There were no sales in Elevator, but we quote firm at 41@41½ cents. During the cholera epidemic in that city in 1849 he was most assiduous in his labors, and found himself at the age of thirty-two, although comparatively young in years, among the oldest physicians in the city, with an extensive and lucrative practice. He was of a simple, nervous temperament, great decision of character, a fine surgeon and skillful practitioner, and was most ardently devoted to his profession, from which he gathered a handsome competence, and to which he gave the best and latest energies of a well-cultivated and vigorous mind. PROPOSALS FOR LIVE OAK.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, March 19, 1873.

Sealed proposals for the delivery of 50,000 cubic feet of Live-oak timber, of the best quality, at either the Kittery, Charlestown, or Brooklyn navy yard, or of such proportion of the 50,000 cubic feet of timber at the Department may direct, will be received at this bureau until THURSDAY, the 17th day of April next.

These proposals must be indorsed "Proposals for Live-oak," that they may be distinguished from other business letters.

Sureties in the full estimated amount will be required to sign the contract, and, as additional and collateral security, twenty-five (25) per centum will be withheld on the amount of each delivery until the contract is satisfactorily completed.

In all the deliveries of the timber there must be a due proportion of the most difficult and crooked pieces, and no more than one-fifth of such further amount in addition to the 25 per centum as may be judged expedient to secure the public interest will be allowed for such portions as may be delivered.

The remaining 75 per centum, or other proportion of each bill, when approved in triplicate by the commandant of the yard, will be paid by such purchasing paymaster as the contractor may designate within thirty (30) days after their presentation to him, it will be stipulated in the contract that if default be made by the parties of the first part in delivering all or any of the timber of the required quality and at the time and place provided, then, and in that case, the contractor, and his sureties, will forfeit and pay to the United States a sum of money not exceeding twice the total amount thereon agreed upon as the price to be paid in case of the actual delivery thereof, which may be recovered according to the act of Congress in the case provided, approved March 3, 1863.

The 50,000 cubic feet to be delivered will be in the following proportions: say 8,120 cubic feet of pieces suitable for stems, sternposts, deadwoods, aprons, knees, breasthooks, lodgers and hooks, all sided from 12 to 20 inches, and the hooks sided 14 and 16 inches. These pieces to be in the proportions in which they enter into the composition of a ship-of-war; conforming substantially in shape, length and character with those heretofore received with frames of corresponding sizes, the models of which can be seen at any navy-yard; 25,000 cubic feet of the siding of 13 and 14 inches, in about equal quantities of each, and 16,880 cubic feet of a siding of 12 inches; all these pieces being in length from 13 to 17 feet, with a natural and fair curve of from 12 to 16 inches or more in that length, and one half the number of pieces to have from the mean to the greatest crook. Also, 7,900 cubic feet of timber sided 13 and 14 inches, in length from 17 to 21 feet.

All to be sided straight and fair, and rough-hewed the moulding way to show a face of not less than two-thirds the siding, the waste being deducted in the measurement.

The timber to be cut from trees growing within thirty miles of the sea, of which satisfactory evidence will be required, and to be delivered in the respective yards, at the risk and expense of the contractor, subject to the usual inspection, and to the entire approval of the commandant of the yard.

The whole quantity to be delivered within one year from the date of the contract.

Satisfactory evidence must be presented with each proposal that the parties offering either the timber, or are acquainted with the subject, and have the facility to procure it.

In addition to the above, separate "sealed proposals" will be received at the same time, on the same terms and conditions, and similarly indorsed, from persons having the timber on hand already cut, for the delivery in each of the navy yards at Charlestown and Brooklyn, of from 2,500 to 10,000 cubic feet of live-oak, the principal pieces sided 12 to 17 inches, the remaining portion 13 and 14 inches; the principal pieces and crooked timber being in the same proportion to the quantity offered as the specified in the first case, with the same lengths and crooks.

The whole amount contracted for in this case must be delivered on or before the 1st of September next.

The Department reserves the right to reject any and all bids for any timber under this advertisement, or reduce the amount, if considered not to the interest of the Government to accept them, and to require satisfactory evidence that this are bona fide in all respects, and are made by responsible persons.

Parties desiring to bid for furnishing this timber will be furnished with instructions, as to the form of offer required, upon application to this bureau.
