sent at 87. Richmond and Danville firsts were ½ lower at 100¼, and the debentures were off ½ at 80 after selling at 79½. Indianapolis, Bloomington and Western seconds sold at 76½, and firsts, Eastern division, at 95. Long Island 5s sold at 97¾, Rochester and Pittsburg firsts at 104½, and South Carolina firsts at 101⅞, and incomes at 60. Wabash general 6s declined from 85¾ to 84½. Texas and Pacific firsts, Rio Grande division, were off ⅞ per cent at 84¾, the incomes of main line being steady at 67.

The Sub-Treasury to-day gained $498,755 on balance, made up by a coin gain of $701,657, less a currency loss of $202,902. That makes the net gain since last Friday $1,818,550. To-day's transaction covered: Receipts, $1,384,331; payments, $885,576; currency balance, $6,066,608; coin balance, $81,978,842. The call loan money market worked more easily to-day and the business was done at unusually early hours at 5@6 per cent. Later and after the bulk of transactions were over the rate fell to 3 per cent, at which the last loans—small amounts—were made. Among the domestic exchanges on New-York, the rate at St. Louis advanced to par, and at Boston it weakened to 35@30 cents discount; at other points rates were as last quoted.

The Clearing-House statement to-day is as follows: Exchanges, $132,815,556; balances, $3,581,950.

The United States Treasurer at Washington today received $315,000 National bank notes for redemption. The customs receipts were $1,342,343, and the internal revenue receipts $352,215.

The foreign exchange markets present no change: commercial bills are absorbed as fast as they are made, and rates for 60 days' bankers' bills are rather firmer than they were, while sight bills are in demand. For business we quote as follows: Bankers' bills, $4 85½ and $4 89 for long and short sterling respectively; 5.19¾ and 5.15¼ for francs; 94⅝ and 95⅝ for reichmarks; 40 and 40⅜ for guilders.

In London, British consols were steady at unchanged figures: 99 11-16 for money and 99¾ for account. United States bonds were irregular; the continued 5s advanced ⅛ to 102⅝, the 4½s rose from 116¾ to 117 and declined to 116⅝, and the 4s, after an advance of ¼ to 122, closed at 121⅞. For American railways more than usual fluctuations are reported, and prices were irregular, but the closing figures generally were the lowest reported for the day. The Bank of England gained £10,000 bullion on balance. At Paris, French 3 per cents were up to 82.70, and later declined to 82.55 francs.

Attention is directed to the advertisement in another column of B. B. Kirkland & Co. It is expected that the New-York, Susquehanna and Western Railroad will be opened at an early day to the lands of the Anthracite Coal Company, which consist of about 8,000 acres. The capacity of the coal company will be from 1,500 to 2,000 tons of coal per day. The New-York, Susquehanna and Western Railroad owns a majority of the stock of the coal company, and the stock is lodged in trust, for the benefit of the first mortgage bondholders first, and the railroad company itself as owner. On the completion of the road the company will have no floating debt.

## LIVE STOCK MARKET.

NEW-YORK, Aug. 16—BEEVES—Receipts were 214 cars of 4,008 head—201 cars at Jersey City and 13 cars at 45th st. Total for four days, 9,188 head, against 8,132 head for the corresponding time last week. The market was overstocked, and the receipts were in excess of what slaughterers expected. With a bad wind-up to the Dressed Beef market yesterday, and a slow trade in Washington Market this morning, they tried to force prices down and sellers, although reluctant to drop the figures to suit the dead meat trade, were obliged to yield ½c. per lb, and at the reduction could not clear the yards by 400 carcasses. Trade dragged from beginning to end of the market. Most of the stock on the Pennsylvania Road was behind time, and the last train of 21 cars had not reached the yards at 2 o'clock p. m. There were nearly 100 cars of Texans and Colorado Steers on the market, and they had the preference over Common and Medium Natives, selling at 9¼@10½c. to dress 55@56 lb, with some of the tops as high as 10¾c. to dress 55@56 lb. A car-load of very Common State Cattle sold at 8@8½c. to dress 53@54 lb, and some Common Western Steers at 9¼@9½c. to dress 55 lb; but general sales of Common to Prime Natives were at 9¾@13¾c. to dress 55@56 lb, with a few of the best selling at 14c. to dress 56@57 lb. Two cars of Pure Virginia trash were sold at auction by S. Smith at $2.90@$3.10 per 100 lb, and a load of Bulls at $3.40, and a sheriff's sale, although not popular, must be called in this instance a success.
