Richmond and Danville debentures declined 1 per cent to 77½ and Rochester and Pittsburg incomes rose 1 per cent to 52. St. Paul and Omaha consols were stronger at 105¾. Denver and Rio Grande firsts sold at 114. Texas Pacific firsts, Rio Grande division, were off ½ at 86 and Northern Pacific firsts were easy at 103¾@103⅞.

The Sub-Treasury to-day lost $94,187 on balance, made up by losses of $77,545 coin and $16,187 currency. That makes the total loss since last Friday $130,642. In call loans at the Stock Exchange to day only a small percentage of the business was done at under 6 per cent, while a very large proportion of it was done at 8@9 per cent, and some small amounts at 10 per cent. After loans had been made at 9 per cent, the usual effort, during a lull in the demand, to depress the quotations was made, but after 7 per cent the rate again advanced to 9 per cent, and closed at 7@8 per cent. The domestic exchanges on New-York at the places named are quoted as follows: Savannah, par to ¼ premium; Charleston, par to ¼ premium; New-Orleans, $1 50@$1 discount for commercial, and $2 50 premium for bank checks; St. Louis, 25 cents discount; Chicago, 50@25 cents discount; Boston, 40@35 cents discount.

The Clearing-House statement to-day is as follows: Exchanges, $143,208,516; balances, $5,465,483.

The United States Treasurer at Washington today received $197,000 National bank notes for redemption. The customs receipts were $1,072,072 and the internal-revenue receipts $1,059,949.

The foreign exchange markets to-day were easier for bankers' bills, but more because of a light demand than because of an increased supply, and ease in quoted rates, without business, is a cheap method of fleecing rates for commercial bills, which still are eagerly sought after by bankers. The revised quotations for business are as follows: Bankers' bills, $4 85¼ and $4 89½ for long and short sterling respectively; 5.19 and 5.15 for francs; 94¾ and 95¾ for reichmarks; 40 and 40⅜ for guilders.

In London British consols opened ⅛ lower at 99 9-16 and 99 11-16 respectively for money and account, and later recovered to 99 11-16 and 99⅞. United States bonds were quoted firmer at 102¾ for 3½s, 115⅜ for 4½s and 122⅛ for 4s. American railways generally are higher than on Saturday, but the improvements were only a close approximation to home figures as indicated by Saturday's closing quotations. The Bank of England gained £26,000 bullion on balance. At Paris, sight exchange on London was lower at 25.20½ francs to the £.

The following are the quotations for unlisted securities:

WOOL—Messrs. Hallowell & Coburn, of Boston, say: The sales this week imply an active demand at current rates, but they do not indicate the full strength of the market. It is safe to say that double the amount would have been reported had dealers been satisfied to continue selling at present quotations. We considered last week that the ruling price but will show an improvement of fully 1c. per lb. in Fine and Medium grades. This advance will be entirely justified by the condition of the Woolen goods market, and in view of the cost of the Wool is a necessity to the shipper. The sales of the week consist of 810,300 lb. Washed, 1,370,100 lb. Unwashed, 240,300 lb. Scoured, 248,900 lb. Pulled and Yelds; total Domestic, 3,069,600 lb.; Foreign, 102,600 lb.; total Domestic and Foreign, 2,783,200 lb.

LIVE STOCK MARKET.
