WEDNESDAY, Sept. 6—P. M.

The stock speculation to-day opened with considerable spirit and higher prices were recorded for almost all stocks of a speculative character. The activity and generally better feeling were ascribed to the prepayment offered by the Treasury for the $16,000,000 bonds due on September 13, and no little stress was laid by those operators interested for higher prices upon their special reasoning that the Secretary's action in anticipating the payment seven days before the date of maturity of the bonds removed all fears of a monetary stringency this autumn. The market, however, very soon lapsed into dulness; but the early advance was very well sustained until late in the day. The special features of the day were the comparatively large dealings in and the advances made for the Northern Pacific shares. Those stocks were exceptional in holding at the close the whole of their advances, which were 1¼ for the common and 2⅜ per cent for the preferred stock. There is a good deal of talk about a large short interest in the stocks, particularly in the preferred shares; but if any such interest of unusual magnitude does exist it is not made apparent in the stock loan market. Rochester and Pittsburg was weak at the opening and weak all the day. Probably the talk about a large "short" interest in that stock is for effect, to make a market for the proposed additional issue of $5,000,000 stock by the company. The general market in the last hour sagged off so that the final figures show little or no gains on yesterday's last prices and in a few instances small declines. The market closed dull.

Again there were no transactions in Government bonds at the boards and the market was weak. Bids were ⅛ lower for the 3½s and 4s and ¼ lower for the 4½s. Annexed are the closing quotations:

In State bonds Tennessee 6s declined ⅞ per cent to 54½ and the compromise bonds sold at 64, Missouri 6s, 1886, sold at 108 and 1890 at 111. Of city bank stocks American Exchange sold (10) at 134 and Park (41) at 157.

Little more than a retail business was done in railroad bonds and that at irregular prices. There were no sales of and hardly a quotation for Erie second consols; first gold consols were ½ lower, at 127. Rome, Watertown and Ogdensburg extended 5s sold at 74¼@74. Chesapeake and Ohio firsts, series B, were ¼ higher, at 86, and currency interest recovered to 51¾. Ohio Central incomes were up 1 per cent to 36, and Ohio Southern incomes were ½ lower at 32¾@33. New-York Elevated firsts were weaker at 114¾@115. New-York, Chicago and St. Louis firsts sold down ¾ to 94⅛. Rochester and Pittsburg incomes were manipulated between 51½ and 53. St. Paul consols were up 1 per cent at 126. Texas and Pacific incomes were steady at 64 and firsts Rio Grande division declined ⅜ to 85@85¼.

The Sub-Treasury to-day gained $463,437 on balance, made up by a coin gain of $476,461 less a currency loss of $13,024. That makes the total gain since last Friday $1,233,016. To-day's transactions covered: Receipts, $1,118,024; payments, $654,587; currency balance, $5,849,315; coin balance, $89,751,560. The foregoing figures do not include the payments by checks for $2,722,089 of called bonds and interest, but the checks deposited in the banks were as much money to the loan market as they will be to-morrow after passing through the Clearing House and finally are paid by the Sub-Treasury, and the banks receiving them to-day probably will count the checks as coin to-night. The small amount of bonds presented for payment to-day had little effect on the money market, and call loans ruled at 5@6 per cent until the business was practically over—about 2:30 p. m.—after which money was offered down to 2½ per cent. Call loans on Government bonds rule at 4 per cent.

The Clearing-House statement to-day is as follows: Exchanges, $133,119,770; balances, $4,959,555.

The United States Treasurer at Washington today received $200,000 National bank notes for redemption. The customs receipts were $1,075,803 and the internal-revenue receipts $146,033.

The foreign exchanges are very dull and in the absence of business rates are temporarily weakened by anticipation of negotiations of some new loans abroad by Western railroads. Quotations for actual business are as follows: Bankers' bills, $4 85 and $4 89 for long and short sterling respectively; 5.19¼ and 5.15½ for francs; 94¾ and 95⅝ for reichmarks; 40 and 40⅜ for guilders.

In London the prices for British consols—money and account—more nearly approximated to each other by a decline of ⅛ to 99¾ for account; later both money and account were ⅛ higher at 99 11-16 and 99⅞ respectively. United States 4½s were ⅛ lower at 115½; the other issues were not quoted. American railways generally were higher than yesterday; notably so Central and Hudson and the Atlantic and Great Western firsts and seconds. The Bank of England gained £30,000 bullion on balance. At Paris, French 3 per cents were higher at 83.47½; and sight exchange on London rose to 25.24 francs to the £.

Messrs. I. S. Kennedy & Co. will pay on and after October 2 the coupons then due from the Canadian Pacific Railway Company's first mortgage land grant 5 per cent bonds.

The following are the quotations for unlisted securities:
