The Flour is made from pointed Western Wheat, and is the choicest brand made in the United States. We guarantee it in every sale. We have made arrangements with the manufacturer to keep this Flour constantly on hand. We have had so much trouble and consumers have found so much dissatisfaction with the inferior Flour made in this market that, at no little expense and trouble, we are able to offer this brand for sale to consumers in this city. We guarantee it to give satisfaction in every purchaser; and if not satisfactory, can be returned and money refunded.

New 7-30 Gold Loan
OF THE
ORTHERN PACIFIC RAILROAD CO
Secured by First Mortgage on Railroad and Land Grant.
SAFE! PROFITABLE! PERMANENT
JAY COOKE & CO.
Offer for sale at par accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States tax, and are issued of the following denominations: Coupons, $100, $500 and $1,000; registered, $100, $500, $1,000, $5,000 and $10,000.
With the same entire confidence with which we can recommend Government bonds to Capitalists and people, we ask, after the fullest investigation, recommend the Northern Pacific Railroad bonds to our friends and the general public.
GOLD PAYMENT.
Both principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest (at the rate of seven and three-tenths per cent or annum) half-yearly, first of January and July.
PERFECT SAFETY.—The bonds we are now asking are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of its work:
1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.
2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This land, agricultural, timbered and mineral, amounting in all to more than Fifty Million Acres, consists of alternate sections, reaching twenty to forty miles on each side of the track, and extending in a broad fertile belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon, and Washington, to Puget Sound.
While the Government does not directly guarantee the bonds of the road, it does amply provide for their full and prompt payment by an unsecured grant of half the most valuable over conferred upon a great national thoroughfare.
THE MORTGAGE.—The Trustees under the Mortgage, are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interest of the First Mortgage bond holders, and are required to see that the proceeds of land sales are used in purchasing and cancelling the bonds of the Company if they can be bought before maturity at not more than 10 per cent. premium; otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in their control, as security, at least 400 acres of average land for every $1,000 of outstanding first mortgage bonds, besides the railroad itself and all its equipments and appurtenances.
BONTABLENESS.—Of course nothing can be safer than the bonds of the United States, but as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment while still having a perfectly reliable security, that:
United States 6-20's at the average premium yield the present purchaser less than 5½ per cent. gold interest. Should they be redeemed in five years, and equal payments be resumed, they would really pay only 4½ per cent., or if in three years, only 3½ per cent., as the present premium would assuredly be sunk.
Northern Pacific 7-30's selling at par in currency yield the investor 7 3-10 per cent. gold interest absolutely for thirty years, free from United States tax; $1,100 currency invested now in United States 5-20's will yield per year in gold—say $65; $1,100 currency invested now in Northern Pacific 7-30's will yield per year in gold $80.30. Here is a difference in annual income of nearly one third, besides a difference of 7 to 10 per cent. in principal, when both classes of bonds are redeemed.
THE ROAD NOW BUILDING.—Work was begun a July last on the eastern portion of the line and the money provided by the sale to stockholders of some six millions of the Company's bonds, to build and equip be rent from Lake Superior across Minnesota to the Red River of the North—225 miles. The grading on this division is now well advanced, the iron is being rapidly laid; several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end to early spring, and thereafter the work will be pushed both eastward and westward, with as much speed as may be consistent with solidity and a low economy.
RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable, at $1.10, in payment for the Company's lands, at their lowest cash price.
BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupon for registered, and both these can be exchanged for others, payable, principal and interest, at any of the principal financial centres of Europe, in the coin of the various European countries.
HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amounts and of any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.
Those living in localities remote from banks, may send money or other bonds, directly to us by express and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, &c., call on or address the undersigned, or any of the Banks or Bankers employed to sell this loan.
