum, or such other disinfectant as the Board of Health may direct.
A cloth of the size of a square yard, sponged in a solution of chlorinated soda, carbolic acid, or bromo chloralum, shall be hung in the patient's room, and kept constantly saturated with the said disinfectants.
The room in which the patient shall be kept thoroughly ventilated, and no other person than a nurse who has had the smallpox, or a member of the family, shall be allowed to enter the same. Persons being in attendance upon the sick room not come in contact with other inmates or persons unless they have been previously properly fumigated and disinfected, and changed the clothing worn by them while in the sick room.
It shall be the duty of said attendants to see that no clothing is conveyed from the sick room that has not been previously disinfected and fumigated. And, never even, all clothing in said room, or worn by the subject while in the room, or sick, shall be brought out only to persons who have had the smallpox, the fact to be stated in every instance that they are from a smallpox patient, and must therefore be kept and washed separately.
Physicians or other citizens having knowledge of the existence of smallpox are expected to give immediate notice to the Board of Health of every case coming to their knowledge. But it is especially enjoined by law upon the proprietors of tenement houses, lodging houses, boarding houses, and hotels to notify the Board of Health of the presence of smallpox in their respective houses, under penalty of fine and imprisonment, and this law against all persons concerned will be strictly enforced.
It shall be the duty of the attendants to immediately notify the Board of Health of the death of any person from smallpox of which he may have knowledge, and no undertaker shall be allowed to take charge of such corpse, and the officers of the Board of Health assigned to that duty, shall take charge of, dress, or bury the body of the person who has thus died.
The interment of persons dying from smallpox shall take place within six hours after death, or as soon as the circumstances of the case will allow, and no person who has died of smallpox shall be buried in private or public cemeteries or burying grounds without a permit from the Board of Health, a member of the same, or the Health Officer.
Whenever funeral obsequies may be denied the body shall be placed in a hermetically sealed metal coffin, and no person will be allowed to be present at said obsequies or follow the corpse to the grave except the sexton and his assistants; and in no circumstances shall a corpse infected with smallpox be taken to a church or meeting-house, but it shall be conveyed directly from the house to the grave.
When people are so poor as to be unable to incur the expense of coffin and burial, any undertaker application to the proper officer to furnish a plain coffin, and in every case shall take the same to the house in which the corpse rests, but shall not place said corpse in the coffin, or take any part in laying out the dead, unless he has had the smallpox, and properly fumigated and disinfected his clothing. The laying out of the body and the burial shall be done by the officers appointed for that purpose by the Board of Health.
The smallpox ambulance shall be kept at the smallpox hospital.
The ambulance shall be accompanied by an inspector whenever needed for the removal of smallpox patients or other cases.
The inspector accompanying the ambulance and the driver are forbidden from entering street cars or any public conveyance.
They shall also keep a suit of clothing to wear during the service of removing smallpox patients; said suit of clothing to be kept fumigated and disinfected at all times, and under no circumstances shall they wear the said clothing when off duty.
The inspector attached to smallpox ambulance and the driver of the ambulance shall, until otherwise ordered, wear a linen suit while on duty.
The inspector detailed to attend to the removal of smallpox patients shall fumigate and disinfect the dwellings where smallpox cases occur. He shall see that the clothing is properly disinfected, or, if not, carried safely to the ambulance and destroyed. He shall keep an account of the clothes or furniture of poor persons which have been destroyed, with the pecuniary value of the same, and the names of the parties to whom they belong, and give a receipt for the same.
Under no circumstances shall the ambulance be allowed to carry in the streets, except for such length of time as will be required to remove the patient or the body.
The ambulance shall not be taken to any place for repair; but if repair is needed, a person having had the smallpox shall be engaged to mend it or to repair the damages.
In driving the ambulance to any point care shall be taken to avoid crowded streets, school-houses, or frequented places. The driver shall, as far as practicable, keep out of crowded thoroughfares, and shall avoid meeting or passing any procession, funeral, or large concourse of people.
The inspector shall display the yellow flag from every dwelling containing smallpox, and if said flag be taken away without authority, the Health Officer must be immediately notified of the fact.
The inspector of each district shall be notified of the presence and locality of smallpox cases in his district, and it shall be his duty to see that the quarantine regulations relating to houses having the smallpox within are properly enforced, and that no person exposed to the contagion be allowed to go out of the dwelling or come in contact with any other person.
The inspector shall in an urbane manner inform the people of the quarantine regulations imposed by the Board of Health regarding smallpox, but shall cause no unnecessary hardship.
The inspector detailed to attend to the smallpox shall first ascertain whether the case can be isolated in the dwelling so as not to expose the other inmates to the disease.
Whenever a patient in a tenement, lodging-house, boarding-house, or hotel is so situated that he cannot be isolated from other inmates, he or she shall be removed and taken to the hospital; and if any person interferes with the execution of this order, or the patient refuses to obey, the law shall be enforced against such person or persons.
If it comes to the knowledge of any inspector that cases of smallpox are hard to be accommodated, lodging-houses, boarding-houses, or hotels, without the proper notice having been given to the Board of Health as required by law, the inspector shall give immediate report to the Health Officer, stating the name of the person or persons causing or abetting in the violation of the law.
In all cases where there is doubt whether a person is really afflicted with smallpox, a physician's opinion should be secured before removal to the hospital.
The inspector shall see that the rules regarding the interment of persons who die of smallpox be complied with.
The foregoing rules and regulations are made and promulgated by the Board of Health of the District of Columbia, in accordance with an act entitled "An act for the prevention of diseases in the District of Columbia," passed by the Legislative Assembly of said District, and approved by the Governor thereof, June 19, 1872.

REMOVED,
EVAN HUGHES,
MERCHANT TAILOR.
Thanking my many patrons for their liberal patronage in the past, and hoping for a continuance of the same in my new establishment, 413 Thirteenth street, (three doors from the corner,) where I have removed from my old stand, corner of Thirteenth street and Pennsylvania avenue. Having disposed of my entire old stock at auction, previous to removal, I have stocked up my new store with a large and indeed the best selected stock of imported Cloths, Cassimeres and Vestings to be found in the market. I pledge myself to my patrons and the public generally to furnish them with all articles in my line in my usual style of elegance, and cheaper than heretofore, on account of reduced expenses by my removal from the Avenue. Respectfully,
EVAN HUGHES.
