GETTYSBURG
KATALYSINE WATER.
The United States Dispensatory, the authorized record of our Materia Medica, names this water among the most renowned alkaline or carbonated Springs of Europe. It far excels any other known in its self-preserving properties. It does not deteriorate by bottling and keeping. It has never been claimed for any other mineral water the power to dissolve the urates, or so-called chalk formations in the joints or anywhere else in the human body. This the distinguishing Katalysine Water has done in hundreds of instances. *Gout, Rheumatism, Neuralgia, Dyspepsia, Gravel, Diabetes, Bright's Disease, Urinary Diseases* generally have all yielded to its influence. It has restored *Muscular Power* to the paralytic, cured *Albuminuria* and restored healthy action to the *Torpid Liver*. It has cured *Chronic Diarrhœa, Piles, Constipation, Asthma, Catarrh, Diseases of the Skin, General Debility* and *Nervous Prostration from Mental and Physical Exposure*. All those by the bottled water. It is a powerful antidote for *Excessive Eating or Drinking*. It corrects the Stomach, promotes Digestion and relieves the Head almost immediately. Pamphlets containing a history of the Spring, reports from eminent physicians and medical writers, testimonials and well-attested cures, and testimonials from distinguished citizens, will be furnished and sent by mail on application.

PROPOSALS.

PROPOSALS FOR FRESH BEEF AND VEGETABLES.

OFFICE NAVY PAYMASTER, NAVY YARD, PENSACOLA, June 16, 1873.

Sealed proposals, indorsed "Proposals for Fresh Beef and Vegetables," will be received at this office until 3 o'clock p. m. on the 1st day of July, 1873, for the supply of twenty thousand pounds of Fresh Beef and twenty thousand pounds of Fresh Vegetables, at the Pensacola Navy Yard and Station, as required.

The Beef must be of good quality, and equal to the grade necessary to make the best mess beef, and be delivered in equal proportion of fore and hind quarters. The vegetables must be of the best quality the market affords, and the Beef and Vegetables must be offered for by the pound.

Bonds, with approved security, will be required in one quarter the estimated amount of the contract, and twenty per cent. in addition will be withheld from the amount of each payment as collateral security for the due performance of the contract, which reservation will not be paid until the contract is fully complied with.

Every offer must be accompanied by a written guaranty, signed by one or more responsible persons, that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the articles proposed.

No proposal will be considered unless accompanied by such guaranty, and the Department reserves the right to reject any proposal unless the responsibility of the guarantors is certified to by the collector of internal revenue for the district in which they reside, and unless satisfactory evidence that the bidder is a regular dealer in the articles he offers to supply is furnished with the proposal, as well as to reject any proposal not considered advantageous to the Government.

It is to be understood that the contract will expire at the close of the fiscal year ending June 30, 1874, without regard to the quantities which may have been delivered, and, in case the stipulated quantity of either article shall be delivered before that date, leaving a balance due on the other article, the contract may be considered as completed in full, at the option of the Department.

WILLIAM J. THOMPSON, Paymaster, United States Navy.

P. A. Paymaster Jas. A. Greene, United States Navy.

Approved: M. H. WOULSEY, Commandant.

PROPOSALS.

NAVY YARD, MARE ISLAND, CALIFORNIA, June 16, 1873.

Sealed proposals, indorsed "Proposals for Excavating Dry Dock," will be received at the Commandant's office until 12 o'clock, noon, of TUESDAY, the 1st day of July, 1873, for the excavation of about 8,000 cubic yards of materials from the site of the Dry Dock at this Navy Yard.

The contractor is to furnish all the necessary teams, carts, tools, labor, materials and everything necessary for excavating and storing the dirt from said Dry Dock. He is to execute the work in such order and manner, and deposit the earth excavated at such place on this island as may be pointed out by the Civil Engineer in charge of the work. It is possible that in the progress of the work it may be necessary to make a tunnel for the drainage culverts; to meet this contingency, bidders are requested to state a price per cubic foot for which they will engage to perform the excavation and timbering for the tunnels; the area of the section of the tunnels will be about 4 feet 6 inches square. The time of drainage while the excavation is in progress will be borne by the Government.

No bid will be received from any parties except such as are known to be in the business and are considered by the Commandant of the Navy Yard and of whose responsibility the Commandant shall be the judge, and who can give satisfactory evidence of their ability to perform the work faithfully and expeditiously.

The Government reserves the right to reject any and all offers, and no payment will be made until one fourth of the work is performed, and the remaining payments when one half, three fourths and the whole work are respectively completed; payments of 80 per centum of the amount due will be made and 20 per centum of each bill will be retained until the whole work is completed.

Bidders are requested to name the time in which they will engage to complete the work, and their offers must be accompanied with the certificate of two great bankers who will become responsible, and in the sum of $10,000 for the work, if awarded to the said bidders. The certificate to the guarantors' responsibility must be certified to by the Collector of Internal Revenue for the district in which they reside.

No portion of the above-described work will be allowed to be sublet by the contractor without especial authority from the Navy Department.

Other information will be furnished on application at the Commandant's office, at the Navy Yard, Mare Island. THOS. O. SELFRIDGE, Com'd't.
