Jubilance of the merchants in that section of the country, and this despite the fact that the Chicago markets for grain and provisions were strong at material advances on yesterday's weak prices. All these reports and rumors, except the fact of the condition of the Chicago markets, conspired to create an uneasy feeling among the "bears" and a hopeful one on the part of the "bulls." Hence the late sharp advance in prices that marked final figures considerably higher than the lowest of the day and generally somewhat higher than yesterday's closing prices. The market closed quiet and strong.

Government bonds were as dull as usual, and the only change in prices was a decline of ⅛ per cent in the final bids for the four per cents. The market closed steady at the annexed quotations:

Railroad bonds were dull, with only small changes in figures, but these generally were in the direction of lower prices. Erie second consols, after fluctuating between 94 and 93¾, closed at 93¾. Missouri, Kansas and Texas first consols were ⅛ off at 106, seconds ¼ lower at 60, and general 6s down ½ at 79. Mobile & Ohio firsts sold at 106, against 104½, the last preceding sale, and first debentures sold at 77. Canada Southern firsts rose ¼ higher at 95¾ and Metropolitan firsts steady at 104. Western Union 7s, 1900, sold at 117, Michigan Southern Sinking Fund at 107½, Chicago, St. Louis and New-Orleans guaranteed 5s at 104½ and International and Great Northern firsts at 106 and income 6s at 87½@87¾. Denver and Rio Grande Consols, firsts, were ¼ lower at 112½@112¾. Texas and Pacific incomes were ⅜ lower at 64⅜, and firsts Rio Grande division were ⅝ higher at 82⅞. New-Orleans and Pacific firsts sold at 80½@87¼, and Fort Worth and Denver firsts were strong at 95⅝@95⅞. The following are the closing quotations:

The Sub-Treasury to-day gained $41,055 on balance, made up by a coin gain of $67,113, less a currency loss of $26,108. This makes the net gain on balance since last Saturday $616,844. The day's transactions covered: Receipts, $1,236,149; payments, $1,195,144; currency balance, $5,664,476; coin balance, $87,967,670. Money to-day was easy at 3@2½ per cent, the closing rate being 3. The domestic exchanges on New-York at the places named are quoted as follows: Savannah, par to ¼ premium; Charleston, ⅛@¼ premium; New-Orleans, commercial $1 50@$1 discount, bank $2 premium; St. Louis, 90 cents premium; Chicago, 50 cents premium; Boston, 10@20 cents premium.

The Clearing-House statement to-day is as follows: Exchanges, $157,166,116; balances, $5,538,519.

The United States Treasurer at Washington to-day received $414,000 National bank notes for redemption. The customs receipts were $636,537, and the internal-revenue receipts were $502,711.

The foreign exchanges are dull with an equally small supply and a light demand for bills. The condition of our trade balances and of the exchanges between the Continent and London indicate greater activity and more shipments of gold at an early date. We quote rates for business as follows: Bankers' bills, $4 86¼ and $4 89¼ for long and short sterling respectively; 5.18 and 5.14¾ for francs; 95 and 95¼ for reichmarks, and 40¼ and 40⅝ for guilders.

The Governors of the Bank of England, at their regular weekly meeting to-day made no change in the bank's minimum rate for discount, and it remains at 3 per cent. During the week the bank gained £664,000 bullion on balance, and the proportion of its reserve to its liabilities was raised from 44⅞ to 46 1-16 per cent, against 48½ per cent at this date in 1881. To-day the Bank lost £29,000 bullion on balance. The weekly statement of the Bank of France shows a specie gain of 15,707,000 francs in gold and 906,000 francs silver. At the London Stock Exchange British consols opened heavy with a decline of ¼ per cent to 100 9-16 for money and 100 11-16 for account, and closed without recovery. The difference of ⅛ per cent between money and account—10 days—is worthy of note because it is the equivalent of 4½ per cent for American for money, while money is quoted in the open market at 2½ per cent for bank drafts and 2½@3 per cent for bankers' 60@90 day bills. American railways made a further decline in response to yesterday's closing figures in the home markets and later partly recovered. At Paris French 3 per cents opened at $1.05 and rose to $1.35, and sight exchange on London fell to 25.14½ frs. to the £.

ROME, WATERTOWN AND OGDENSBURG RAILROAD.

The reorganization of the Rome, Watertown and Ogdensburg Railroad Company having been practically consummated by the assent of ninety-seven per cent of the holders of first consolidated mortgage bonds and of eighty per cent of its stockholders to the plan of November 9, 1881, the Governors of the Stock Exchange yesterday ordered a discontinuance of dealings at the board in the "Trust Company's Certificates" for the stock and first consolidated bond of the company.

The former consolidated 7s 1904 of the company are extended to 1922 with interest at the rate of 5 per cent per annum from July 1, 1882, and each assented bond bears the following indorsement:

NEW-YORK, April 1, 1882.—It is hereby agreed between the Rome, Watertown and Ogdensburg Railroad Company and the holder of this bond that the time for the payment of the principal hereon shall be extended to July 1, 1922, upon the same security by mortgage that now exists and upon the same terms that are expressed in this bond and the mortgage securing the same, except that this bond shall commence to bear interest July 1, 1882, and the interest thereafter shall be paid at the rate of 5 per cent per annum. The consent of the holder of this bond to this agreement is evidenced by the surrender of this bond for the purpose of having this agreement indorsed hereon and by the acceptance of the sheet of coupons hereto annexed. Rome, Watertown and Ogdensburg Railroad Company, by J. A. LAWTER, Treasurer.

The first coupon of the sheet of coupons issued in place of the unmatured coupons of the original bonds is for $12 50, payable October 1, 1882; after that for $25, payable April and October, and the last coupon is $12 50, payable July, 1922. These bonds are "listed" as first consolidated convertible mortgage 5 per cent bonds, $5,500,000. The company's prior-lien mortgage bonds taking precedence of the consolidated mortgage are as follows:

Watertown and Rome 7 per cent 25-year bonds, due September 1, 1889, but extended to 1910, at 5 per cent	$418,500
Rome, Watertown and Ogdensburg first mortgage, 7 per cent 30-year bonds, due December 1, 1891	1,021,500
Rome, Watertown and Ogdensburg second mortgage 7 per cent 30-year bonds, on January 1, 1892	1,000,000
Syracuse and Northern 7 per cent 50 year bonds, due July 1, 1901	500,000
Total prior to consolidated mortgage bonds	$2,940,000

Income mortgage 7 per cent bonds, $2,250,000, interest from July 1, 1882, payable annually in January if earned, also are "listed." These bonds are issued to fund part-due interest to July 1, 1882, and for the 10 per cent paid into the treasury of the company by assenting stockholders.

The company's capital account when the few remaining bonds are assented will stand as follows:

Prior lien bonds mentioned above	$2,940,000
First consolidated convertible mortgage 5 per cent bonds due July 1, 1922	5,500,000
Income mortgage 7 per cent bonds due July 1, 1922	2,250,000
Stock outstanding	5,250,000
Floating debt	85,000

Of the above first consolidated convertible mortgage bonds the amount of $567,000 is held in the treasury of the company, and an additional amount of $292,000 is hypothecated to secure the floating debt.

Stockholders are requested to return their Trust Company certificates and receive new certificates of stock.
