FRIDAY, June 16—P. M.

The stock market to-day was irregular, erratic and puzzling from the opening to the close of business. There was a remarkable lack of unison in the movements of different stocks, it frequently happening that some stocks were heavy and declining at the same time that others were strong and advancing. The business of the day amounted to 340,900 shares, against 345,200 shares yesterday. Of to-day's total Lake Shore stock contributed 60,400 shares at prices ranging from 107½ to 110⅛@109⅝, an advance on last evening's final figures of 2⅜ per cent; the fluctuation in the price of the stock—and the dealings in it were the leading feature of the day's market—were frequent and sometimes wide, and it touched 110 three times in the course of the day, the last time reaching ½@⅝ per cent. In the late operations Central and Hudson stock was a special feature, because after having been comparatively steady at near 130 it suddenly rose to 131½@131¾. Central of New-Jersey was irregular and frequently fluctuated as much as 1 per cent between 71¾ and 73½ and finally closed at 73⅜, against 71¼ yesterday, and the other coal stocks followed in its wake and closed with handsome gains on last evening's closing prices, although not up to yesterday's best figures: Reading sold here at 58½@58⅛@59½, against 57⅞, the equivalent of the highest price for the day in London. The strong stocks of the day have been named. The weak ones were Denver and Rio Grande, which declined from 58 to 55¾, but recovered to 57¾; St. Paul stock, which was weak early, but later more than fully recovered, and Louisville and Nashville, which declined from 68¼ to 66⅜, but recovered to 68. At the close a buoyant and confident feeling prevailed in regard to the entire market. Leading operators confidently express the opinion that the day for an outside demand for stocks is near at hand.

There was no improvement in business for Government bonds, and quotations were only steady, after a decline of ⅛ in the bids for continued 6s, as follows:

	Bid.	Asked.		Bid.	Asked
U. S. 6s, 1881, cont.	99¾	100	U. S. cur. 6s, 1895	129	....
U. S. 5s, 1881, cont	101⅛	101⅜	U. S. cur. 6s, 1896	130	....
U. S. 4½s 1891 reg	114⅛	114⅜	U. S. cur. 6s, 1897	131	....
U. S. 4½s 1891 cou.	114⅛	114⅜	U. S. cur. 6s, 1898	132	....
U. S. 4s, 1907 reg.	119⅜	119½	U. S. cur. 6s, 1899	133	....
U. S. 4s 1907 cou.	120⅜	120½	Dist of Col. 3-65s	109	....

In State bonds no business was done except the sale of a single bond of Alabamas, Class A, at 80⅜. The quotations were steady. Of City bank stocks twenty-five shares of common sold at 152.

The railroad bond market presents little or nothing of interest beyond a few irregular fluctuations in the prices of a very few of the speculative issues. Erie second consols sold at 94@93¾, and later at 94½, against 94 last evening. Boston, Hartford and Erie firsts sold at 47 and 48. New-Jersey Central adjustments were 1½ higher at 106½. Chesapeake and Ohio currency debts were up 2 per cent at 47. Canada Southern firsts were ⅜ lower at 95. St Louis and Iron Mountain firsts sold at 116@115⅜@115½. Metropolitan Elevated firsts were strong up to 104. Evansville and Terre Haute first consols sold at 96¾. Michigan Central 5s sold at 100. Burlington, Cedar Rapids and Northern firsts were ⅝ higher at 99¼@100. St. Paul and Omaha consols were steady at 102½. Wabash general mortgages were ½ higher at 77¾@78, and firsts, Chicago division, sold at 81½. Union Pacific firsts brought 118¾@118⅞, and sinking funds 120½. Texas and Pacific incomes were ¼ easier at 64¾, and firsts, Rio Grande division, were steady at 81@80¾. Fort Worth and Denver firsts advanced from 93½@93 to 95.

The business of the Sub-Treasury for the week ending to-night includes the receipt of $8,029,598 and the payment of $9,642,815. The result is a loss to the general balance of $1,613,217, and leaves it at $92,015,302, against $93,628,519 June 9. The particular changes of the week were a coin loss of $2,683,496 and a currency gain of $1,070,279. The week's receipts, however, include $1,000,000 legal-tender notes from Washington and $1,400,000 in exchange for gold bars. The day's transactions cover: Receipts, $1,004,208; payments, $1,603,312; currency balance, $5,704,538; coin balance, $86,310,764. The foregoing indicates that to-morrow's bank statement of averages should show a very large increase in the amount of total reserves, including at least a gain in the specie reserve of over $3,000,000. The call-loan market at the Stock Exchange was abundantly supplied at 2@2½ per cent. The domestic exchanges on New-York are as last quoted.

The Clearing-House statement to-day is as follows: Exchanges, $151,390,736; balances, $6,064,083.

The United States Treasurer at Washington to-day received $276,000 National bank notes for redemption. The customs receipts were $437,475, and the internal-revenue receipts were $433,409.

The foreign exchanges are unaccountably dull and rates are easier, more because of a lack of demand than from a supply of bills. We revise our quotations for business as follows: Bankers' bills, $4 86½ and $4 89¼ for long and short sterling respectively; 5.18 and 5.14¾ for francs; 95⅛ and 95⅞ for reichmarks; and 40¼ and 40⅝ for guilders.

In London British consols were ⅛ lower for money at 100 7-16, and 1-16 lower for account at 100⅝. American railways were irregular but generally lower at the opening of business; later there were some recoveries and again a later decline. The feature of the market, however, was that with an allowance for the difference in time, the market all the time ruled lower than the equivalents of New-York prices. At Paris French 3 per cents opened ex-interest at 81.65 and fell to 81.31 fra., and sight exchange on London was weaker at 25.16 fra. to the £.

Futures quiet, closing firm at an advance of 5 to 6 points; sales, 65,600 bales. Prices paid—June, 12.09@12.14; July, 12.17@12.18; August, 12.19@12.27; September, 11.88@11.99; October, 11.50@11.53; November, 11.36@11.42; December, 11.36@11.44; January, 11.56. Prices for Rings and Margins—June, 12.11; July, 12.15; August, 12.24; September, 11.94; October, 11.54; November, 11.39; December, 11.40. 538; coin balance, $86,310,764. The foregoing indicates that to-morrow's bank statement of averages should show a very large increase in the amount of total reserves, including at least a gain in the specie reserve of over $3,000,000. The call-loan market at the Stock Exchange was abundantly supplied at 2@2½ per cent. The domestic exchanges on New-York are as last quoted.

The Clearing-House statement to-day is as follows: Exchanges, $151,390,736; balances, $6,064,083.

The United States Treasurer at Washington to-day received $276,000 National bank notes for redemption. The customs receipts were $437,475, and the internal-revenue receipts were $433,409.

The foreign exchanges are unaccountably dull and rates are easier, more because of a lack of demand than from a supply of bills. We revise our quotations for business as follows: Bankers' bills, $4 86½ and $4 89¼ for long and short sterling respectively; 5.18 and 5.14¾ for francs; 95⅛ and 95⅞ for reichmarks; and 40¼ and 40⅝ for guilders.

In London British consols were ⅛ lower for money at 100 7-16, and 1-16 lower for account at 100⅝. American railways were irregular but generally lower at the opening of business; later there were some recoveries and again a later decline. The feature of the market, however, was that with an allowance for the difference in time, the market all the time ruled lower than the equivalents of New-York prices. At Paris French 3 per cents opened ex-interest at 81.65 and fell to 81.31 fra., and sight exchange on London was weaker at 25.16 fra. to the £.

The gross earnings of the following railroads are reported:
