THE MONEY MARKET.

MONDAY, July 3—P. M.

To-day being observed as an extra holiday at the Stock Exchange, there will be no markets until Wednesday.

The foreign financial markets will be found subjoined under their proper head.

The business of the Sub-Treasury to-day covered: Receipts, $1,294,493; payments, $7,999,563; currency balance, $5,645,401; coin balance, $83,936,901.

The Clearing-House statement to-day is as follows: Exchanges, $174,192,113; balances, $10,578,904.

The total movements of flour and grain at the principal points for the week ended July 1, 1882, and since January 1, for years 1881 and 1882, were as follows:

THE MARKETS.

WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending July 3, 1882.

BEANS AND PEAS.

Receipts for four days—Beans, 305 pkgs; Peas, 1,500 bush. Exports—Beans, 1,321 pkgs; Peas, 18,213 bush. Imports, 732 bags. There is a light stock of foreign beans here but the demand is moderate and the market is very quiet. About 8d is the selling price of prime quality in car lots; small jobbing sales are from $3 to $3 10. State Marrow held rather firmly, some receivers asking $4 10. Medium quiet. Very little export demand for Red Kidney at the moment, and it would be difficult to effect sales above $2 85. Pea Beans scarce and firm. There is less excitement in Black Beans; speculators have bought up about all the stock and are now offering it at $2 15. Green Peas in small jobbing demand at $4 45. Southern B. E. steady. Canada Peas in bulk in bond quoted at 96 c.

BUTTER.

Receipts for four days, 23,440 pkgs; last week, 45,281 pkgs; corresponding week last year, 29,430 pkgs. Exports for the week, 2,955 pkgs. The market was very quiet up to Thursday, when the local demand improved a little. On Friday and Saturday some eastern speculators bought up 600 to 800 pkgs of fine Western Creamery at 25c., and the week closed with a steadier feeling without much if any change in prices. To-day there is nothing doing, but the tone of the market remains steady. Best grades of State Creamery are selling to jobbers at 26c., and fancy Iowa lots at 25c. It might be possible to do a little better under certain circumstances, but some choice lots are still offered at 24½c. Selections of State dairy half firkin tubs reach 25c., but 24c. is about the top for unbroken invoices. Western Imitation Creamery in rather light receipt and steady. Dairy in better supply and easier. Jobbing sales can be placed above 21c. Factory has less export demand and favors buyers; receipts are not large but the tone of Western advices shows a weakness and we are likely to get more goods in a week from now. Quotations:

CHEESE.

Receipts for four days, 54,880 boxes; last week 60,460 boxes, corresponding week last year, 1,3,306 boxes. Exports for the week, 6,554 boxes; same time last year, 24,207 boxes. Liverpool cable quotations, 58s. Freight by steamer to Liverpool, 17s. 6d. @3s. There was some demand to-day for Cheese to ship on the fast steamer Alaska to sail to-morrow. Several shippers were willing to pay 11¼c. for Fancy State Factory, while others would not go above 11c., no matter how good the quality. Medium and even low grades were also in fair demand. Ohio flats show no improvement, a few of the best are selling in the home trade at 8½@9c., but most of the receipts have been forced off to shippers at from 4 to 7½c. Creamery Skims are in fair receipt and steady; only a small proportion of the arrivals can be placed at top quotation.

EGGS.

Receipts for four days, 9,692 pkgs.; last week, 15,334 pkgs.; corresponding week last year, 3,046 pkgs. Following our last report the market for Western Eggs advanced to 21c. under temporary scarcity, caused by the non-delivery of receipts at the depots and the holding back of stock in transit by railroads. Since last Wednesday, however, the market has been very dull, and the supply has been ample for all requirements. Prices have fallen back to the rates last quoted. To-day there is a limited demand at 20c. for fine Western and 21c. for Canadian. Late shipments from the West have generally arrived here on time and no further delays are anticipated. State Eggs are in moderate supply and steady at 22c. for the best marks; lots sold in a small way to retailers reach 22½c.

FRUITS, BERRIES AND NUTS—DRIED.

Receipts of Dried Fruit for the week, 30 pkgs. with 446 pkgs. of Peanuts and — pkgs. of Pecan Nuts. Exports of Dried Apples, 86 pkgs. The market is very dull. There are very few out-of-town orders received and the local demand amounts to little or nothing. The remaining stock is small, but holders are not disposed to carry over anything that will pay and are turning lower prices on all grades. A little speculative movement in Peanuts has influenced receivers to hold for higher prices, which has tended to check the demand. Pecans firm. Quotations:

FRUITS AND BERRIES—FRESH.

Strawberries are less plenty and have advanced. Some nice lots arriving from western New-York sold to-day at 14@17c. Rarely 18c. for Extra. Up-river Berries are not of very good quality; the few Prime lots received bring full prices. Receipts from Jersey have nearly ceased except from a few nearby points. Peaches are improving in quality and sell well. Choice varieties from North Carolina bring $4, rarely a little more, but a good many Common lots still arrive, for which receivers are glad to get $1 50@$2 50 per crate. Some Fancy Georgia Peaches have sold up to $2 50@$3 per 56 bush. crate. Inferior Norfolk Peaches have appeared but are hardly salable. A few small lots of Red Raspberries, Blackcaps, and Huckleberries sell at quotations. Currants sell well if choice. Cherries scarce and higher. Watermelons plenty but selling readily and a shade higher.

HOPS.

Receipts for four days 545 bales, last week 1,183 bales. Exports for the week 61 bales. Brewers are buying a few lots as they want them, and we hear of an occasional sale to the trade, but the market generally is very quiet, with prices held about steady. A late London cable says the crop prospects are worse than at any time during the summer. In this State the vine is making good progress. Conservative growers who have looked the ground over carefully think the yield will be about one-third less than last year.

POULTRY AND GAME.

The receipts of Live Poultry have fallen off very materially, and prices have steadily advanced. To-day 2 cars of Western Fowls were sold at 17c., and a few Common Southern at 16c. The extra demand for Spring Chickens occasioned by the Fourth of July holiday caused a sharp advance in prices, but the feeling is now easier, and 25c. is the top for good near by lots; nearly a car of small Southern Chickens sold to-day at 22c. Turkey a poor and neglected. Ducks and Geese steady.

The market for Dressed Fowls has steadily improved since our last report. Receipts have been moderate, and the demand good for the Fourth of July trade. To-day choice State or Western Dry Picked Fowls sold at 18c., and the top reached at 17c., partly in sympathy with the advance in Live. Spring Chickens are in large supply and easier. Selected Philadelphia lots sell at 36@38c., but straight lots without selection are offered at 32@35c., and only reach the outside figure when they run largely to Heavy Chickens. Western Scalded Chickens very rarely exceed 29c, though if large and fine a shade more can be obtained. Spring Ducks are dull and weak. Old Ducks sell to the extent of arrivals; they are not plenty, but few are wanted. A few frozen Turkeys have sold at 20c; the remaining stock could be bought at that price. Tame Squabs steady; very few wild Squabs or Pigeons arrive. A choice lot of stall-fed Pigeons, all large and fat, would bring $2; some small birds sold at $1 50. A lot of choice wild Squabs brought $1 50, but that price is extreme for them. English Snipe and Plover are firm but very dull.

VEGETABLES.

Exports of Potatoes, 851 bbls. of Onions, 29 pkgs. Receipts of Norfolk Potatoes have been very liberal and prices have steadily declined. The market was pretty well cleaned up last Saturday, shippers buying a good many at about $3@$4 for Norfolk and $3 for Eastern Shore. To-day there are 12,500 bbls. from Norfolk, and with a good demand prices are a shade firmer. Very few sales of Norfolk stock exceed $4, but a few very extra marks, having a special reputation of their own, have reached $4 25@$4 50. A large part of the arrivals sell at $3@$3 50, and for Eastern Shore stock $3 is still the ruling price. Norfolk Beans are running poor and selling at irregular prices, the best Refugee reaching $1 50. Some Choice Long Island lots sold at $5 per bag. Norfolk Cucumbers are selling generally at $2 50; a few Choice brought $2 75, but a good many are pretty yellow and sell at $2. Norfolk Tomatoes are green and poor; Savannah and Charleston Tomatoes arrive in irregular order and sell in a wide range. Squash dull. Near-by vegetables sell moderately at quotations.

BEEVES—Receipts yesterday and to-day were 173 car loads at Jersey City and 59 cars at 37th st, making 4,157 head against 3,961 head last Monday. The arrivals for the past week were 209 head more than last week, and 191 head less than the corresponding time last year. There has been a good sprinkling of Cherokees, Texans, and Colorados, which have been much superior in quality to those brought forward last year and prices during the week have fluctuated very little for these as well as Common Grass-fed Natives. All grades of Native Steers from Fair to Grass-fed Natives. Prime have shown a gradual improvement since last Monday until to-day when the best grades, especially fat Steers weighing 1,350@1,450 lb, sold a shade lower than Friday, while Medium and Good Steers of 1,150@1,250 lb weight were doing a little better than any day last week. Cows were mainly of cars of Native and Colorado Stillers on sale were mainly of rather inferior quality, the best selling at 13@13½c., while several cars sold down as low as 9¾@10½c. to dress 55 lb. The demand with a few tail-ends (very poor), at 7½@8½c. The demand for these was not as good as for Cherokees and Texans and nice, tidy, Grass-fed Natives, which make more clean money for Washington Market butchers than any other grades of Cattle. Taken as a whole, the market to-day was a fairly good one, and the 182 fresh cars left for sale (after deducting the 50 cars which went to slaughterers direct) were mostly sold before 10 o'clock. A good Dressed Beef trade this morning encouraged butchers to buy freely, and very few, if any, Cattle were likely to be carried over for Wednesday's market. Extremes for Texans to-day and Wednesday's market. Extremes today for Texans and Cherokees were 9@11c. to dress 55 lb. with 9 cars of Colorados sold at an average of about 11½c. also to dress 55 lb. Extremes for Natives were 7½c. to dress 54 lb. and 15½c. to dress 57 lb. with Common to Prime selling mainly at 11½@15½c. to dress 56@57 lb. Texan Beef sold in Washington Market at 8½@10c. and Native Sides at 9@13c for Poor to Prime, with a few extra carcasses from the slaughter-houses at 13½c.

No shipments of Live Stock or fresh meat from this port today or to morrow.
