There were no resales in old Western, and no sales were reported.

Corn.—The sales of Western mixed were 15,000 bushels, to arrive all in November, at 61@62 cents, and at the close it was offered freely at the lower figure. Mixed in Elevator is held nominally at 62 cents, but small lots can be bought at something below that price.

Rye.—Is steady at 80@81 cents for fair to prime. We note a sale to-day of 600 bushels damp at 70 cents.

We quote Shoulders at 6¾ cents, and clear rib Sides held at 8¾ cents, by the car load, loose, and for cash, but jobbing lots, packed, are selling on the usual credit at considerably above these rates. Bacon is lower, and we now quote Shoulders at 7¾@8 cents, and clear rib Sides at 11¾@11¾ cents, and 11¾@11¾ cents for Hams. Lard is dull and nominal at 7¾@7¾ cents for prime Western steam, and Mess Pork is quiet at $16@15 per bbl. for old and new.

PROPOSALS.

PROPOSALS FOR MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT, WASHINGTON, D. C., Sept. 17, 1873.

SEPARATE SEALED PROPOSALS will be received at this Department until 12 o'clock noon, the FIFTEENTH DAY OF DECEMBER, 1873, for furnishing, under separate contracts, two different kinds of padlocks and keys; one for the sole and exclusive use of *registered through mails*, and the other for the sole and exclusive use of *street letter boxes*.

Every proposal must be accompanied with duplicate samples of the locks and keys thereby offered to be furnished; one of each kind of sample lock to be riveted up and finished, and another to be open or unriveted, so that its internal structure and arrangement may readily be examined. Each sample should be plainly marked with the bidder's name, and if the same, or any part thereof, be covered by a patent, the name of the patentee must be attached thereto. It must also be such as shall be warranted to not infringe on any patented invention of which the bidder is not the patentee or assignee.

The internal plan or arrangement of the locks offered, and the particular form of the keys requisite to open them, must not be like any now or hitherto in public or private use, and must not have been exhibited, described or exposed, in any manner tending to impair their security and usefulness for the mails; and it will be an important consideration in favor of any lock and key submitted if, being otherwise suitable, it shall have been invented specially for the purpose for which it is offered.

Locks suitable for the registered mails, or for the street letter boxes, should not exceed eight ounces each in weight, and should possess a high degree of security, strength and durability. Every such lock, while it must be secure from being opened by any other means than by its peculiar key, (unless designedly broken by extreme and outrageous violence,) must be devoid of any intricacy in opening with the proper key, and be capable of being so curely shut without the use of the key. The shape or size of the locks for *registered mails* should be such as to make them distinguishable at a glance from the locks of the *street letter boxes*, and both should, by their external shape, be instantly distinguishable from the mail locks now in use.

The Registered Mail Locks should be made of hard and tough brass, excepting the shackle and rivets, which must be iron, the latter well shouldered, countersunk, and headed at both ends. The shell or case of such locks must not have sharp angles, and must be free from knobs, escutcheons or other appendages likely to be compressed, battered, or knocked out of order by the peculiarly hard usage of the service. Each lock is to have outside upon its face, in letters sufficiently large and distinct, "*U. S. Registered Mail*," and also each number, (in figures, each, not less than 5-16 of an inch long,) by which it may be ordered; a different number, not exceeding four places of figures in any case, being required on each lock. Such words and figures are to be stamped or engraved, or if the shell be made of wrought or sheet brass, or to be raised if the shell be made of cast metal. All the locks for registered mails are to be uniformly alike, excepting the numbers marked on them, and all their keys, which should be case-hardened iron and nickel-plated, are to be uniformly alike, and all their keys, which should be case-hardened iron and nickel-plated, are to be sunk by stamping, if the shell be made of wrought or sheet brass, or to be raised if the shell be made of cast metal. All the locks for registered mails are to be uniformly alike, excepting the numbers marked on them
